## **RBC International Equity Currency Neutral Fund**

#### Investment objective

To provide long-term capital growth. The fund invests primarily in units of other mutual funds managed by RBC GAM or an affiliate of RBC GAM (called the underlying funds), emphasizing mutual funds that invest in equity securities of companies outside of North America while minimizing the exposure to currency fluctuations between foreign currencies and the Canadian dollar. The fund aims to provide exposure to economies that offer different business cycles and growth opportunities than North American markets.
