Investment Objectives

RBC 6-10 Year Laddered Canadian Corporate Bond ETF seeks to provide unitholders with exposure to the performance of a diversified portfolio of Canadian corporate bonds, divided (“laddered”) into five groupings with successive maturities ranging from six to ten years, that will provide regular income while preserving capital.

RBC Canadian Discount Bond ETF seeks to provide unitholders with exposure to the performance of a diversified portfolio of primarily Canadian government and corporate bonds which at the time of purchase are trading below the weighted average price of the universe of Canadian short term bonds to provide regular income while preserving capital.

RBC PH&N Short Term Canadian Bond ETF seeks to provide regular monthly income with the potential for modest capital growth by investing primarily in a well-diversified portfolio of short-term fixed-income securities issued by Canadian corporations and governments.

RBC Short Term U.S. Corporate Bond ETF seeks to provide regular monthly income with the potential for modest capital growth by investing primarily in a well-diversified portfolio of short-term fixed-income securities issued in the U.S. market by U.S. and foreign corporations.

RBC BlueBay Global Diversified Income (CAD Hedged) ETF seeks to provide unitholders with exposure to the performance of a diversified portfolio of global bonds that provide regular monthly income and total returns comprised of interest income and modest capital appreciation, while seeking to minimize the exposure to currency fluctuations between foreign currencies and the Canadian dollar.

RBC Canadian Preferred Share ETF seeks to provide unitholders with exposure to the performance of a diversified portfolio of primarily Canadian preferred share securities that will provide regular income and that have the potential for long-term capital growth.

RBC Quant Canadian Dividend Leaders ETF seeks to provide unitholders with exposure to the performance of a diversified portfolio of high-quality Canadian equity securities that are expected to provide regular income from dividends and that have the potential for long-term capital growth.

RBC Quant Canadian Equity Leaders ETF seeks to provide unitholders with broad exposure to the performance of a diversified portfolio of high-quality Canadian equity securities that have the potential for long-term capital growth.

RBC Quant U.S. Dividend Leaders ETF seeks to provide unitholders with exposure to the performance of a diversified portfolio of high-quality U.S. equity securities that are expected to provide regular income from dividends and that have the potential for long-term capital growth.

RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF seeks to provide unitholders with exposure, either directly or indirectly through investment in other mutual funds managed by RBC GAM or an affiliate, to the performance of a diversified portfolio of high-quality U.S. equity securities that are expected to provide regular income from dividends and that have the potential for long-term capital growth, while seeking to minimize the exposure to currency fluctuations between the U.S. and Canadian dollars.

RBC Quant U.S. Equity Leaders ETF seeks to provide unitholders with broad exposure to the performance of a diversified portfolio of high-quality U.S. equity securities that have the potential for long-term capital growth.

RBC Quant U.S. Equity Leaders (CAD Hedged) ETF seeks to provide unitholders with broad exposure, either directly or indirectly through investment in other mutual funds managed by RBC GAM or an affiliate, to the performance of a diversified portfolio of high-quality U.S. equity securities that have the potential for long-term capital growth, while seeking to minimize the exposure to currency fluctuations between the U.S. and Canadian dollars.

RBC Quant European Dividend Leaders ETF seeks to provide unitholders with exposure to the performance of a diversified portfolio of high-quality European equity securities that are expected to provide regular income from dividends and that have the potential for long-term capital growth.

RBC Quant European Dividend Leaders (CAD Hedged) ETF seeks to provide unitholders with exposure, either directly or indirectly through investment in other mutual funds managed by RBC GAM or an affiliate, to the performance of a diversified portfolio of high-quality European equity securities that are expected to provide regular income from dividends and that have the potential for long-term capital growth, while seeking to minimize the exposure to currency fluctuations between foreign currencies and the Canadian dollar.

RBC Quant EAFE Dividend Leaders ETF seeks to provide unitholders with exposure to the performance of a diversified portfolio of high-quality equity securities in markets in Europe, Australasia and the Far East (EAFE) that are expected to provide regular income from dividends and that have the potential for long-term capital growth.

RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF seeks to provide unitholders with exposure, either directly or indirectly through investment in other mutual funds managed by RBC GAM or an affiliate, to the performance of a diversified portfolio of high-quality equity securities in markets in Europe, Australasia and the Far East (EAFE) that are expected to provide regular income from dividends and that have the potential for long-term capital growth, while seeking to minimize the exposure to currency fluctuations between foreign currencies and the Canadian dollar.

RBC Quant EAFE Equity Leaders ETF seeks to provide unitholders with broad exposure to the performance of a diversified portfolio of high-quality equity securities in markets in Europe, Australasia and the Far East (EAFE) that have the potential for long-term capital growth.

RBC Quant EAFE Equity Leaders (CAD Hedged) ETF seeks to provide unitholders with broad exposure, either directly or indirectly through investment in other mutual funds managed by RBC GAM or an affiliate, to the performance of a diversified portfolio of high-quality equity securities in markets in Europe, Australasia and the Far East (EAFE) that have the potential for long-term capital growth, while seeking to minimize the exposure to currency fluctuations between foreign currencies and the Canadian dollar.

RBC Quant Emerging Markets Dividend Leaders ETF seeks to provide unitholders with exposure to the performance of a diversified portfolio of high-quality emerging market equity securities that are expected to provide regular income from dividends and that have the potential for long-term capital growth.

RBC Quant Emerging Markets Equity Leaders ETF seeks to provide unitholders with broad exposure to the performance of a diversified portfolio of high-quality emerging market equity securities that have the potential for long-term capital growth.

RBC Strategic Global Dividend Leaders ETF seeks to provide unitholders with exposure, either directly or indirectly through investment in other mutual funds managed by RBC GAM or an affiliate, to the performance of a diversified portfolio of high-quality global equity securities that are expected to provide regular income from dividends and that have the potential for long-term capital growth.

RBC Strategic Global Equity Leaders ETF seeks to provide unitholders with broad exposure, either directly or indirectly through investment in other mutual funds managed by RBC GAM or an affiliate, to the performance of a diversified portfolio of high-quality global equity securities that have the potential for long-term capital growth.

RBC Quant Global Infrastructure Leaders ETF seeks to provide unitholders with exposure to the performance of a diversified global portfolio of high-quality equity securities of companies that own or operate infrastructure assets that will provide regular income and that have the potential for long-term capital growth.

RBC Quant Global Real Estate Leaders ETF seeks to provide unitholders with exposure to the performance of a diversified global portfolio of high-quality Real Estate Investment Trusts (REITs) and equity securities of real estate management and development companies that will provide regular income and that have the potential for long-term capital growth.

See "Investment Objectives".

Purchase and Listing of Units

Units of the RBC ETFs are listed on the TSX or the Neo Exchange, as the case may be, and offered on a continuous basis. Investors may incur customary brokerage commissions in buying or selling Units. All orders to purchase Units directly from an RBC ETF must be placed by Authorized Dealers or Designated Brokers. See "Purchase of Units".

Additional Considerations

No Authorized Dealer has been involved in the preparation of this prospectus or has performed any review of the contents of this prospectus.

For a discussion of the risks associated with an investment in Units of the RBC ETFs, see "Risk Factors".

In the opinion of counsel, provided that an RBC ETF qualifies as a mutual fund trust within the meaning of the *Income Tax Act* (Canada) (the "Tax Act"), or the Units of the RBC ETF are listed on a "designated stock exchange" within the meaning of the Tax Act (which currently includes the TSX and the Neo Exchange), such Units will be qualified investments for trusts governed by Registered Plans.

While each RBC ETF is a mutual fund under the securities legislation of certain provinces and territories of Canada, the RBC ETFs have received exemptive relief from certain provisions of Canadian securities legislation applicable to conventional mutual funds. See "Exemptions and Approvals".

Documents Incorporated by Reference

During the period in which the RBC ETFs are in continuous distribution, additional information will be available in the most recently filed comparative annual financial statements, any interim financial statements filed after the most recent comparative annual financial statements, the most recently filed annual management report of fund performance (“MRFP”), any interim MRFP filed after the annual MRFP of each RBC ETF and the most recently filed ETF Facts of each RBC ETF. These documents are or will be incorporated by reference into, and form an integral part of, this prospectus. See “Documents Incorporated by Reference”.

RBC ETF and the names of each of the exchange-traded funds listed above are trademarks of Royal Bank of Canada.

IMPORTANT TERMS

Authorized Dealers – registered brokers and dealers that enter into Authorized Dealer Agreements with one or more RBC ETFs and that subscribe for and purchase Units from such RBC ETFs, and **Authorized Dealer** means any one of them.

Basket – as applicable, equities, bonds or other securities as RBC GAM may determine in its discretion from time to time for the purpose of subscription orders, exchanges, redemptions or for other purposes.

BlackRock Canada – BlackRock Asset Management Canada Limited.

BlueBay AM – BlueBay Asset Management LLP.

BlueBay Investment Sub-advisory Agreement – means the investment sub-advisory agreement between BlueBay AM and RBC GAM dated October 25, 2012, as amended from time to time.

CAD Units – the Canadian dollar denominated Units offered by each of the RBC ETFs.

Cash Creation Fee – the fee payable in connection with cash-only payments for subscriptions of a Prescribed Number of Units of the applicable RBC ETF, representing, as applicable, brokerage expenses, commissions, transaction costs and other costs or expenses that the RBC ETF incurs or expects to incur in purchasing securities on the market with such cash proceeds.

Cash Exchange Fee – the fee payable in connection with cash-only payments for exchanges of a Prescribed Number of Units of the applicable RBC ETF, representing, as applicable, brokerage expenses, commissions, transaction costs and other costs or expenses that the RBC ETF incurs or expects to incur in selling securities on the market to obtain the necessary cash for the exchange.

CDS – CDS Clearing and Depository Services Inc.

Constituent Issuers – means, for each RBC ETF, the issuers included in the portfolio of that RBC ETF from time to time.

Constituent Securities – means, for each RBC ETF, the securities of the Constituent Issuers included in the portfolio of that RBC ETF from time to time.

Designated Brokers – registered brokers and dealers that enter into agreements with one or more RBC ETFs to perform certain duties in relation to such RBC ETFs, and **Designated Broker** means any one of them.

EAFE – means Europe, Australasia and the Far East.

GST – federal goods and services tax.

HST – harmonized sales tax, which currently applies in lieu of GST in the Provinces of Ontario, New Brunswick, Nova Scotia, Prince Edward Island and Newfoundland and Labrador.

IRC – the independent review committee of the RBC ETFs as described under “Organization and Management Details of the RBC ETFs – Independent Review Committee”.

Management Fee Distribution – as described under “Fees and Expenses – Management Fee Distributions”, an amount equal to the difference between the applicable management fee otherwise chargeable and a reduced fee determined by RBC GAM from time to time and distributed quarterly in cash by an RBC ETF to certain unitholders who hold large investments in the RBC ETF.

Master Declaration of Trust – the amended and restated master declaration of trust dated as of April 16, 2020 governing the RBC ETFs, as it may be further amended and/or restated from time to time.

MRFP(s) – management report(s) of fund performance.

Neo Exchange – the Neo Exchange.

Net Asset Value – in relation to a particular RBC ETF, the value of the total assets held by that RBC ETF, less an amount equal to the total liabilities of that RBC ETF.

Net Asset Value per Unit – in relation to a particular RBC ETF, the Net Asset Value of that RBC ETF attributable to a class divided by the total number of Units of the class of that RBC ETF outstanding.

NI 81-102 – National Instrument 81-102 – *Investment Funds*.

NI 81-107 – National Instrument 81-107 – *Independent Review Committee for Investment Funds*.

Prescribed Number of Units – in relation to an RBC ETF, the number of Units determined by RBC GAM from time to time for the purpose of subscription orders, exchanges, redemptions or for such other purposes as RBC GAM may determine.

RBC ETFs – collectively, RBC 6-10 Year Laddered Canadian Corporate Bond ETF, RBC Canadian Discount Bond ETF, RBC PH&N Short Term Canadian Bond ETF, RBC Short Term U.S. Corporate Bond ETF, RBC BlueBay Global Diversified Income (CAD Hedged) ETF, RBC Canadian Preferred Share ETF, RBC Quant Canadian Dividend Leaders ETF, RBC Quant Canadian Equity Leaders ETF, RBC Quant U.S. Dividend Leaders ETF, RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF, RBC Quant U.S. Equity Leaders ETF, RBC Quant U.S. Equity Leaders (CAD Hedged) ETF, RBC Quant European Dividend Leaders ETF, RBC Quant European Dividend Leaders (CAD Hedged) ETF, RBC Quant EAFE Dividend Leaders ETF, RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF, RBC Quant EAFE Equity Leaders ETF, RBC Quant EAFE Equity Leaders (CAD Hedged) ETF, RBC Quant Emerging Markets Dividend Leaders ETF, RBC Quant Emerging Markets Equity Leaders ETF, RBC Strategic Global Dividend Leaders ETF, RBC Strategic Global Equity Leaders ETF, RBC Quant Global Infrastructure Leaders ETF and RBC Quant Global Real Estate Leaders ETF and **RBC ETF** means any one of them.

RBC GAM – RBC Global Asset Management Inc., the manager, trustee and portfolio manager of the RBC ETFs.

RBC GAM (US) – RBC Global Asset Management (U.S.) Inc.

RBC GAM (US) Investment Sub-advisory Agreement – means the investment sub-advisory agreement between RBC GAM (US) and RBC GAM dated December 19, 2011, as amended from time to time.

RBC IS – RBC Investor Services Trust, the custodian, valuation agent and securities lending agent of the RBC ETFs.

RBC Quant Dividend Leaders ETFs – collectively, RBC Quant Canadian Dividend Leaders ETF, RBC Quant U.S. Dividend Leaders ETF, RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF, RBC Quant European Dividend Leaders ETF, RBC Quant European Dividend Leaders (CAD Hedged) ETF, RBC Quant EAFE Dividend Leaders ETF, RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF, RBC Quant Emerging Markets Dividend Leaders ETF and RBC Strategic Global Dividend Leaders ETF and **RBC Quant Dividend Leaders ETF** means any one of them.

RBC Quant Equity Leaders ETFs – collectively, RBC Quant Canadian Equity Leaders ETF, RBC Quant U.S. Equity Leaders ETF, RBC Quant U.S. Equity Leaders (CAD Hedged) ETF, RBC Quant EAFE Equity Leaders ETF, RBC Quant EAFE Equity Leaders (CAD Hedged) ETF, RBC Quant Emerging Markets Equity Leaders ETF and RBC Strategic Global Equity Leaders ETF and **RBC Quant Equity Leaders ETF** means any one of them.

RBDI – RBC BlueBay Global Diversified Income (CAD Hedged) ETF.

RCD – RBC Quant Canadian Dividend Leaders ETF.

RCDB – RBC Canadian Discount Bond ETF.

RCE – RBC Quant Canadian Equity Leaders ETF.

Registered Plans – trusts governed by registered retirement savings plans, registered retirement income funds, registered disability savings plans, deferred profit sharing plans, registered education savings plans and tax-free savings accounts.

RGRE/RGRE.U – RBC Quant Global Real Estate Leaders ETF.

RID/RID.U – RBC Quant EAFE Dividend Leaders ETF.

RIDH – RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF.

RIE/RIE.U – RBC Quant EAFE Equity Leaders ETF.

RIEH – RBC Quant EAFE Equity Leaders (CAD Hedged) ETF.

RIG/RIG.U – RBC Quant Global Infrastructure Leaders ETF.

RLD – RBC Strategic Global Dividend Leaders ETF.

RLE – RBC Strategic Global Equity Leaders ETF.

RMBO – RBC 6-10 Year Laddered Canadian Corporate Bond ETF.

RPD/RPD.U – RBC Quant European Dividend Leaders ETF.

RPDH – RBC Quant European Dividend Leaders (CAD Hedged) ETF.

RPF – RBC Canadian Preferred Share ETF.

RPSB – RBC PH&N Short Term Canadian Bond ETF.

RUD/RUD.U – RBC Quant U.S. Dividend Leaders ETF.

RUDH – RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF.

RUE/RUE.U – RBC Quant U.S. Equity Leaders ETF.

RUEH – RBC Quant U.S. Equity Leaders (CAD Hedged) ETF.

RUSB/RUSB.U – RBC Short Term U.S. Corporate Bond ETF.

RXD/RXD.U – RBC Quant Emerging Markets Dividend Leaders ETF.

RXE/RXE.U – RBC Quant Emerging Markets Equity Leaders ETF.

Strategic Alliance – as described under “Organization and Management Details of the RBC ETFs – Strategic Alliance with BlackRock Canada”.

Strategic Alliance ETFs – as described under “Organization and Management Details of the RBC ETFs – Strategic Alliance with BlackRock Canada”.

Sub-advisors – means, collectively, BlueBay AM and RBC GAM (US), and **Sub-advisor** means any one of them.

Tax Act – the *Income Tax Act* (Canada) and the regulations issued thereunder.

Trading Day – for each RBC ETF, a day on which (i) a regular session of the TSX or the Neo Exchange, as the case may be, is held; and (ii) the primary market or exchange for the majority of the securities held by the RBC ETF is open for trading.

TSX – the Toronto Stock Exchange.

Underlying Funds – as described under “Investment Strategies – Investment in Underlying Funds”, and **Underlying Fund** means any one of them.

Unit – in relation to a particular RBC ETF, a unit of beneficial interest in that RBC ETF, being either a CAD Unit or USD Unit, as applicable in the circumstances.

U.S. – United States of America.

USD Units – the U.S. dollar denominated Units of the RBC Short Term U.S. Corporate Bond ETF, RBC Quant U.S. Dividend Leaders ETF, RBC Quant U.S. Equity Leaders ETF, RBC Quant European Dividend Leaders ETF, RBC Quant EAFE Dividend Leaders ETF, RBC Quant EAFE Equity Leaders ETF, RBC Quant Emerging Markets Dividend Leaders ETF, RBC Quant Emerging Markets Equity Leaders ETF, RBC Quant Global Infrastructure Leaders ETF and RBC Quant Global Real Estate Leaders ETF.

(each, an “RBC ETF” and collectively, the “RBC ETFs”)

Each RBC ETF is an exchange-traded fund established as a trust under the laws of the Province of Ontario. RBC GAM is the manager, trustee and portfolio manager of the RBC ETFs.

Offerings:

Each RBC ETF offers a class of units denominated in Canadian dollars (the “CAD Units”). The RBC Short Term U.S. Corporate Bond ETF, RBC Quant U.S. Dividend Leaders ETF, RBC Quant U.S. Equity Leaders ETF, RBC Quant European Dividend Leaders ETF, RBC Quant EAFE Dividend Leaders ETF, RBC Quant EAFE Equity Leaders ETF, RBC Quant Emerging Markets Dividend Leaders ETF, RBC Quant Emerging Markets Equity Leaders ETF, RBC Quant Global Infrastructure Leaders ETF and RBC Quant Global Real Estate Leaders ETF also offer a class of units denominated in U.S. dollars (the “USD Units”).

The USD Units of each of RBC Short Term U.S. Corporate Bond ETF, RBC Quant U.S. Dividend Leaders ETF, RBC Quant U.S. Equity Leaders ETF, RBC Quant European Dividend Leaders ETF, RBC Quant EAFE Dividend Leaders ETF, RBC Quant EAFE Equity Leaders ETF, RBC Quant Emerging Markets Dividend Leaders ETF, RBC Quant Emerging Markets Equity Leaders ETF, RBC Quant Global Infrastructure Leaders ETF and RBC Quant Global Real Estate Leaders ETF are identical to the CAD Units of such funds except that the USD Units are denominated in U.S. dollars whereas the CAD Units are denominated in Canadian dollars.

Continuous Distribution: Units of the RBC ETFs are listed on the TSX or the Neo Exchange, as the case may be, and offered on a continuous basis. Investors may incur customary brokerage commissions in buying or selling Units. All orders to purchase Units directly from an RBC ETF must be placed by Authorized Dealers or Designated Brokers. Authorized Dealers and Designated Brokers may purchase a Prescribed Number of Units from an RBC ETF at the Net Asset Value per Unit. See “Purchase of Units – Issuance of Units”.

The full legal name of each RBC ETF, as well as its TSX or Neo Exchange ticker symbol, as the case may be, is set out below:

The investment objective of the RBC Quant EAFE Equity Leaders (CAD Hedged) ETF is to provide unitholders with broad exposure, either directly or indirectly through investment in other mutual funds managed by RBC GAM or an affiliate, to the performance of a diversified portfolio of high-quality equity securities in markets in Europe, Australasia and the Far East (EAFE) that have the potential for long-term capital growth, while seeking to minimize the exposure to currency fluctuations between foreign currencies and the Canadian dollar.

RBC Quant Emerging Markets Dividend Leaders ETF

The investment objective of the RBC Quant Emerging Markets Dividend Leaders ETF is to provide unitholders with exposure to the performance of a diversified portfolio of high-quality emerging market equity securities that are expected to provide regular income from dividends and that have the potential for long-term capital growth.

RBC Quant Emerging Markets Equity Leaders ETF

The investment objective of the RBC Quant Emerging Markets Equity Leaders ETF is to provide unitholders with broad exposure to the performance of a diversified portfolio of high-quality emerging market equity securities that have the potential for long-term capital growth.

RBC Strategic Global Dividend Leaders ETF

RBC Strategic Global Dividend Leaders ETF seeks to provide unitholders with exposure, either directly or indirectly through investment in other mutual funds managed by RBC GAM or an affiliate, to the performance of a diversified portfolio of high-quality global equity securities that are expected to provide regular income from dividends and that have the potential for long-term capital growth.

RBC Strategic Global Equity Leaders ETF

RBC Strategic Global Equity Leaders ETF seeks to provide unitholders with broad exposure, either directly or indirectly through investment in other mutual funds managed by RBC GAM or an affiliate, to the performance of a diversified portfolio of high-quality global equity securities that have the potential for long-term capital growth.

RBC Quant Global Infrastructure Leaders ETF

RBC Quant Global Infrastructure Leaders ETF seeks to provide unitholders with exposure to the performance of a diversified global portfolio of high-quality equity securities of companies that own or operate infrastructure assets that will provide regular income and that have the potential for long-term capital growth.

RBC Quant Global Real Estate Leaders ETF

RBC Quant Global Real Estate Leaders ETF seeks to provide unitholders with exposure to the performance of a diversified global portfolio of high-quality Real Estate Investment Trusts (REITs) and equity securities of real estate management and development companies that will provide regular income and that have the potential for long-term capital growth.

See "Investment Objectives".

Investment Strategies:

The investment strategy of each RBC ETF is to invest in and hold a portfolio of securities selected by RBC GAM, or the applicable portfolio sub-advisor, in order to achieve its investment objective. The RBC ETFs are not index mutual funds and are managed in the discretion of RBC GAM, or the applicable portfolio sub-advisor, in accordance with their investment objectives and strategies and, as such, are generally more active in nature than index mutual funds.

RBC 6-10 Year Laddered Canadian Corporate Bond ETF

RBC 6-10 Year Laddered Canadian Corporate Bond ETF achieves exposure to Canadian corporate bonds primarily by investing in a portfolio of five sub-portfolios of bonds with targeted weights and remaining terms to maturity ranging from six to ten years. The sub-portfolios may deviate at times from their targeted weights due to market fluctuations and from their remaining terms to maturity due to a possible lack of availability of bonds of the desired maturity. Bond exposure is obtained by direct investment in corporate bonds (and government bonds, if necessary due to a lack of availability of corporate bonds of the desired maturity). Bonds must meet screening criteria before being considered for a sub-portfolio. The decision to invest in each bond is based on RBC GAM's assessment of each bond's key characteristics, including term to maturity, credit quality, yield to maturity and duration, with consideration given to issuer diversification. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Each sub-portfolio has a remaining term to maturity ranging from six to ten years. At the end of each year, the nearest term sub-portfolio will be sold and proceeds rolled into a new ten-year sub-portfolio in order to maintain the six to ten year ladder. If there are not enough ten-year bonds to facilitate a one-time roll, the fund may need to gradually roll from five- to ten-year bonds over time as the supply of bonds increases.

RBC Canadian Discount Bond ETF

RBC Canadian Discount Bond ETF invests in a rules-based actively managed portfolio of primarily short term Canadian government and corporate bonds which at the time of purchase are trading below the weighted average price of the universe of Canadian short term bonds with an emphasis on bonds which are trading at a price below par. Securities will be selected for the RBC Canadian Discount Bond ETF's portfolio using a rules-based investment approach that considers key characteristics, including term to maturity, credit quality, yield to maturity and duration while also considering issuer diversification within the portfolio. RBC Canadian Discount Bond ETF may also invest in short-term fixed-income securities issued in the Canadian or U.S. market by (i) the U.S. government and (ii) U.S. and foreign corporations. Some of the fixed income securities in which RBC Canadian Discount Bond ETF invests may be denominated in U.S. dollars. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision.

RBC Canadian Discount Bond ETF may use derivative instruments to hedge its U.S. dollar exposure back to the Canadian dollar.

RBC PH&N Short Term Canadian Bond ETF

RBC PH&N Short Term Canadian Bond ETF invests primarily in an actively managed portfolio of high-quality, short-duration Canadian corporate and government bonds, treasury bills and term deposits. Fixed-income securities are selected on the basis of RBC GAM's assessment of each security's key characteristics, including term to maturity, credit quality, yield to maturity and duration, with consideration given to issuer diversification, in order to build a diversified portfolio with competitive risk-adjusted rates of return. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision.

RBC Short Term U.S. Corporate Bond ETF

RBC Short Term U.S. Corporate Bond ETF invests primarily in an actively managed portfolio of high-quality short-duration bonds issued in the U.S. market by U.S. (and, in some cases, foreign) corporations. These bonds are selected by the portfolio sub-advisor on the basis of company credit and industry analysis to identify investment opportunities offering higher probabilities of competitive rates of return while simultaneously mitigating interest rate risk. The portfolio sub-advisor considers environmental, social and governance (ESG) factors where material to the investment decision.

RBC BlueBay Global Diversified Income (CAD Hedged) ETF

RBC BlueBay Global Diversified Income (CAD Hedged) ETF invests primarily in an actively managed portfolio of global investment grade developed market corporate bonds, global high yield bonds and emerging market government and corporate bonds, and may also invest in asset-backed securities and loans. These fixed-income securities are selected by the portfolio sub-advisor on the basis of company credit and industry analysis to identify investment opportunities offering higher probabilities of superior rates of return while simultaneously minimizing the prospect of default. The portfolio sub-advisor considers environmental, social and governance (ESG) factors where material to the investment decision.

RBC BlueBay Global Diversified Income (CAD Hedged) ETF uses derivatives to hedge against fluctuations in foreign currencies to minimize exposure to changes of the foreign currencies held by the RBC ETF relative to the Canadian dollar. RBC BlueBay Global Diversified Income (CAD Hedged) ETF will not change its currency hedging strategy without the prior approval of unitholders. RBC BlueBay Global Diversified Income (CAD Hedged) ETF may also use derivatives to protect against losses or reduce volatility resulting from changes in interest rates.

RBC Canadian Preferred Share ETF

The RBC Canadian Preferred Share ETF invests primarily in an actively managed portfolio of rate reset preferred shares issued by Canadian companies, selected on the basis of fundamental analysis, credit research and interest rate sensitivity analysis. The RBC Canadian Preferred Share ETF may also hold preferred shares issued by Canadian companies that are not rate reset preferred shares, fixed-income securities issued by Canadian governments or companies, dividend-paying common stock from Canadian issuers or preferred shares from U.S. issuers, as well as other Canadian listed exchange-traded funds. Some of the Canadian listed preferred shares in which the RBC Canadian Preferred Share ETF invests may be denominated in U.S. dollars. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision.

The RBC Canadian Preferred Share ETF may also hold money market instruments and cash.

The RBC Canadian Preferred Share ETF may use derivative instruments for hedging purposes. "Hedging" refers to investments that are intended to offset or reduce a specific risk associated with all or a portion of an existing investment or position, or group of investments or positions. For example, the RBC Canadian Preferred Share ETF may use derivative instruments to hedge its U.S. dollar exposure back to the Canadian dollar.

RBC Quant Canadian Dividend Leaders ETF

Portfolio securities for the RBC Quant Canadian Dividend Leaders ETF are selected using a rules-based, multi-factor investment approach that considers a company's balance sheet strength, the stability and sustainability of its dividend payout and/or its ability to pay or grow dividends in the future. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Quant Canadian Equity Leaders ETF

Portfolio securities for the RBC Quant Canadian Equity Leaders ETF are selected using a rules-based, multi-factor investment approach designed to select companies with a high quality of earnings while filtering out slow growth companies and securities with expensive valuations. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Quant U.S. Dividend Leaders ETF

Portfolio securities for the RBC Quant U.S. Dividend Leaders ETF are selected using a rules-based, multi-factor investment approach that considers a company's balance sheet strength, the stability and sustainability of its dividend payout and/or its ability to pay or grow dividends in the future. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF

The RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF invests substantially all of its assets in units of the RBC Quant U.S. Dividend Leaders ETF (the “underlying RBC ETF”), while seeking to minimize exposure to currency fluctuations between the U.S. and Canadian dollars. The RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF may also invest directly in a portfolio of U.S. dividend-paying equity securities.

Portfolio securities for the underlying RBC ETF (and for the RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF, to the extent it invests directly in equity securities) are selected using a rules-based, multi-factor investment approach that considers a company’s balance sheet strength, the stability and sustainability of its dividend payout and/or its ability to pay or grow dividends in the future. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

The RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF uses derivatives to hedge against fluctuations in the U.S. dollar to minimize exposure to changes of the U.S. dollar relative to the Canadian dollar.

RBC Quant U.S. Equity Leaders ETF

Portfolio securities for the RBC Quant U.S. Equity Leaders ETF are selected using a rules-based, multi-factor investment approach designed to select companies with a high quality of earnings while filtering out slow growth companies and securities with expensive valuations. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Quant U.S. Equity Leaders (CAD Hedged) ETF

The RBC Quant U.S. Equity Leaders (CAD Hedged) ETF invests substantially all of its assets in units of the RBC Quant U.S. Equity Leaders ETF (the “underlying RBC ETF”), while seeking to minimize exposure to currency fluctuations between the U.S. and Canadian dollars. The RBC Quant U.S. Equity Leaders (CAD Hedged) ETF may also invest directly in a portfolio of U.S. equity securities.

Portfolio securities for the underlying RBC ETF (and for the RBC Quant U.S. Equity Leaders (CAD Hedged) ETF, to the extent it invests directly in equity securities) are selected using a rules-based, multi-factor investment approach designed to select companies with a high quality of earnings while filtering out slow growth companies and securities with expensive valuations. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

The RBC Quant U.S. Equity Leaders (CAD Hedged) ETF uses derivatives to hedge against fluctuations in the U.S. dollar to minimize exposure to changes of the U.S. dollar relative to the Canadian dollar.

RBC Quant European Dividend Leaders ETF

Portfolio securities for the RBC Quant European Dividend Leaders ETF are selected using a rules-based, multi-factor investment approach that considers a company’s balance sheet strength, the stability and sustainability of its dividend payout and/or its ability to pay or grow dividends in the future. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Quant European Dividend Leaders (CAD Hedged) ETF

The RBC Quant European Dividend Leaders (CAD Hedged) ETF invests substantially all of its assets in units of the RBC Quant European Dividend Leaders ETF (the “**underlying RBC ETF**”), while seeking to minimize exposure to currency fluctuations between foreign currencies and the Canadian dollar. The RBC Quant European Dividend Leaders (CAD Hedged) ETF may also invest directly in a portfolio of European dividend-paying equity securities.

Portfolio securities for the underlying RBC ETF (and for the RBC Quant European Dividend Leaders (CAD Hedged) ETF, to the extent it invests directly in equity securities) are selected using a rules-based, multi-factor investment approach that considers a company’s balance sheet strength, the stability and sustainability of its dividend payout and/or its ability to pay or grow dividends in the future. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

The RBC Quant European Dividend Leaders (CAD Hedged) ETF uses derivatives to hedge against fluctuations in foreign currencies to minimize exposure to changes of the foreign currencies held by the RBC ETF relative to the Canadian dollar.

RBC Quant EAFE Dividend Leaders ETF

Portfolio securities for the RBC Quant EAFE Dividend Leaders ETF are selected using a rules-based, multi-factor investment approach that considers a company’s balance sheet strength, the stability and sustainability of its dividend payout and/or its ability to pay or grow dividends in the future. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF

The RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF invests substantially all of its assets in units of the RBC Quant EAFE Dividend Leaders ETF (the “**underlying RBC ETF**”), while seeking to minimize exposure to currency fluctuations between foreign currencies and the Canadian dollar. The RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF may also invest directly in a portfolio of dividend-paying equity securities in markets in Europe, Australasia and the Far East.

Portfolio securities for the underlying RBC ETF (and for the RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF, to the extent it invests directly in equity securities) are selected using a rules-based, multi-factor investment approach that considers a company’s balance sheet strength, the stability and sustainability of its dividend payout and/or its ability to pay or grow dividends in the future. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

The RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF uses derivatives to hedge against fluctuations in foreign currencies to minimize exposure to changes of the foreign currencies held by the RBC ETF relative to the Canadian dollar.

RBC Quant EAFE Equity Leaders ETF

Portfolio securities for the RBC Quant EAFE Equity Leaders ETF are selected using a rules-based, multi-factor investment approach designed to select companies with a high quality of earnings while filtering out slow growth companies and securities with expensive valuations. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Quant EAFE Equity Leaders (CAD Hedged) ETF

The RBC Quant EAFE Equity Leaders (CAD Hedged) ETF invests substantially all of its assets in units of the RBC Quant EAFE Equity Leaders ETF (the “underlying RBC ETF”), while seeking to minimize exposure to currency fluctuations between foreign currencies and the Canadian dollar. The RBC Quant EAFE Equity Leaders (CAD Hedged) ETF may also invest directly in a portfolio of equity securities in markets in Europe, Australasia and the Far East.

Portfolio securities for the underlying RBC ETF (and for the RBC Quant EAFE Equity Leaders (CAD Hedged) ETF, to the extent it invests directly in equity securities) are selected using a rules-based, multi-factor investment approach designed to select companies with a high quality of earnings while filtering out slow growth companies and securities with expensive valuations. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

The RBC Quant EAFE Equity Leaders (CAD Hedged) ETF uses derivatives to hedge against fluctuations in foreign currencies to minimize exposure to changes of the foreign currencies held by the RBC ETF relative to the Canadian dollar.

RBC Quant Emerging Markets Dividend Leaders ETF

Portfolio securities for the RBC Quant Emerging Markets Dividend Leaders ETF are selected using a rules-based, multi-factor investment approach that considers a company’s balance sheet strength, the stability and sustainability of its dividend payout and/or its ability to pay or grow dividends in the future. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Quant Emerging Markets Equity Leaders ETF

Portfolio securities for the RBC Quant Emerging Markets Equity Leaders ETF are selected using a rules-based, multi-factor investment approach designed to select companies with a high quality of earnings while filtering out slow growth companies and securities with expensive valuations. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Strategic Global Dividend Leaders ETF

The RBC Strategic Global Dividend Leaders ETF invests substantially all of its assets in RBC Quant Dividend Leaders ETFs (other than RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF, RBC Quant European Dividend Leaders (CAD Hedged) ETF and RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF). The RBC Strategic Global Dividend Leaders ETF may also invest directly in a portfolio of global dividend-paying equity securities.

The decision to invest in each of the applicable RBC Quant Dividend Leaders ETFs is based on the portfolio manager's assessment of the global market outlook and the RBC Quant Dividend Leaders ETF's ability to enable the portfolio to meet its stated investment objectives. The portfolio asset allocation is reconstituted and rebalanced from time to time, and no less frequently than quarterly. The frequency of the reconstitution and rebalancing may change without notice.

In order to adjust the portfolio's asset mix in a more timely manner, the portfolio manager may use derivatives such as options, futures, forward contracts and swaps as a substitute for direct investment in a particular market, on a short-term basis, until the portfolio's assets can be reallocated among the RBC Quant Dividend Leaders ETFs.

Portfolio securities for each of the applicable RBC Quant Dividend Leaders ETFs (and for the RBC Strategic Global Dividend Leaders ETF, to the extent it invests directly in equity securities) are selected using a rules-based, multi-factor investment approach designed to select high-quality global equity securities (i.e. companies with strong balance sheets, stable and sustainable dividend payouts and/or the ability to pay or grow dividends in the future). RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies.

RBC Strategic Global Equity Leaders ETF

The RBC Strategic Global Equity Leaders ETF invests substantially all of its assets in RBC Quant Equity Leaders ETFs (other than RBC Quant U.S. Equity Leaders (CAD Hedged) ETF and RBC Quant EAFE Equity Leaders (CAD Hedged) ETF). The RBC Strategic Global Equity Leaders ETF may also invest directly in a portfolio of global equity securities.

The decision to invest in each of the applicable RBC Quant Equity Leaders ETFs is based on the portfolio manager's assessment of the global market outlook and the RBC Quant Equity Leaders ETF's ability to enable the portfolio to meet its stated investment objectives. The portfolio asset allocation is reconstituted and rebalanced from time to time, and no less frequently than quarterly. The frequency of the reconstitution and rebalancing may change without notice.

In order to adjust the portfolio's asset mix in a more timely manner, the portfolio manager may use derivatives such as options, futures, forward contracts and swaps as a substitute for direct investment in a particular market, on a short-term basis, until the portfolio's assets can be reallocated among the RBC Quant Equity Leaders ETFs.

Portfolio securities for each of the applicable RBC Quant Equity Leaders ETFs (and for the RBC Strategic Global Equity Leaders ETF, to the extent it invests directly in equity securities) are selected using a rules-based, multi-factor investment approach designed to select high-quality global equity securities (i.e. companies with a high quality of earnings) while filtering out slow growth companies and securities with expensive valuations. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies.

RBC Quant Global Infrastructure Leaders ETF

Portfolio securities for the RBC Quant Global Infrastructure Leaders ETF are selected from the global listed infrastructure universe using a rules-based, multi-factor investment approach that considers a combination of the financial strength, growth and stability factors of the company. The global listed infrastructure universe, as determined by the portfolio management team, is made up of companies that own or operate assets primarily in the transportation (toll roads, airports, railroads and marine ports), energy (storage and transportation, renewable energy and pipelines), utilities (electric utilities, gas utilities and water), and communication (wireless towers) sectors, domiciled around the world. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization securities. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Quant Global Real Estate Leaders ETF

Portfolio securities for the RBC Quant Global Real Estate Leaders ETF are selected from the global real estate universe using a rules-based, multi-factor investment approach that considers a combination of the financial strength, growth and stability factors of the company. The global real estate universe, as determined by the portfolio management team, includes REITs and real estate management and development companies domiciled around the world. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization securities. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

Investment in Underlying Funds

In accordance with Canadian securities legislation, including NI 81-102, and applicable exemptive relief, an RBC ETF may invest in one or more other RBC ETFs or in certain other investment funds (collectively, “**Underlying Funds**”), provided that no management fees or incentive fees are payable by an RBC ETF that, to a reasonable person, would duplicate a fee payable by the Underlying Fund for the same service. See “Investment Strategies – Investment in Underlying Funds” and “Exemptions and Approvals”.

Securities Lending

Securities lending transactions may be utilized by the RBC ETFs in accordance with NI 81-102, and any exemptive relief therefrom, to provide incremental return to the RBC ETFs in a manner that is consistent with the investment objectives of the RBC ETFs. Securities lending is also a means of generating income for the purpose of meeting the RBC ETFs’ current obligations. See “Investment Strategies – Securities Lending”.

Use of Derivative Instruments

Each of the RBC ETFs may invest in or use derivative instruments, including futures contracts and forward contracts, from time to time for hedging or non-hedging purposes provided that the use of such derivative instruments is in compliance with NI 81-102 and is consistent with the investment objective and strategy of the RBC ETF. See “Investment Strategies – Use of Derivative Instruments” and “Exemptions and Approvals”.

Risk Factors:

There are certain general risk factors inherent to an investment in all of the RBC ETFs, either directly, in the case of the RBC ETFs that invest directly in portfolio securities, and in some cases indirectly, in the case of the RBC ETFs that may gain exposure to portfolio securities indirectly through investment in Underlying Funds. These risk factors include the following:

- › General Risks of Investments
- › Market Risk
- › Equity Investment Risk
- › Interest Rate Risk
- › Asset Class Risk
- › Concentration Risk
- › Credit Risk
- › Risk that Units Will Trade at Prices Other than Net Asset Value per Unit
- › Risks Associated with Derivative Investments
- › Liquidity Risk
- › Tax-Related Risks
- › Risk of Adverse Changes in Legislation
- › Cease Trading of Underlying Securities
- › Reliance on the Manager
- › Securities Lending Transaction Risks
- › Risk of No Active Market for the Units
- › Cyber Security Risk

See “Risk Factors – General Risks Relating to an Investment in the RBC ETFs”.

In addition to the general risk factors applicable to all of the RBC ETFs set forth above, there are certain additional specific risk factors inherent in an investment in certain RBC ETFs, as indicated in the table below:

See "Risk Factors – Additional Risks Relating to an Investment in Certain RBC ETFs".

Income Tax Considerations:

This summary of Canadian tax considerations for the RBC ETFs and for Canadian resident unitholders is subject in its entirety to the qualifications, limitations and assumptions set out in "Income Tax Considerations". Prospective investors should consult their own tax advisors about their individual circumstances.

A unitholder who is resident in Canada and who holds Units as capital property (all within the meaning of the *Income Tax Act* (Canada) (the "Tax Act")) will generally be required to include in the unitholder's income for tax purposes for any year the amount of net income and net taxable capital gains of the RBC ETF paid or payable to the unitholder in the year and deducted by the RBC ETF in computing its income. Any non-taxable distributions from an RBC ETF (other than the non-taxable portion of any net realized capital gains of an RBC ETF) paid or payable to a unitholder in a taxation year will reduce the adjusted cost base of the unitholder's Units of that RBC ETF. To the extent that a unitholder's adjusted cost base would otherwise be a negative amount, the negative amount will be deemed to be a capital gain realized by the unitholder and the adjusted cost base of the Unit to the unitholder will be nil immediately thereafter. Any loss of an RBC ETF cannot be allocated to, and cannot be treated as a loss of, the unitholders of that RBC ETF. Upon the actual or deemed disposition of a Unit held by the unitholder as capital property, including the exchange or redemption of a Unit, a capital gain (or a capital loss) will generally be realized by the unitholder to the extent that the proceeds of disposition of the Unit exceed (or are less than) the aggregate of the adjusted cost base to the unitholder of the Unit and any reasonable costs of disposition.

The Master Declaration of Trust governing each RBC ETF requires that the RBC ETF distribute its net income and net realized capital gains, if any, for each taxation year to unitholders to such an extent that the RBC ETF will not be liable in any taxation year for ordinary income tax.

See "Income Tax Considerations".

Special Considerations for Unitholders:

The RBC ETFs have obtained exemptive relief from certain provisions contained in securities legislation such that the so-called "early warning" requirements set out in Canadian securities legislation do not apply in connection with the acquisition of Units. In addition, based upon exemptive relief granted by the Canadian securities regulatory authorities, a unitholder may acquire more than 20% of the Units of a class of any RBC ETF through purchases on the TSX or the Neo Exchange, as the case may be, without regard to the takeover bid requirements of applicable securities legislation, provided that such unitholder, as well as any person acting jointly or in concert with the unitholder, undertakes to RBC GAM not to vote more than 20% of the Units of a class of that RBC ETF.

Units of the RBC ETFs are "mark-to-market property" for purposes of the "mark-to-market" rules in the Tax Act. These rules require taxpayers that are financial institutions within the meaning of the rules to recognize annually, on income account, any accrued gains and losses on securities that are "mark-to-market property" within the meaning of the rules.

See "Income Tax Considerations", "Purchase of Units – Special Considerations for Unitholders" and "Exemptions and Approvals".

Exchange:

Unitholders may exchange the Prescribed Number of Units (or an integral multiple thereof) on any Trading Day for Baskets and cash. See "Exchange and Redemption of Units – Exchange of Units at Net Asset Value per Unit for Baskets and Cash".

Redemption:

Unitholders may redeem Units of an RBC ETF for cash at a redemption price per Unit equal to 95% of the Net Asset Value of the Units on the effective day of the redemption. Unitholders will generally be able to sell (rather than redeem) Units at the full market price on the TSX or the Neo Exchange, as the case may be, through a registered broker or dealer subject only to customary brokerage commissions. Therefore, unitholders are advised to consult their brokers, dealers or investment advisors before redeeming their Units for cash. No fees or expenses are paid by a unitholder to RBC GAM or the RBC ETFs in connection with selling Units on the TSX or the Neo Exchange, as the case may be.

See "Exchange and Redemption of Units – Redemption of Units for Cash".

Distribution Policy:

Cash distributions on Units of an RBC ETF will be made in the currency in which Units of the RBC ETF are denominated. Cash distributions on Units of the RBC 6-10 Year Laddered Canadian Corporate Bond ETF, the RBC Canadian Discount Bond ETF, the RBC PH&N Short Term Canadian Bond ETF, the RBC Short Term U.S. Corporate Bond ETF, the RBC BlueBay Global Diversified Income (CAD Hedged) ETF, the RBC Canadian Preferred Share ETF, the RBC Quant Dividend Leaders ETFs, the RBC Quant Global Infrastructure Leaders ETF and the RBC Quant Global Real Estate Leaders ETF are expected to be made monthly. Cash distributions on Units of the RBC Quant Equity Leaders ETFs are expected to be made quarterly. For purposes of the Tax Act, distributions on Units of the RBC ETFs are expected to consist primarily of dividend income and foreign investment income in respect of all of the RBC ETFs other than RBC 6-10 Year Laddered Canadian Corporate Bond ETF, RBC Canadian Discount Bond ETF, RBC PH&N Short Term Canadian Bond ETF, RBC Short Term U.S. Corporate Bond ETF and RBC BlueBay Global Diversified Income (CAD Hedged) ETF or ordinary income sourced from interest payments received or accrued by the RBC ETFs in respect of RBC 6-10 Year Laddered Canadian Corporate Bond ETF, RBC Canadian Discount Bond ETF, RBC PH&N Short Term Canadian Bond ETF, RBC Short Term U.S. Corporate Bond ETF and RBC BlueBay Global Diversified Income (CAD Hedged) ETF, but may also include net realized capital gains and returns of capital, in any case, less the expenses of the RBC ETF. To the extent that the expenses of an RBC ETF exceed the income generated by such RBC ETF in any given month or quarter, as applicable, a monthly or quarterly distribution, as applicable, may not be paid.

For each taxation year, each RBC ETF will ensure that the net income and net realized capital gains of the RBC ETF have been distributed to unitholders to such an extent that the RBC ETF will not be liable for ordinary income tax thereon. To the extent that any RBC ETF has not distributed the full amount of its net income or net capital gains in cash in any taxation year, the difference between such amount and the amount actually distributed by the RBC ETF in cash will be paid as a "reinvested distribution". Reinvested distributions will be reinvested automatically in additional Units of the applicable class of the RBC ETF at a price equal to the Net Asset Value per Unit of the applicable class of the RBC ETF and the Units of that class will be immediately consolidated such that the number of outstanding Units of the applicable class following the distribution will equal the number of Units of the applicable class outstanding prior to the distribution. See "Distribution Policy".

Termination:

The RBC ETFs do not have a fixed termination date, but may be terminated by RBC GAM without unitholder approval on not less than 60 days' notice to unitholders. See "Termination of the RBC ETFs".

Eligibility for Investment:

Provided that the Units of an RBC ETF are and continue to be listed on the TSX or the Neo Exchange, as the case may be, or that the RBC ETF qualifies and continues to qualify as a mutual fund trust under the Tax Act or is a registered investment under the Tax Act, the Units of the RBC ETF will be qualified investments under the Tax Act for Registered Plans (as defined herein). In the opinion of counsel, the Units will qualify as "marketable securities" as that term is used in the Tax Act provided that the Units are and continue to be listed on the TSX or the Neo Exchange, as the case may be. Holders or annuitants of Registered Plans should consult with their tax advisors regarding whether Units of an RBC ETF would be a prohibited investment for such accounts or plans in their particular circumstances. See "Income Tax Considerations – Status of the RBC ETFs".

Non-Resident Unitholders:

Under certain circumstances, RBC GAM may take steps to limit the number of non-resident unitholders that may invest in an RBC ETF. See "Plan of Distribution – Non-Resident Unitholders".

Organization and Management of the RBC ETFs:

Manager, Trustee and Portfolio Manager

RBC GAM is the manager, trustee and portfolio manager and is responsible for the operations of the RBC ETFs, including the management of the RBC ETFs' investment portfolios. The address of RBC GAM and the RBC ETFs is 155 Wellington Street West, Suite 2200, Toronto, Ontario M5V 3K7.

RBC GAM is the primary investment manager for the RBC® businesses serving the needs of private clients, including the RBC ETFs. RBC GAM is an indirect, wholly owned subsidiary of Royal Bank of Canada ("Royal Bank"). We refer to Royal Bank and affiliated companies of Royal Bank as "RBC".

See "Organization and Management Details of the RBC ETFs – Manager, Trustee and Portfolio Manager of the RBC ETFs".

Sub-advisors

RBC Global Asset Management (U.S.) Inc. ("**RBC GAM (US)**") will act as the portfolio sub-advisor to the RBC Short Term U.S. Corporate Bond ETF and will be responsible for implementing the investment strategy of the RBC ETF pursuant to the terms of an investment sub-advisory agreement between RBC GAM and RBC GAM (US) dated December 19, 2011, as amended from time to time (the "**RBC GAM (US) Investment Sub-advisory Agreement**"). RBC GAM (US) is an indirect, wholly owned subsidiary of Royal Bank and an affiliate of RBC GAM.

RBC GAM (US) is an investment advisor located in the United States and is an investment advisor registered with the U.S. Securities and Exchange Commission under the *U.S. Investment Advisers Act of 1940*. See "Organization and Management Details of the RBC ETFs – Sub-advisors – RBC Global Asset Management (U.S.) Inc."

BlueBay Asset Management LLP ("**BlueBay AM**") will act as the portfolio sub-advisor to the RBC BlueBay Global Diversified Income (CAD Hedged) ETF and will be responsible for implementing the investment strategy of the RBC ETF pursuant to the terms of an investment sub-advisory agreement between RBC GAM and BlueBay AM dated October 25, 2012, as amended from time to time (the "**BlueBay Investment Sub-advisory Agreement**"). BlueBay AM is an indirect, wholly owned subsidiary of Royal Bank and an affiliate of RBC GAM.

BlueBay AM is an investment advisor located in London, England. BlueBay AM is authorised and regulated in the United Kingdom by the Financial Conduct Authority and in the United States is registered as an investment advisor with the U.S. Securities and Exchange Commission under the *U.S. Investment Advisers Act of 1940*. See "Organization and Management Details of the RBC ETFs – Sub-advisors – BlueBay Asset Management LLP".

Custodian and Valuation Agent

RBC Investor Services Trust ("**RBC IS**") is the custodian and valuation agent of the RBC ETFs and provides administrative services to the RBC ETFs pursuant to a custodian agreement between RBC GAM, in its capacity as trustee and manager of the RBC ETFs, and RBC IS dated as of September 2, 2011 (as amended from time to time, the "**Custodian Agreement**") and a valuation and administrative services agreement dated September 9, 2011 between RBC GAM, in its capacity as trustee and manager of the RBC ETFs, and RBC IS (as amended from time to time, the "**Valuation and Administrative Services Agreement**"). RBC IS is responsible for certain aspects of the day-to-day administration of the RBC ETFs, including calculating Net Asset Value, net income and net realized capital gains of the RBC ETFs. RBC IS's principal office is located in Toronto, Ontario. Royal Bank owns 100% of RBC IS and RBC IS is an affiliate of RBC GAM. See "Organization and Management Details of the RBC ETFs – Custodian and Valuation Agent".

Registrar and Transfer Agent

The registrar and transfer agent for the Units of the RBC ETFs is TSX Trust Company, at its principal offices in Toronto, Ontario. See "Organization and Management Details of the RBC ETFs – Registrar and Transfer Agent".

Auditor

The auditor of the RBC ETFs is PricewaterhouseCoopers LLP, at its principal offices in Toronto, Ontario. See "Organization and Management Details of the RBC ETFs – Auditor".

Securities Lending Agent

The securities lending agent of the RBC ETFs is RBC IS, at its principal offices in Toronto, Ontario. The securities lending agent acts on behalf of the RBC ETFs in administering the securities lending transactions entered into by the RBC ETFs. See "Organization and Management Details of the RBC ETFs – Securities Lending Agent".

Documents Incorporated by Reference:

During the period in which the RBC ETFs are in continuous distribution, additional information will be available in the most recently filed comparative annual financial statements, any interim financial statements filed after the most recent annual financial statements, the most recently filed annual MRFP, any interim MRFP filed after the annual MRFP of each RBC ETF and the most recently filed ETF Facts of each RBC ETF. These documents are or will be incorporated by reference into, and form an integral part of, this prospectus. These documents may be obtained upon request, at no cost, by calling 1-855-RBC-ETFs (722-3837), by emailing RBC GAM at etfs.investments@rbc.com (English) or fnb.investissements@rbc.com (French) or by contacting a registered dealer. These documents and other information about the RBC ETFs are also available from the RBC ETFs website at www.rbcgam.com/etfs and are publicly available at www.sedar.com. See "Documents Incorporated by Reference".

SUMMARY OF FEES AND EXPENSES

The table below lists the fees and expenses payable by the RBC ETFs. The value of a unitholder's investment in an RBC ETF will be reduced by the amount of fees and expenses charged to such RBC ETF. See "Fees and Expenses".

Fees and Expenses Payable by the RBC ETFs

TYPE OF FEE

AMOUNT AND DESCRIPTION

Management Fee:

RBC GAM is entitled to receive a fee for acting as manager, trustee and portfolio manager of the RBC ETFs (the "management fee"). The fee is based on a percentage of the Net Asset Value of each of the following RBC ETFs and is listed below:

RBC ETF	ANNUAL MANAGEMENT FEE
RBC 6-10 Year Laddered Canadian Corporate Bond ETF	0.25%
RBC Canadian Discount Bond ETF	0.15%
RBC PH&N Short Term Canadian Bond ETF	0.35%
RBC Short Term U.S. Corporate Bond ETF	0.35%
RBC BlueBay Global Diversified Income (CAD Hedged) ETF	0.60%
RBC Canadian Preferred Share ETF	0.53%
RBC Quant Canadian Dividend Leaders ETF	0.39%
RBC Quant Canadian Equity Leaders ETF	0.39%
RBC Quant U.S. Dividend Leaders ETF	0.39%
RBC Quant U.S. Equity Leaders ETF	0.39%
RBC Quant European Dividend Leaders ETF	0.49%
RBC Quant EAFE Dividend Leaders ETF	0.49%
RBC Quant EAFE Equity Leaders ETF	0.49%
RBC Quant Emerging Markets Dividend Leaders ETF	0.64%
RBC Quant Emerging Markets Equity Leaders ETF	0.64%
RBC Quant Global Infrastructure Leaders ETF	0.55%
RBC Quant Global Real Estate Leaders ETF	0.55%

RBC GAM is, in respect of the following RBC ETFs listed below, entitled to receive a fee for acting as manager, trustee and portfolio manager of such funds and of the Underlying Funds in which such RBC ETFs invest (an “underlying product fee” and, together with the management fee, the “total annual management fee”). As the underlying product fees are embedded in the market value of the Underlying Funds in which the applicable RBC ETFs invest, the underlying product fees are paid indirectly by the RBC ETFs. Although the aggregate amounts of the underlying product fees may vary depending on the allocation of the assets of each applicable RBC ETF amongst the Underlying Funds, RBC GAM will adjust the management fee payable to it by such RBC ETFs to ensure that the total annual management fees paid directly or indirectly to RBC GAM by such RBC ETFs and the Underlying Funds will not exceed the percentage of the Net Asset Value of each of the applicable RBC ETFs.

RBC ETF	TOTAL ANNUAL MANAGEMENT FEE
RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF	0.39%
RBC Quant U.S. Equity Leaders (CAD Hedged) ETF	0.39%
RBC Quant European Dividend Leaders (CAD Hedged) ETF	0.49%
RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF	0.49%
RBC Quant EAFE Equity Leaders (CAD Hedged) ETF	0.49%
RBC Strategic Global Dividend Leaders ETF	0.55%
RBC Strategic Global Equity Leaders ETF	0.55%

The management fee for each RBC ETF listed above is calculated and accrued daily and generally paid monthly, but in any case not less than quarterly. The management fee is exclusive of applicable GST/HST. RBC GAM may waive a portion of the management fee payable by an RBC ETF at any time at RBC GAM’s sole discretion. Where RBC GAM has waived a portion of the management fee payable by an RBC ETF, RBC GAM retains full discretion to increase the management fee in respect of an RBC ETF at any time such that the management fees or total annual management fees, as applicable, paid to RBC GAM by the RBC ETF will not exceed the management fee or total annual management fee, as applicable, per annum for such RBC ETF as listed above.

RBC GAM, in its capacity as manager of each RBC ETF, manages the day-to-day business of each RBC ETF, including negotiating contractual agreements with and providing oversight of service providers, preparing reports to unitholders and securities regulatory authorities and conducting marketing activities. RBC GAM also acts as trustee of the RBC ETFs and as portfolio manager of each RBC ETF, managing the investment portfolios and executing portfolio transactions for each RBC ETF.

RBC GAM may agree to charge a reduced management fee as compared to the fee that RBC GAM would otherwise be entitled to receive from the RBC ETFs with respect to large investments in the RBC ETFs by certain unitholders. In such cases, an amount equal to the difference between the management fee otherwise chargeable and the reduced fee will be distributed to the applicable unitholders as Management Fee Distributions. See “Fees and Expenses – Fees and Expenses Payable by the RBC ETFs – Management Fee Distributions”.

RBC GAM is responsible for each of the RBC ETF’s fees and expenses except the management fee and certain operating expenses described below under “Certain Operating Expenses”. The fees and expenses for which RBC GAM is responsible include the annual fees, meeting fees and reimbursement for expenses to members of the independent review committee of the RBC ETFs (the “IRC”), fees payable to the Sub-advisors, the custodian and valuation agent and the registrar and transfer agent and certain legal, audit, printing, stock exchange and regulatory fees and expenses. See “Organization and Management Details of the RBC ETFs – Duties and Services Provided by the Manager of the RBC ETFs”.

Certain Operating Expenses:

The RBC ETFs are also responsible for any IRC costs and expenses that are not related to annual fees, meeting fees and reimbursement for expenses to members of the IRC, brokerage expenses and commissions, income tax, GST, HST, withholding and other taxes, the costs of complying with any new governmental or regulatory requirement introduced after the RBC ETFs were established and extraordinary expenses. See “Fees and Expenses – Fees and Expenses Payable by the RBC ETFs – Certain Operating Expenses”.

Fees and Expenses of Underlying Funds:

In accordance with Canadian securities legislation, including NI 81-102, and applicable exemptive relief, an RBC ETF may invest in one or more Underlying Funds. Fees and expenses are payable by the Underlying Funds in addition to the fees and expenses payable by the RBC ETFs. However, an RBC ETF may only invest in one or more Underlying Funds provided that no management fees or incentive fees are payable by an RBC ETF that, to a reasonable person, would duplicate a fee payable by the Underlying Fund for the same service. See “Fees and Expenses – Fees and Expenses Payable by the RBC ETFs – Fees and Expenses of Underlying Funds” and “Exemptions and Approvals”.

Fees and Expenses Payable Directly by Unitholders**Exchange and Redemption Fee:**

Unitholders who buy and sell Units of the RBC ETFs through the facilities of the TSX or the Neo Exchange, as the case may be, or other exchange do not pay a fee directly to RBC GAM or the RBC ETFs in respect of those purchases and sales.

Unitholders who exchange or redeem Units of the RBC ETFs directly through RBC GAM may be charged, at RBC GAM’s discretion, an exchange or redemption fee of up to 0.05% of the exchange or redemption proceeds to offset certain transaction costs associated with the exchange or redemption of Units of the RBC ETFs. See “Fees and Expenses – Fees and Expenses Payable Directly by Unitholders – Exchange and Redemption Fee”.

Annual Returns, Management Expense Ratio and Trading Expense Ratio

The following chart provides the annual returns, the management expense ratios (“MER”) and trading expense ratios (“TER”)¹ for each RBC ETF from the date of its inception or January 1, 2015, as applicable, to December 31, 2019.

Notes :

¹ The TER is not affected by trades in fixed-income securities.

² Investment performance has not been disclosed for the stated period since the RBC ETF was not a reporting issuer for at least 12 consecutive months.

³ Information is only available beginning October 19, 2017, being the date units of the RBC ETF commenced trading on the TSX.

⁴ Information is only available beginning June 12, 2019, being the date units of the RBC ETF commenced trading on the Neo Exchange.

⁵ Information is only available beginning September 20, 2016, being the date units of the RBC ETF commenced trading on the TSX.

⁶ Information is only available beginning May 12, 2015, being the date units of the RBC ETF commenced trading on the TSX.

⁷ Information is only available beginning January 25, 2016, being the date units of the RBC ETF commenced trading on the TSX.

⁸ Information is only available beginning May 9, 2017, being the date units of the RBC ETF commenced trading on the TSX.

OVERVIEW OF THE LEGAL STRUCTURE OF THE RBC ETFs

Each of the RBC ETFs is an exchange-traded fund established as a trust under the laws of the Province of Ontario pursuant to an amended and restated master declaration of trust dated as of April 16, 2020 governing the RBC ETFs, as it may be further amended and/or restated from time to time (the “**Master Declaration of Trust**”). The Units of the RBC ETFs are currently listed on the TSX or the Neo Exchange, as the case may be, and offered on a continuous basis. Investors may incur customary brokerage commissions in buying or selling Units.

The head office address of the RBC ETFs is 155 Wellington Street West, Suite 2200, Toronto, Ontario M5V 3K7.

While each RBC ETF is a mutual fund under the securities legislation of certain provinces and territories of Canada, it has been granted exemptive relief from certain provisions of Canadian securities legislation applicable to conventional mutual funds. See “Exemptions and Approvals”.

The full legal name of each RBC ETF, as well as its TSX or Neo Exchange ticker symbol, as the case may be, is set out below:

INVESTMENT OBJECTIVES

The investment objective of each RBC ETF is set forth below.

RBC 6-10 Year Laddered Canadian Corporate Bond ETF

RBC 6-10 Year Laddered Canadian Corporate Bond ETF seeks to provide unitholders with exposure to the performance of a diversified portfolio of Canadian corporate bonds, divided (“laddered”) into five groupings with successive maturities ranging from six to ten years, that will provide regular income while preserving capital.

RBC Canadian Discount Bond ETF

RBC Canadian Discount Bond ETF seeks to provide unitholders with exposure to the performance of a diversified portfolio of primarily Canadian government and corporate bonds which at the time of purchase are trading below the weighted average price of the universe of Canadian short term bonds to provide regular income while preserving capital.

RBC PH&N Short Term Canadian Bond ETF

RBC PH&N Short Term Canadian Bond ETF seeks to provide regular monthly income with the potential for modest capital growth by investing primarily in a well-diversified portfolio of short-term fixed-income securities issued by Canadian corporations and governments.

RBC Short Term U.S. Corporate Bond ETF

RBC Short Term U.S. Corporate Bond ETF seeks to provide regular monthly income with the potential for modest capital growth by investing primarily in a well-diversified portfolio of short-term fixed-income securities issued in the U.S. market by U.S. and foreign corporations.

RBC BlueBay Global Diversified Income (CAD Hedged) ETF

RBC BlueBay Global Diversified Income (CAD Hedged) ETF seeks to provide unitholders with exposure to the performance of a diversified portfolio of global bonds that provide regular monthly income and total returns comprised of interest income and modest capital appreciation, while seeking to minimize the exposure to currency fluctuations between foreign currencies and the Canadian dollar.

RBC Canadian Preferred Share ETF

RBC Canadian Preferred Share ETF seeks to provide unitholders with exposure to the performance of a diversified portfolio of primarily Canadian preferred share securities that will provide regular income and that have the potential for long-term capital growth.

RBC Quant Canadian Dividend Leaders ETF

The investment objective of the RBC Quant Canadian Dividend Leaders ETF is to provide unitholders with exposure to the performance of a diversified portfolio of high-quality Canadian equity securities that are expected to provide regular income from dividends and that have the potential for long-term capital growth.

RBC Quant Canadian Equity Leaders ETF

The investment objective of the RBC Quant Canadian Equity Leaders ETF is to provide unitholders with broad exposure to the performance of a diversified portfolio of high-quality Canadian equity securities that have the potential for long-term capital growth.

RBC Quant U.S. Dividend Leaders ETF

The investment objective of the RBC Quant U.S. Dividend Leaders ETF is to provide unitholders with exposure to the performance of a diversified portfolio of high-quality U.S. equity securities that are expected to provide regular income from dividends and that have the potential for long-term capital growth.

RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF

The investment objective of the RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF is to provide unitholders with exposure, either directly or indirectly through investment in other mutual funds managed by RBC GAM or an affiliate, to the performance of a diversified portfolio of high-quality U.S. equity securities that are expected to provide regular income from dividends and that have the potential for long-term capital growth, while seeking to minimize the exposure to currency fluctuations between the U.S. and Canadian dollars.

RBC Quant U.S. Equity Leaders ETF

The investment objective of the RBC Quant U.S. Equity Leaders ETF is to provide unitholders with broad exposure to the performance of a diversified portfolio of high-quality U.S. equity securities that have the potential for long-term capital growth.

RBC Quant U.S. Equity Leaders (CAD Hedged) ETF

The investment objective of the RBC Quant U.S. Equity Leaders (CAD Hedged) ETF is to provide unitholders with broad exposure, either directly or indirectly through investment in other mutual funds managed by RBC GAM or an affiliate, to the performance of a diversified portfolio of high-quality U.S. equity securities that have the potential for long-term capital growth, while seeking to minimize the exposure to currency fluctuations between the U.S. and Canadian dollars.

RBC Quant European Dividend Leaders ETF

The investment objective of the RBC Quant European Dividend Leaders ETF is to provide unitholders with exposure to the performance of a diversified portfolio of high-quality European equity securities that are expected to provide regular income from dividends and that have the potential for long-term capital growth.

RBC Quant European Dividend Leaders (CAD Hedged) ETF

The investment objective of the RBC Quant European Dividend Leaders (CAD Hedged) ETF is to provide unitholders with exposure, either directly or indirectly through investment in other mutual funds managed by RBC GAM or an affiliate, to the performance of a diversified portfolio of high-quality European equity securities that are expected to provide regular income from dividends and that have the potential for long-term capital growth, while seeking to minimize the exposure to currency fluctuations between foreign currencies and the Canadian dollar.

RBC Quant EAFE Dividend Leaders ETF

The investment objective of the RBC Quant EAFE Dividend Leaders ETF is to provide unitholders with exposure to the performance of a diversified portfolio of high-quality equity securities in markets in Europe, Australasia and the Far East (EAFE) that are expected to provide regular income from dividends and that have the potential for long-term capital growth.

RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF

The investment objective of the RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF is to provide unitholders with exposure, either directly or indirectly through investment in other mutual funds managed by RBC GAM or an affiliate, to the performance of a diversified portfolio of high-quality equity securities in markets in Europe, Australasia and the Far East (EAFE) that are expected to provide regular income from dividends and that have the potential for long-term capital growth, while seeking to minimize the exposure to currency fluctuations between foreign currencies and the Canadian dollar.

RBC Quant EAFE Equity Leaders ETF

The investment objective of the RBC Quant EAFE Equity Leaders ETF is to provide unitholders with broad exposure to the performance of a diversified portfolio of high-quality equity securities in markets in Europe, Australasia and the Far East (EAFE) that have the potential for long-term capital growth.

RBC Quant EAFE Equity Leaders (CAD Hedged) ETF

The investment objective of the RBC Quant EAFE Equity Leaders (CAD Hedged) ETF is to provide unitholders with broad exposure, either directly or indirectly through investment in other mutual funds managed by RBC GAM or an affiliate, to the performance of a diversified portfolio of high-quality equity securities in markets in Europe, Australasia and the Far East (EAFE) that have the potential for long-term capital growth, while seeking to minimize the exposure to currency fluctuations between foreign currencies and the Canadian dollar.

RBC Quant Emerging Markets Dividend Leaders ETF

The investment objective of the RBC Quant Emerging Markets Dividend Leaders ETF is to provide unitholders with exposure to the performance of a diversified portfolio of high-quality emerging market equity securities that are expected to provide regular income from dividends and that have the potential for long-term capital growth.

RBC Quant Emerging Markets Equity Leaders ETF

The investment objective of the RBC Quant Emerging Markets Equity Leaders ETF is to provide unitholders with broad exposure to the performance of a diversified portfolio of high-quality emerging market equity securities that have the potential for long-term capital growth.

RBC Strategic Global Dividend Leaders ETF

RBC Strategic Global Dividend Leaders ETF seeks to provide unitholders with exposure, either directly or indirectly through investment in other mutual funds managed by RBC GAM or an affiliate, to the performance of a diversified portfolio of high-quality global equity securities that are expected to provide regular income from dividends and that have the potential for long-term capital growth.

RBC Strategic Global Equity Leaders ETF

RBC Strategic Global Equity Leaders ETF seeks to provide unitholders with broad exposure, either directly or indirectly through investment in other mutual funds managed by RBC GAM or an affiliate, to the performance of a diversified portfolio of high-quality global equity securities that have the potential for long-term capital growth.

RBC Quant Global Infrastructure Leaders ETF

RBC Quant Global Infrastructure Leaders ETF seeks to provide unitholders with exposure to the performance of a diversified global portfolio of high-quality equity securities of companies that own or operate infrastructure assets that will provide regular income and that have the potential for long-term capital growth.

RBC Quant Global Real Estate Leaders ETF

RBC Quant Global Real Estate Leaders ETF seeks to provide unitholders with exposure to the performance of a diversified global portfolio of high-quality Real Estate Investment Trusts (REITs) and equity securities of real estate management and development companies that will provide regular income and that have the potential for long-term capital growth.

INVESTMENT STRATEGIES

The investment strategy of each RBC ETF is to invest in and hold a portfolio of securities selected by RBC GAM, or the applicable portfolio sub-advisor, in order to achieve its investment objective as described below. The RBC ETFs are not index mutual funds and are managed in the discretion of RBC GAM, or the applicable portfolio sub-advisor, in accordance with their investment objectives and strategies and, as such, are generally more active in nature than index mutual funds.

RBC 6-10 Year Laddered Canadian Corporate Bond ETF

RBC 6-10 Year Laddered Canadian Corporate Bond ETF achieves exposure to Canadian corporate bonds primarily by investing in a portfolio of five sub-portfolios of bonds with targeted weights and remaining terms to maturity ranging from six to ten years. The sub-portfolios may deviate at times from their targeted weights due to market fluctuations and from their remaining terms to maturity due to a possible lack of availability of bonds of the desired maturity. Bond exposure is obtained by direct investment in corporate bonds (and government bonds, if necessary due to a lack of availability of corporate bonds of the desired maturity). Bonds must meet screening criteria before being considered for a sub-portfolio. The decision to invest in each bond is based on RBC GAM's assessment of each bond's key characteristics, including term to maturity, credit quality, yield to maturity and duration, with consideration given to issuer diversification. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Each sub-portfolio has a remaining term to maturity ranging from six to ten years. At the end of each year, the nearest term sub-portfolio will be sold and proceeds rolled into a new ten-year sub-portfolio in order to maintain the six to ten year ladder. If there are not enough ten-year bonds to facilitate a one-time roll, the fund may need to gradually roll from five- to ten-year bonds over time as the supply of bonds increases.

RBC Canadian Discount Bond ETF

RBC Canadian Discount Bond ETF invests in a rules-based actively managed portfolio of primarily short term Canadian government and corporate bonds which at the time of purchase are trading below the weighted average price of the universe of Canadian short term bonds with an emphasis on bonds which are trading at a price below par. Securities will be selected for the RBC Canadian Discount Bond ETF's portfolio using a rules-based investment approach that considers key characteristics, including term to maturity, credit quality, yield to maturity and duration while also considering issuer diversification within the portfolio. RBC Canadian Discount Bond ETF may also invest in short-term fixed-income securities issued in the Canadian or U.S. market by (i) the U.S. government and (ii) U.S. and foreign corporations. Some of the fixed income securities in which RBC Canadian Discount Bond ETF invests may be denominated in U.S. dollars. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision.

RBC Canadian Discount Bond ETF may use derivative instruments to hedge its U.S. dollar exposure back to the Canadian dollar.

RBC PH&N Short Term Canadian Bond ETF

RBC PH&N Short Term Canadian Bond ETF invests primarily in an actively managed portfolio of high-quality, short-duration Canadian corporate and government bonds, treasury bills and term deposits. Fixed-income securities are selected on the basis of RBC GAM's assessment of each security's key characteristics, including term to maturity, credit quality, yield to maturity and duration, with consideration given to issuer diversification, in order to build a diversified portfolio with competitive risk-adjusted rates of return. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision.

RBC Short Term U.S. Corporate Bond ETF

RBC Short Term U.S. Corporate Bond ETF invests primarily in an actively managed portfolio of high-quality short-duration bonds issued in the U.S. market by U.S. (and, in some cases, foreign) corporations. These bonds are selected by the portfolio sub-advisor on the basis of company credit and industry analysis to identify investment opportunities offering higher probabilities of competitive rates of return while simultaneously mitigating interest rate risk. The portfolio sub-advisor considers environmental, social and governance (ESG) factors where material to the investment decision.

RBC BlueBay Global Diversified Income (CAD Hedged) ETF

RBC BlueBay Global Diversified Income (CAD Hedged) ETF invests primarily in an actively managed portfolio of global investment grade developed market corporate bonds, global high yield bonds and emerging market government and corporate bonds, and may also invest in asset-backed securities and loans. These fixed-income securities are selected by the portfolio sub-advisor on the basis of company credit and industry analysis to identify investment opportunities offering higher probabilities of superior rates of return while simultaneously minimizing the prospect of default. The portfolio sub-advisor considers environmental, social and governance (ESG) factors where material to the investment decision.

RBC BlueBay Global Diversified Income (CAD Hedged) ETF uses derivatives to hedge against fluctuations in foreign currencies to minimize exposure to changes of the foreign currencies held by the RBC ETF relative to the Canadian dollar. RBC BlueBay Global Diversified Income (CAD Hedged) ETF will not change its currency hedging strategy without the prior approval of unitholders. RBC BlueBay Global Diversified Income (CAD Hedged) ETF may also use derivatives to protect against losses or reduce volatility resulting from changes in interest rates.

RBC Canadian Preferred Share ETF

The RBC Canadian Preferred Share ETF invests primarily in an actively managed portfolio of rate reset preferred shares issued by Canadian companies, selected on the basis of fundamental analysis, credit research and interest rate sensitivity analysis. The RBC Canadian Preferred Share ETF may also hold preferred shares issued by Canadian companies that are not rate reset preferred shares, fixed-income securities issued by Canadian governments or companies, dividend-paying common stock from Canadian issuers or preferred shares from U.S. issuers, as well as other Canadian listed exchange-traded funds. Some of the Canadian listed preferred shares in which the RBC Canadian Preferred Share ETF invests may be denominated in U.S. dollars. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision.

The RBC Canadian Preferred Share ETF may also hold money market instruments and cash.

The RBC Canadian Preferred Share ETF may use derivative instruments for hedging purposes. "Hedging" refers to investments that are intended to offset or reduce a specific risk associated with all or a portion of an existing investment or position, or group of investments or positions. For example, the RBC Canadian Preferred Share ETF may use derivative instruments to hedge its U.S. dollar exposure back to the Canadian dollar.

RBC Quant Canadian Dividend Leaders ETF

Portfolio securities for the RBC Quant Canadian Dividend Leaders ETF are selected using a rules-based, multi-factor investment approach that considers a company's balance sheet strength, the stability and sustainability of its dividend payout and/or its ability to pay or grow dividends in the future. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Quant Canadian Equity Leaders ETF

Portfolio securities for the RBC Quant Canadian Equity Leaders ETF are selected using a rules-based, multi-factor investment approach designed to select companies with a high quality of earnings while filtering out slow growth companies and securities with expensive valuations. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Quant U.S. Dividend Leaders ETF

Portfolio securities for the RBC Quant U.S. Dividend Leaders ETF are selected using a rules-based, multi-factor investment approach that considers a company's balance sheet strength, the stability and sustainability of its dividend payout and/or its ability to pay or grow dividends in the future. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF

The RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF invests substantially all of its assets in units of the RBC Quant U.S. Dividend Leaders ETF (the "underlying RBC ETF"), while seeking to minimize exposure to currency fluctuations between the U.S. and Canadian dollars. The RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF may also invest directly in a portfolio of U.S. dividend-paying equity securities.

Portfolio securities for the underlying RBC ETF (and for the RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF, to the extent it invests directly in equity securities) are selected using a rules-based, multi-factor investment approach that considers a company's balance sheet strength, the stability and sustainability of its dividend payout and/or its ability to pay or grow dividends in the future. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

The RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF uses derivatives to hedge against fluctuations in the U.S. dollar to minimize exposure to changes of the U.S. dollar relative to the Canadian dollar.

RBC Quant U.S. Equity Leaders ETF

Portfolio securities for the RBC Quant U.S. Equity Leaders ETF are selected using a rules-based, multi-factor investment approach designed to select companies with a high quality of earnings while filtering out slow growth companies and securities with expensive valuations. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Quant U.S. Equity Leaders (CAD Hedged) ETF

The RBC Quant U.S. Equity Leaders (CAD Hedged) ETF invests substantially all of its assets in units of the RBC Quant U.S. Equity Leaders ETF (the "underlying RBC ETF"), while seeking to minimize exposure to currency fluctuations between the U.S. and Canadian dollars. The RBC Quant U.S. Equity Leaders (CAD Hedged) ETF may also invest directly in a portfolio of U.S. equity securities.

Portfolio securities for the underlying RBC ETF (and for the RBC Quant U.S. Equity Leaders (CAD Hedged) ETF, to the extent it invests directly in equity securities) are selected using a rules-based, multi-factor investment approach designed to select companies with a high quality of earnings while filtering out slow growth companies and securities with expensive valuations. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

The RBC Quant U.S. Equity Leaders (CAD Hedged) ETF uses derivatives to hedge against fluctuations in the U.S. dollar to minimize exposure to changes of the U.S. dollar relative to the Canadian dollar.

RBC Quant European Dividend Leaders ETF

Portfolio securities for the RBC Quant European Dividend Leaders ETF are selected using a rules-based, multi-factor investment approach that considers a company's balance sheet strength, the stability and sustainability of its dividend payout and/or its ability to pay or grow dividends in the future. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Quant European Dividend Leaders (CAD Hedged) ETF

The RBC Quant European Dividend Leaders (CAD Hedged) ETF invests substantially all of its assets in units of the RBC Quant European Dividend Leaders ETF (the "underlying RBC ETF"), while seeking to minimize exposure to currency fluctuations between foreign currencies and the Canadian dollar. The RBC Quant European Dividend Leaders (CAD Hedged) ETF may also invest directly in a portfolio of European dividend-paying equity securities.

Portfolio securities for the underlying RBC ETF (and for the RBC Quant European Dividend Leaders (CAD Hedged) ETF, to the extent it invests directly in equity securities) are selected using a rules-based, multi-factor investment approach that considers a company's balance sheet strength, the stability and sustainability of its dividend payout and/or its ability to pay or grow dividends in the future. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

The RBC Quant European Dividend Leaders (CAD Hedged) ETF uses derivatives to hedge against fluctuations in foreign currencies to minimize exposure to changes of the foreign currencies held by the ETF relative to the Canadian dollar.

RBC Quant EAFE Dividend Leaders ETF

Portfolio securities for the RBC Quant EAFE Dividend Leaders ETF are selected using a rules-based, multi-factor investment approach that considers a company's balance sheet strength, the stability and sustainability of its dividend payout and/or its ability to pay or grow dividends in the future. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF

The RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF invests substantially all of its assets in units of the RBC Quant EAFE Dividend Leaders ETF (the "underlying RBC ETF"), while seeking to minimize exposure to currency fluctuations between foreign currencies and the Canadian dollar. The RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF may also invest directly in a portfolio of dividend-paying equity securities in markets in Europe, Australasia and the Far East.

Portfolio securities for the underlying RBC ETF (and for the RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF, to the extent it invests directly in equity securities) are selected using a rules-based, multi-factor investment approach that considers a company's balance sheet strength, the stability and sustainability of its dividend payout and/or its ability to pay or grow dividends in the future. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

The RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF uses derivatives to hedge against fluctuations in foreign currencies to minimize exposure to changes of the foreign currencies held by the ETF relative to the Canadian dollar.

RBC Quant EAFE Equity Leaders ETF

Portfolio securities for the RBC Quant EAFE Equity Leaders ETF are selected using a rules-based, multi-factor investment approach designed to select companies with a high quality of earnings while filtering out slow growth companies and securities with expensive valuations. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Quant EAFE Equity Leaders (CAD Hedged) ETF

The RBC Quant EAFE Equity Leaders (CAD Hedged) ETF invests substantially all of its assets in units of the RBC Quant EAFE Equity Leaders ETF (the “**underlying RBC ETF**”), while seeking to minimize exposure to currency fluctuations between foreign currencies and the Canadian dollar. The RBC Quant EAFE Equity Leaders (CAD Hedged) ETF may also invest directly in a portfolio of equity securities in markets in Europe, Australasia and the Far East.

Portfolio securities for the underlying RBC ETF (and for the RBC Quant EAFE Equity Leaders (CAD Hedged) ETF, to the extent it invests directly in equity securities) are selected using a rules-based, multi-factor investment approach designed to select companies with a high quality of earnings while filtering out slow growth companies and securities with expensive valuations. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

The RBC Quant EAFE Equity Leaders (CAD Hedged) ETF uses derivatives to hedge against fluctuations in foreign currencies to minimize exposure to changes of the foreign currencies held by the ETF relative to the Canadian dollar.

RBC Quant Emerging Markets Dividend Leaders ETF

Portfolio securities for the RBC Quant Emerging Markets Dividend Leaders ETF are selected using a rules-based, multi-factor investment approach that considers a company’s balance sheet strength, the stability and sustainability of its dividend payout and/or its ability to pay or grow dividends in the future. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Quant Emerging Markets Equity Leaders ETF

Portfolio securities for the RBC Quant Emerging Markets Equity Leaders ETF are selected using a rules-based, multi-factor investment approach designed to select companies with a high quality of earnings while filtering out slow growth companies and securities with expensive valuations. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Strategic Global Dividend Leaders ETF

The RBC Strategic Global Dividend Leaders ETF invests substantially all of its assets in RBC Quant Dividend Leaders ETFs (other than RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF, RBC Quant European Dividend Leaders (CAD Hedged) ETF and RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF). The RBC Strategic Global Dividend Leaders ETF may also invest directly in a portfolio of global dividend-paying equity securities.

The decision to invest in each of the RBC Quant Dividend Leaders ETFs is based on the portfolio manager’s assessment of the global market outlook and the RBC Quant Dividend Leaders ETF’s ability to enable the portfolio to meet its stated investment objectives. The portfolio asset allocation is reconstituted and rebalanced from time to time, and no less frequently than quarterly. The frequency of the reconstitution and rebalancing may change without notice.

In order to adjust the portfolio's asset mix in a more timely manner, the portfolio manager may use derivatives such as options, futures, forward contracts and swaps as a substitute for direct investment in a particular market, on a short-term basis, until the portfolio's assets can be reallocated among the RBC Quant Dividend Leaders ETFs.

Portfolio securities for each of the RBC Quant Dividend Leaders ETFs (and for the RBC Strategic Global Dividend Leaders ETF, to the extent it invests directly in equity securities) are selected using a rules-based, multi-factor investment approach designed to select high-quality global equity securities (i.e. companies with strong balance sheets, stable and sustainable dividend payouts and/or the ability to pay or grow dividends in the future). RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies.

RBC Strategic Global Equity Leaders ETF

The RBC Strategic Global Equity Leaders ETF invests substantially all of its assets in RBC Quant Equity Leaders ETFs (other than RBC Quant U.S. Equity Leaders (CAD Hedged) ETF and RBC Quant EAFE Equity Leaders (CAD Hedged) ETF). The RBC Strategic Global Equity Leaders ETF may also invest directly in a portfolio of global equity securities.

The decision to invest in each of the applicable RBC Quant Equity Leaders ETFs is based on the portfolio manager's assessment of the global market outlook and the RBC Quant Equity Leaders ETF's ability to enable the portfolio to meet its stated investment objectives. The portfolio asset allocation is reconstituted and rebalanced from time to time, and no less frequently than quarterly. The frequency of the reconstitution and rebalancing may change without notice.

In order to adjust the portfolio's asset mix in a more timely manner, the portfolio manager may use derivatives such as options, futures, forward contracts and swaps as a substitute for direct investment in a particular market, on a short-term basis, until the portfolio's assets can be reallocated among the RBC Quant Equity Leaders ETFs.

Portfolio securities for each of the applicable RBC Quant Equity Leaders ETFs (and for the RBC Strategic Global Equity Leaders ETF, to the extent it invests directly in equity securities) are selected using a rules-based, multi-factor investment approach designed to select high-quality global equity securities (i.e. companies with a high quality of earnings) while filtering out slow growth companies and securities with expensive valuations. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization companies.

RBC Quant Global Infrastructure Leaders ETF

Portfolio securities for the RBC Quant Global Infrastructure Leaders ETF are selected from the global listed infrastructure universe using a rules-based, multi-factor investment approach that considers a combination of the financial strength, growth and stability factors of the company. The global listed infrastructure universe, as determined by the portfolio management team, is made up of companies that own or operate assets primarily in the transportation (toll roads, airports, railroads and marine ports), energy (storage and transportation, renewable energy and pipelines), utilities (electric utilities, gas utilities and water), and communication (wireless towers) sectors, domiciled around the world. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization securities. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

RBC Quant Global Real Estate Leaders ETF

Portfolio securities for the RBC Quant Global Real Estate Leaders ETF are selected from the global real estate universe using a rules-based, multi-factor investment approach that considers a combination of the financial strength, growth and stability factors of the company. The global real estate universe, as determined by the portfolio management team, includes REITs and real estate management and development companies domiciled around the world. RBC GAM considers environmental, social and governance (ESG) factors where material to the investment decision. Securities are weighted in accordance with a modified capitalization weighting methodology designed to reduce the dispersion of weights between larger and smaller capitalization securities. The portfolio holdings are reconstituted and rebalanced on a quarterly basis. The frequency of the reconstitution and rebalancing may change without notice.

Investment in Underlying Funds

In accordance with Canadian securities legislation, including NI 81-102, and applicable exemptive relief, an RBC ETF may invest in one or more other RBC ETFs or in certain other investment funds (collectively, “**Underlying Funds**”), provided that no management fees or incentive fees are payable by an RBC ETF that, to a reasonable person, would duplicate a fee payable by the Underlying Fund for the same service. See “Exemptions and Approvals”.

Securities Lending

Securities lending transactions may be utilized by the RBC ETFs in accordance with NI 81-102, and any exemptive relief therefrom, to provide incremental return to the RBC ETFs in a manner that is consistent with the investment objectives of the RBC ETFs. Securities lending is also a means of generating income for the purpose of meeting the RBC ETFs’ current obligations.

The RBC ETFs may lend securities that they hold themselves or through an agent, to brokers, dealers, other financial institutions and other borrowers desiring to borrow securities provided that such securities lending qualifies as a “securities lending arrangement” for the purposes of the *Income Tax Act* (Canada) (the “**Tax Act**”).

Under applicable securities legislation, the collateral posted by a securities borrower is required to have an aggregate value of not less than 102% of the market value of the loaned securities. The total value of the securities loaned by an RBC ETF at any time is not permitted to exceed 50% of the net asset value of the RBC ETF (excluding any collateral received from securities lending activities). Any cash collateral acquired by an RBC ETF is permitted to be itself invested only in the securities permitted under NI 81-102 that have a remaining term to maturity of no longer than 90 days.

Use of Derivative Instruments

Each of the RBC ETFs may invest in or use derivative instruments, including futures contracts and forward contracts, from time to time provided that the use of such derivative instruments is in compliance with NI 81-102 and is consistent with the investment objective and strategy of the RBC ETF.

An RBC ETF may use derivative instruments for hedging purposes or for non-hedging purposes. “Hedging” refers to investments that are intended to offset or reduce a specific risk associated with all or a portion of an existing investment or position or group of investments or positions. For example, each of RBC Canadian Discount Bond ETF, RBC BlueBay Global Diversified Income (CAD Hedged) ETF, RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF, RBC Quant U.S. Equity Leaders (CAD Hedged) ETF, RBC Quant European Dividend Leaders (CAD Hedged) ETF, RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF and RBC Quant EAFE Equity Leaders (CAD Hedged) ETF uses derivative instruments to hedge the U.S. dollar or foreign currency exposure, as the case may be, of the securities included in the applicable Underlying Funds to the Canadian dollar. For non-hedging purposes, an RBC ETF may use derivative instruments as a substitute for investing directly in certain securities in order to obtain the desired investment exposure. For example, an RBC ETF may not be fully invested at times, either as a result of cash flows into the RBC ETF or reserves of cash held by the RBC ETF to meet redemption requests and to pay expenses, and so may use derivative instruments in lieu of investing directly in certain securities. If an RBC ETF uses derivative instruments for non-hedging purposes, NI 81-102 requires that the RBC ETF hold certain assets and/or cash to ensure the RBC ETF is able to meet its obligations under the derivative contracts and to limit any possible losses that could result from the use of derivative instruments. See “Exemptions and Approvals”.

Derivatives are instruments whose market price, value, delivery obligations, payment obligations or settlement obligations are derived from, referenced to or based on an underlying interest (including a value, price, rate, variable, index, event, probability or thing) and enable investors to speculate on or hedge against future changes in the price or value of the underlying interest of the derivative. Types of derivatives include options, swaps, futures contracts, forward contracts or other financial or commodity contracts or instruments. A forward contract is an agreement to make or take delivery of an underlying interest at or by a time in the future at a predetermined price. A futures contract is exchange-traded and derives its value from movements in the spot price of the underlying interest.

Responsible Investment

Responsible investment includes integrating environmental, social and governance (“**ESG**”) factors into the investment decision-making process for the RBC ETFs.

We believe that the proper disclosure and consideration of ESG risks and opportunities by the companies and countries in which the RBC ETFs are invested may enhance the risk-adjusted long-term performance of those investments. Accordingly, we seek to integrate ESG factors into the investment process when doing so may have a material impact on the investment risk or return. RBC GAM considers a company's ESG factors where material to the investment decision, but ESG factors are not necessarily a part of the fundamental investment objectives of the RBC ETF. For more information, please see Our Approach to Responsible Investment, available on the RBC GAM website at www.rbcgam.com/en/ca, which sets out our overall approach to responsible investment, including how we integrate ESG factors throughout our investment process across all asset classes and how we work as an active, engaged investor.

INVESTMENT RESTRICTIONS

The RBC ETFs are subject to certain restrictions and practices contained in securities legislation, including NI 81-102 and NI 81-107. The RBC ETFs are managed in accordance with these restrictions and practices, except as otherwise permitted by exemptions provided by Canadian securities regulatory authorities or as permitted by NI 81-107. See "Exemptions and Approvals". A change to the investment objective of an RBC ETF would require the approval of unitholders. See "Unitholder Matters – Matters Requiring Unitholder Approval".

Each RBC ETF is also restricted from undertaking any activity that would result in such RBC ETF failing to qualify as a "mutual fund trust" within the meaning of the Tax Act.

FEES AND EXPENSES

Fees and Expenses Payable by the RBC ETFs

Management Fee

RBC GAM is entitled to receive a fee for acting as manager, trustee and portfolio manager of the RBC ETFs (the "management fee"). The fee is based on a percentage of the Net Asset Value of each of the following RBC ETFs and is listed below:

RBC ETF	ANNUAL MANAGEMENT FEE
RBC 6-10 Year Laddered Canadian Corporate Bond ETF	0.25%
RBC Canadian Discount Bond ETF	0.15%
RBC PH&N Short Term Canadian Bond ETF	0.35%
RBC Short Term U.S. Corporate Bond ETF	0.35%
RBC BlueBay Global Diversified Income (CAD Hedged) ETF	0.60%
RBC Canadian Preferred Share ETF	0.53%
RBC Quant Canadian Dividend Leaders ETF	0.39%
RBC Quant Canadian Equity Leaders ETF	0.39%
RBC Quant U.S. Dividend Leaders ETF	0.39%
RBC Quant U.S. Equity Leaders ETF	0.39%
RBC Quant European Dividend Leaders ETF	0.49%
RBC Quant EAFE Dividend Leaders ETF	0.49%
RBC Quant EAFE Equity Leaders ETF	0.49%
RBC Quant Emerging Markets Dividend Leaders ETF	0.64%
RBC Quant Emerging Markets Equity Leaders ETF	0.64%
RBC Quant Global Infrastructure Leaders ETF	0.55%
RBC Quant Global Real Estate Leaders ETF	0.55%

RBC GAM is, in respect of the following RBC ETFs listed below, entitled to receive a fee for acting as manager, trustee and portfolio manager of such funds and of the Underlying Funds in which such RBC ETFs invest (an "underlying product fee" and, together with the management fee, the "total annual management fee"). As the underlying product fees are embedded in the market value of the Underlying Funds in which the applicable RBC ETFs invest, the underlying product fees are paid indirectly by the RBC ETFs. Although the aggregate amounts of the underlying product fees may vary depending on the allocation of the assets of each applicable RBC ETF amongst the Underlying Funds,

RBC GAM will adjust the management fee payable to it by such RBC ETFs to ensure that the total annual management fees paid directly or indirectly to RBC GAM by such RBC ETFs and the Underlying Funds will not exceed the percentage of the Net Asset Value of each of the applicable RBC ETFs.

RBC ETF	TOTAL ANNUAL MANAGEMENT FEE
RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF	0.39%
RBC Quant U.S. Equity Leaders (CAD Hedged) ETF	0.39%
RBC Quant European Dividend Leaders (CAD Hedged) ETF	0.49%
RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF	0.49%
RBC Quant EAFE Equity Leaders (CAD Hedged) ETF	0.49%
RBC Strategic Global Dividend Leaders ETF	0.55%
RBC Strategic Global Equity Leaders ETF	0.55%

The management fee for each RBC ETF listed above is calculated and accrued daily and generally paid monthly, but in any case not less than quarterly. The management fee is exclusive of applicable GST/HST. RBC GAM may waive a portion of the management fee payable by an RBC ETF at any time at RBC GAM's sole discretion. Where RBC GAM has waived a portion of the management fee payable by an RBC ETF, RBC GAM retains full discretion to increase the management fee in respect of an RBC ETF at any time such that the management fees or total annual management fees, as applicable, paid to RBC GAM by the RBC ETF will not exceed the management fee or total annual management fee, as applicable, per annum for such RBC ETF as listed above.

RBC GAM, in its capacity as manager of each RBC ETF, manages the day-to-day business of each RBC ETF, including negotiating contractual agreements with and providing oversight of service providers, preparing reports to unitholders and securities regulatory authorities and conducting marketing activities. RBC GAM also acts as trustee of the RBC ETFs and as portfolio manager of each RBC ETF, managing the investment portfolios and executing portfolio transactions for each RBC ETF.

RBC GAM is responsible for each of the RBC ETF's fees and expenses except the management fee and certain operating expenses described below under "Certain Operating Expenses". The fees and expenses for which RBC GAM is responsible include the annual fees, meeting fees and reimbursement for expenses to members of the IRC, fees payable to the Sub-advisors, the custodian and valuation agent and the registrar and transfer agent and certain legal, audit, printing, stock exchange and regulatory fees and expenses. See "Organization and Management Details of the RBC ETFs – Duties and Services Provided by the Manager of the RBC ETFs".

Management Fee Distributions

RBC GAM may agree to charge a reduced management fee as compared to the fee that RBC GAM otherwise would be entitled to receive from an RBC ETF with respect to investments in the RBC ETF by certain unitholders who hold a minimum amount of Units during any period as specified by RBC GAM from time to time. An amount equal to the difference between the management fee otherwise chargeable and the reduced fee of the RBC ETF will be distributed quarterly in cash by the RBC ETF to those unitholders as Management Fee Distributions.

The availability and amount of Management Fee Distributions with respect to Units of an RBC ETF will be determined by RBC GAM. Management Fee Distributions will generally be calculated and applied based on a unitholder's average holdings of Units (excluding Units lent under the terms of securities lending agreements) over each applicable period as specified by RBC GAM from time to time. Management Fee Distributions will be available only to beneficial owners of Units and not to the holdings of Units by dealers, brokers or other participants in CDS Clearing and Depository Services Inc. ("CDS") who hold Units in CDS on behalf of beneficial unitholders. Management Fee Distributions will be paid first out of income and capital gains of the RBC ETFs and then out of capital. See "Income Tax Considerations – Taxation of Unitholders" for further details. In order to receive a Management Fee Distribution for any applicable period, a beneficial owner of Units must submit a claim for a Management Fee Distribution that is verified by a CDS participant on the beneficial owner's behalf and provide RBC GAM with such further information as RBC GAM may require in accordance with the terms and procedures established by RBC GAM from time to time.

RBC GAM reserves the right to discontinue or change Management Fee Distributions at any time. The tax consequences of Management Fee Distributions made by an RBC ETF generally will be borne by the unitholders receiving these distributions.

Forms of Dealer Support

RBC GAM may participate in co-operative advertising programs with dealers to help them market the RBC ETFs. RBC GAM may use part of the management fee of an RBC ETF to pay for a portion of the cost of these advertising programs in accordance with rules set out in National Instrument 81-105 – *Mutual Fund Sales Practices*.

Royal Bank of Canada (“**Royal Bank**”) owns, directly or indirectly, 100% of RBC Dominion Securities Inc. and RBC Direct Investing Inc., which are participating dealers in respect of Units of the RBC ETFs.

Certain Operating Expenses

The RBC ETFs are also responsible for any IRC costs and expenses that are not related to annual fees, meeting fees and reimbursement for expenses to members of the IRC, brokerage expenses and commissions, income tax, GST, HST, withholding and other taxes, the costs of complying with any new governmental or regulatory requirement introduced after the RBC ETFs were established and extraordinary expenses.

Fees and Expenses of Underlying Funds

In accordance with Canadian securities legislation, including NI 81-102, and applicable exemptive relief, an RBC ETF may invest in one or more Underlying Funds. Fees and expenses are payable by the Underlying Funds in addition to the fees and expenses payable by the RBC ETFs. However, an RBC ETF may only invest in one or more Underlying Funds provided that no management fees or incentive fees are payable by an RBC ETF that, to a reasonable person, would duplicate a fee payable by the Underlying Fund for the same service. In addition, the RBC ETF will not pay any sales fees or redemption fees upon a purchase or redemption of securities of any Underlying Fund which is an RBC ETF or a fund managed by RBC GAM or an affiliate. In respect of an Underlying Fund which is not an RBC ETF or is not managed by RBC GAM or an affiliate, an RBC ETF will not pay any sales fees or redemption fees to the Underlying Fund which, to a reasonable person, would duplicate a fee payable by an investor in the RBC ETF. See “Exemptions and Approvals”.

Fees and Expenses Payable Directly by Unitholders

Exchange and Redemption Fee

Unitholders who buy and sell Units of the RBC ETFs through the facilities of the TSX or the Neo Exchange, as the case may be, or other exchange do not pay a fee directly to RBC GAM or the RBC ETFs in respect of those purchases and sales.

Unitholders who exchange or redeem Units of the RBC ETFs directly through RBC GAM may be charged, at RBC GAM’s discretion, an exchange or redemption fee of up to 0.05% of the exchange or redemption proceeds to offset certain transaction costs associated with the exchange or redemption of Units of the RBC ETFs.

ANNUAL RETURNS, MANAGEMENT EXPENSE RATIO AND TRADING EXPENSE RATIO

The following chart provides the annual returns, the management expense ratios (“**MER**”) and trading expense ratios (“**TER**”)¹ for each RBC ETF from the date of its inception or January 1, 2015, as applicable, to December 31, 2019.

Notes:

¹ The TER is not affected by trades in fixed-income securities.

² Investment performance has not been disclosed for the stated period since the RBC ETF was not a reporting issuer for at least 12 consecutive months.

³ Information is only available beginning October 19, 2017, being the date units of the RBC ETF commenced trading on the TSX.

⁴ Information is only available beginning June 12, 2019, being the date units of the RBC ETF commenced trading on the Neo Exchange.

⁵ Information is only available beginning September 20, 2016, being the date units of the RBC ETF commenced trading on the TSX.

⁶ Information is only available beginning May 12, 2015, being the date units of the RBC ETF commenced trading on the TSX.

⁷ Information is only available beginning January 25, 2016, being the date units of the RBC ETF commenced trading on the TSX.

⁸ Information is only available beginning May 9, 2017, being the date units of the RBC ETF commenced trading on the TSX.

RISK FACTORS

The risks associated with making an investment in the RBC ETFs, including, in the case of RBC ETFs that invest in Underlying Funds, indirect risks arising as a result of their exposure to the Underlying Funds, are described below.

General Risks Relating to an Investment in the RBC ETFs

General Risks of Investments

An investment in an RBC ETF should be made with an understanding that the value of the underlying securities may fluctuate in accordance with changes in the financial condition of the issuers of those underlying securities, the condition and liquidity of equity, bond and currency markets generally and other factors. The identity and weighting of the Constituent Issuers and Constituent Securities held by an RBC ETF may also change from time to time.

The risks inherent in investments in equity and fixed-income securities include the risk that the financial condition of the issuers of the securities may become impaired or that the general condition of the financial markets may deteriorate (either of which may cause a decrease in the value of the Constituent Securities held by the applicable RBC ETF and thus in the value of Units of the RBC ETF). Equity securities

are susceptible to general stock market fluctuations and the financial condition of the issuer. Fixed-income securities are susceptible to general interest rate fluctuations and to changes in investors' perception of inflation expectations and the condition of the issuer. These investor perceptions are based on various and unpredictable factors, including expectations regarding government, economic, monetary and fiscal policies; inflation and interest rates; economic expansion or contraction; and global or regional political, economic and banking crises.

Market Risk

Market risk is the risk of being invested in the equity and fixed-income markets. The market value of an RBC ETF's investments will rise and fall based on specific company developments and broader equity or fixed-income market conditions. Market value will also vary with changes in the general economic and financial conditions in countries where the investments are based (whether as a result of political, social, environmental or health crises, or otherwise).

Equity Investment Risk

Equities such as common shares give the holder part ownership in a company. The value of an equity security changes with the fortunes of the company that issued it. General market conditions and the health of the economy as a whole can also affect equity prices. Certain securities may be particularly sensitive to general market movements, which may result in a greater degree of price volatility for such securities and in the Net Asset Value of an RBC ETF that invests in such securities under specific market conditions and over time. Equity related securities that provide indirect exposure to equity securities of an issuer, such as convertible debentures, can also be affected by equity risk.

Interest Rate Risk

If an RBC ETF invests directly or indirectly primarily in bonds and fixed-income or dividend-paying equity securities, the biggest influence on an RBC ETF's value will be changes in the general level of interest rates. If interest rates fall, the value of an RBC ETF's Units will tend to rise. If interest rates rise, the value of an RBC ETF's Units will tend to fall. Depending on an RBC ETF's holdings, short-term interest rates can have a different influence on an RBC ETF's value than long-term interest rates. If an RBC ETF invests primarily in bonds and other fixed-income securities with longer-term maturities, the biggest influence on the RBC ETF's value will be changes in the general level of long-term interest rates. If an RBC ETF invests primarily in bonds and other fixed-income securities with shorter-term maturities, the biggest influence on the RBC ETF's value will be changes in the general level of shorter-term interest rates.

Asset Class Risk

The Constituent Securities in an RBC ETF's or the Underlying Fund's portfolio may underperform the returns of other securities or indices that track other countries, regions, industries, markets, asset classes or sectors. Various asset classes tend to experience cycles of outperformance and underperformance in comparison to the general securities markets.

Concentration Risk

To the extent that an RBC ETF's investments are concentrated in a particular sector, region or asset class, the RBC ETF may be susceptible to loss due to adverse occurrences affecting that sector, region or asset class. Each of the RBC ETFs may invest more of its net assets in one or more issuers than is permitted for actively managed mutual funds. This may increase the liquidity risk of the RBC ETFs, which may, in turn, have an effect on the RBC ETFs' ability to satisfy redemption requests. This may also lower the diversification of the RBC ETFs and may make the general risk of equity and fixed-income investments and the volatility of Net Asset Value of the RBC ETFs relatively greater.

Credit Risk

An RBC ETF may be subject to credit risk. Credit risk is a measure of an issuer's financial strength and reflects the possibility that a borrower, or the counterparty to a derivatives contract, is unable or unwilling to repay the loan or obligation, either on time or at all. Companies and governments that borrow money, and the debt securities they issue, are rated by specialized rating agencies. Securities that have a low credit rating have high credit risk. Credit rating downgrades and defaults (failure to make interest or principal payment) may potentially reduce an RBC ETF's income and unit price. A deterioration of an issuer's financial strength may also affect the issuer's ability to make dividend payments.

Risk that Units Will Trade at Prices Other than Net Asset Value per Unit

The Units of an RBC ETF may trade below, at, or above their respective Net Asset Value per Unit. The Net Asset Value per Unit will fluctuate with changes in the market value of an RBC ETF's holdings. The trading prices of the Units will fluctuate in accordance with changes in the applicable RBC ETF's Net Asset Value per Unit, as well as market supply and demand on the TSX or the Neo Exchange, as the case may be. However, given that unitholders and underwriters may exchange the Prescribed Number of Units of any RBC ETF at the Net Asset Value per Unit, RBC GAM believes that large discounts or premiums to the Net Asset Value per Unit of an RBC ETF are unlikely to be sustained.

If a unitholder purchases Units of an RBC ETF at a time when the market price of a Unit is at a premium to the Net Asset Value per Unit or sells Units of an RBC ETF at a time when the market price of a Unit is at a discount to the Net Asset Value per Unit, the unitholder may incur a loss.

Risks Associated with Derivative Investments

An RBC ETF may use derivative instruments from time to time as described under "Investment Strategies – Use of Derivative Instruments". The use of derivative instruments involves risks different from, and possibly greater than, the risks associated with investing directly in securities and other traditional investments. Risks associated with the use of derivatives include: (i) there is no guarantee that hedging to reduce risk will not result in a loss or that there will be a gain; (ii) there is no guarantee that a market will exist when an RBC ETF wants to complete the derivative contract, which could prevent an RBC ETF from reducing a loss or making a profit; (iii) securities exchanges may impose trading limits on options and futures contracts, and these limits may prevent an RBC ETF from completing the derivative contract; (iv) an RBC ETF could experience a loss if the other party to the derivative contract is unable to fulfill its obligations; (v) if an RBC ETF has an open position in an option, a futures contract or a forward contract with a dealer who goes bankrupt, the RBC ETF could experience a loss and, for an open futures or forward contract, a loss of margin deposited with that dealer; and (vi) if a derivative is based on a stock market index and trading is halted on a substantial number of stocks in the index or there is a change in the composition of the index, there could be an adverse effect on the derivative. In circumstances where there is an interest rate hedge employed, total return on the investment portfolio of an RBC ETF may be higher with the hedge than without it when interest rates rise significantly, but may be lower when interest rates are stable or decrease.

There is no assurance that an RBC ETF's use of derivatives will be effective. There may be an imperfect historical correlation between the behaviour of the derivative instrument and the underlying investment. Any historical correlation may not continue for the period during which the derivative instrument is used.

Liquidity Risk

Liquidity refers to the speed and ease with which an asset can be sold and converted into cash. Most securities owned by an RBC ETF and by the Underlying Funds can be sold easily and at a fair price. Under certain circumstances, such as a market disruption, an issuer default or a foreign jurisdiction holiday, an RBC ETF may not be able to dispose of its investments quickly or at prices that represent the fair market value of such investments. Some securities may become illiquid because of legal restrictions, the nature of the investment, certain features, like guarantees, or a lack of buyers interested in the particular security or market. The absence of liquidity may result in securities sold at a loss or reduced return for an RBC ETF, or the Units trading at a discount to Net Asset Value per Unit in the market.

Tax-Related Risks

If an RBC ETF were to not qualify as a "mutual fund trust" for the purposes of the Tax Act at any time, there could be negative tax consequences for the RBC ETF and its investors. See "Income Tax Considerations".

There can be no assurances that the Canada Revenue Agency will agree with the tax treatment adopted by an RBC ETF in filing its tax return and the Canada Revenue Agency could reassess an RBC ETF on a basis that results in tax being payable by the RBC ETF, thereby reducing the after-tax returns to unitholders.

The Tax Act contains tax loss restriction rules that generally apply when a unitholder of a trust (counted together with its affiliates) becomes a majority-interest beneficiary of the trust (i.e. holds more than 50% of the fair market value of the units of the trust) or a group of unitholders of the trust becomes a majority-interest group of beneficiaries of the trust. If these rules were to apply to an RBC ETF, the taxation year of the RBC ETF would be deemed to end and an automatic distribution of income and net capital gains may occur under the terms of the Master Declaration of Trust. However, trusts that qualify as "investment funds" as defined in the Tax Act are exempt from such adverse consequences. An "investment fund" for this purpose includes a trust that meets certain conditions, including qualifying as a "mutual fund trust" for purposes of the Tax Act, not using any property in the course of carrying on a business and complying with certain asset diversification requirements. The RBC ETFs presently qualify, and are expected to continue to qualify, as "investment funds".

The statements in the previous paragraph apply equally to an Underlying Fund held by an RBC ETF. An RBC ETF's after-tax return on its investment in an Underlying Fund could be adversely affected if the Underlying Fund did not qualify as an "investment fund" and were to be subject to a "loss restriction event". However, the Underlying Funds presently qualify, and are expected to continue to qualify, as "investment funds".

In addition, an RBC ETF that does not qualify as a "mutual fund trust" under the Tax Act will be treated as a "financial institution" for purposes of certain special mark-to-market rules in the Tax Act if more than 50% of the Units of the RBC ETF are held by one or more unitholders that are themselves considered to be financial institutions. In such event, the tax year of the RBC ETF will be deemed to end immediately before that time and any gains or losses on certain securities accrued before that time will be deemed realized by the RBC ETF and will be distributed to unitholders. In addition, the RBC ETF will be required to recognize at least annually on income account any gains and losses accruing on certain types of debt obligations and equity securities that it holds and also will be subject to special rules with respect to income inclusion on these securities. Any income arising from such treatment will be included in amounts to be distributed to unitholders. If more than 50% of the Units of such an RBC ETF cease to be held by financial institutions, the tax year of the RBC ETF will be deemed to end immediately before that time and any gains or losses on certain securities accrued before that time will be deemed realized by the RBC ETF and will be distributed to unitholders. A new taxation year for the RBC ETF will then begin and for that and subsequent taxation years, for so long as not more than 50% of the Units of the RBC ETF are held by financial institutions, or the RBC ETF is a mutual fund trust for purposes of the Tax Act, the RBC ETF will not be subject to these special mark-to-market rules. Given the manner in which Units are distributed, there will be circumstances in which it will not be possible to control or identify whether an RBC ETF has, or has ceased to, become a "financial institution". As a result, there can be no assurance that an RBC ETF is not a "financial institution" or will not in the future become, or cease to be, a "financial institution" and no assurance as to when and to whom any distributions arising on the change in "financial institution" status of an RBC ETF will be made, or that the RBC ETF will not be required to pay tax on any undistributed income or taxable capital gains realized by the RBC ETF on such event.

Risk of Adverse Changes in Legislation

There can be no assurance that income tax, securities or other laws will not be changed in a manner that adversely affects the distributions received by an RBC ETF or by the unitholders. There can be no assurance that Canadian federal income tax laws or the administrative policies and assessing practices of the Canada Revenue Agency respecting the treatment of mutual fund trusts will not be changed in a manner that adversely affects an RBC ETF or the unitholders. For example, changes to tax legislation or the administration thereof could adversely affect the taxation of an RBC ETF or the issuers in which it invests.

Cease Trading of Underlying Securities

If any of the Constituent Securities in an RBC ETF or Underlying Fund are cease-traded at any time by order of the TSX or the Neo Exchange, as the case may be, a securities regulatory authority or other relevant regulator or stock exchange, RBC GAM may suspend the exchange or redemption of Units until such time as the transfer of the securities is permitted by law.

Reliance on the Manager

Certain of the RBC ETFs will be dependent on the ability of RBC GAM to effectively manage the RBC ETF in a manner consistent with its investment objectives, strategies and restrictions. There is no certainty that the individuals who are responsible for providing administration and portfolio management services to the RBC ETFs will continue to be employed by RBC GAM.

Securities Lending Transaction Risks

An RBC ETF may enter into securities lending arrangements in accordance with the rules of the Canadian Securities Administrators (the "CSA") or any exemptive relief therefrom. Securities lending transactions may be entered into to generate additional income or as a short-term cash management tool to enhance the Net Asset Value of an RBC ETF.

In a securities lending transaction, an RBC ETF lends its securities to a borrower in exchange for a fee. The other party to a securities lending transaction delivers collateral to the RBC ETF in order to secure the transaction.

Securities lending transactions come with certain risks. If the other party to the transaction cannot complete the transaction, the RBC ETF may be left holding the collateral delivered by the other party to secure the transaction. In addition, the RBC ETF could lose money if the value of collateral held and cash received does not increase as much as the securities loaned. To minimize these risks, the other party must provide collateral that is worth at least 102% of the value of the RBC ETF's securities or cash and of the type permitted by the CSA. The value of the transactions and the collateral are monitored daily and the collateral adjusted appropriately by the securities lending agent of an RBC ETF.

An RBC ETF may not commit more than 50% of its net asset value to securities lending transactions at any time. Securities lending transactions may be ended at any time.

Risk of No Active Market for the Units

Although the Units of the RBC ETFs are listed on the TSX or the Neo Exchange, as applicable, there can be no assurance that an active public market for the Units will be sustained.

Cyber Security Risk

As the use of technology has become more prevalent in the course of business, mutual funds like the RBC ETFs have become potentially more susceptible to operational risks through breaches in cyber security. A breach in cyber security refers to both intentional and unintentional events that may cause an RBC ETF to lose proprietary information or other information subject to privacy laws, suffer data corruption, or lose operational capacity. This in turn could cause an RBC ETF to incur regulatory penalties, reputational damage, additional compliance costs associated with corrective measures and/or financial loss. Cyber security breaches may involve unauthorized access to an RBC ETF's digital information systems (e.g. through "hacking" or malicious software coding), but may also result from outside attacks such as denial-of-service attacks (i.e. efforts to make network services unavailable to intended users). In addition, cyber security breaches of an RBC ETF's third-party service providers (e.g. administrators, transfer agents, custodians and sub-advisors) or of issuers that an RBC ETF invests in can also subject an RBC ETF to many of the same risks associated with direct cyber security breaches. Like with operational risk in general, the RBC ETFs have established risk management systems designed to reduce the risks associated with cyber security. However, there is no guarantee that such efforts will succeed, especially since the RBC ETFs do not directly control the cyber security systems of issuers or third-party service providers.

Additional Risks Relating to an Investment in Certain RBC ETFs

In addition to the general risk factors applicable to all of the RBC ETFs set forth above, there are certain additional specific risk factors inherent in an investment in certain RBC ETFs, as indicated in the table below:

RISK FACTORS	TSX OR NEO EXCHANGE TICKER SYMBOLS, AS THE CASE MAY BE

Currency Hedging Risk

Each of the RBC Canadian Discount Bond ETF, RBC BlueBay Global Diversified Income (CAD Hedged) ETF, RBC Canadian Preferred Share ETF, RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF, RBC Quant U.S. Equity Leaders (CAD Hedged) ETF, RBC Quant European Dividend Leaders (CAD Hedged) ETF, RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF and RBC Quant EAFE Equity Leaders (CAD Hedged) ETF (for the purposes of this section, the “Funds” and each, a “Fund”) seeks to hedge its direct U.S. dollar or foreign currency exposure, as the case may be, to the Canadian dollar by entering into currency forward transactions with financial institutions that have a “designated rating” as defined in NI 81-102.

When a derivative is used as a hedge against a position that a Fund holds, any gain generated by the derivative generally should be substantially offset by losses on the hedged investment, and vice versa. While hedging can reduce or eliminate losses, it can also reduce or eliminate gains. Hedges are sometimes subject to imperfect matching between a derivative and its reference asset. For example, if a Fund’s currency hedge is reset on a monthly basis, based on the size of the Fund’s exposure to a currency at a certain point in time, the size of each currency hedge could be greater or less than the Fund’s total exposure in that currency intra-month and currency risk may develop or increase between resets. Furthermore, while the Funds are designed to hedge against currency fluctuations, it is possible that a degree of currency exposure may remain even at the time a hedging transaction is implemented. As a result, changes in currency exchange rates may affect a Fund’s returns even when the hedge works as intended. The effectiveness of a Fund’s currency hedging strategy will also generally be affected by both the volatility of the securities included in the Fund, and the volatility of the Canadian dollar relative to the currencies to be hedged. Increased volatility may reduce the effectiveness of the Fund’s currency hedging strategy and may impact the costs associated with hedging transactions. For those Funds that invest in Underlying Funds, there may be some deviation from the returns of the applicable Underlying Fund as a result of the costs, risks and other performance impacts of the Fund’s currency hedging strategy. The effectiveness of a Fund’s currency hedging strategy and the costs associated with hedging transactions may also in general be affected by interest rates. Significant differences between Canadian dollar interest rates and foreign currency interest rates may further impact the effectiveness of a Fund’s currency hedging strategy. There can be no assurance that a Fund’s hedging transactions will be effective. A Fund’s currency hedging activities will potentially increase taxable distributions to unitholders, or generate losses that may be used to reduce capital gains in subsequent years. The Funds will bear the costs associated with any such hedging transactions, regardless of any gain or loss experienced on the hedging transactions.

Currency Risk

Units of the RBC ETFs (other than the USD Units) are valued in Canadian dollars. However, RBC ETFs that purchase foreign securities may be required to pay for such securities using a foreign currency and receive a foreign currency when they sell them. Certain RBC ETFs may also purchase foreign currencies as investments. As a result, changes in the value of the Canadian dollar compared to foreign currencies will affect the value, in Canadian dollars, of any foreign securities or foreign currencies in an RBC ETF. For example, if the Canadian dollar rises relative to the U.S. dollar, an RBC ETF's U.S. holdings will be worth fewer Canadian dollars. This decline in value may reduce, or even eliminate, any return the RBC ETF has earned. Currency exposure may increase the volatility of foreign investments relative to Canadian investments.

Declining Yield Risk

The RBC Canadian Discount Bond ETF invests in bonds. As the bonds held by the RBC ETF mature, the RBC ETF's yield will generally tend to move toward the yield of cash and cash equivalents and thus may be lower than the yields of the bonds previously held by the RBC ETF and/or prevailing yields for bonds in the market.

Foreign Investment Risk

Foreign investments are affected by global economic factors. There is often less information available about foreign companies and many countries have less stringent accounting, auditing and reporting standards than we do in Canada. Some foreign stock markets have less trading volume, which may make it more difficult to sell an investment or make prices more volatile. Certain countries may also have foreign investment or exchange laws that make it difficult to sell an investment or may impose withholding or other taxes that could reduce the return on the investment. Different financial, political and social factors could hurt the value of foreign investments. As a result, RBC ETFs that specialize in foreign investments may experience larger and more frequent price changes in the short term.

Pursuant to U.S. tax rules, unitholders of certain RBC ETFs may be required to provide identity and residency information to the RBC ETF, which may be provided by the RBC ETF to U.S. tax authorities in order to avoid a U.S. withholding tax being imposed on U.S. and certain non-U.S. source income and proceeds of disposition received by the RBC ETFs or on certain amounts (including distributions) paid by the RBC ETFs to certain unitholders.

Fund of Funds Investment Risk

Certain RBC ETFs may invest directly in, or obtain exposure to, other ETFs, mutual funds, or public investment funds as part of their investment strategy and will be subject to the risks of the Underlying Funds. Additionally, if an Underlying Fund suspends redemptions, the affected RBC ETF may be unable to accurately value part of its investment portfolio and may be unable to redeem its Units.

Infrastructure Sector Risk

The RBC Quant Global Infrastructure Leaders ETF invests in infrastructure-related securities. Infrastructure-related businesses are subject to a variety of factors that may adversely affect their business or operations, including high interest costs in connection with capital construction programs, costs associated with environmental and other regulations, the effects of economic slowdown and surplus capacity, increased competition from other providers of services, uncertainties concerning the availability of fuel at reasonable prices, the effects of energy conservation policies and other factors. Additionally, infrastructure-related issuers may be subject to regulation by various governmental authorities and may also be affected by governmental regulation of rates charged to customers, service interruption and/or legal challenges due to environmental, operational or other mishaps and the imposition of special tariffs and changes in tax laws, regulatory policies and accounting standards. There is also the risk that corruption may negatively affect publicly-funded infrastructure projects, especially in emerging markets, resulting in delays and cost overruns.

The infrastructure industry also has some special features that cause certain risks to be more prevalent than in other industry sectors, including:

- (i) *Technology risk* – This risk arises where a change could occur in the way a service or product is delivered rendering the existing technology obsolete. While the risk could be considered low in the infrastructure sector given the massive fixed costs involved in constructing assets and the fact that many infrastructure technologies are well established, any technology change that occurs over the medium term could threaten the profitability of an infrastructure issuer. If such a change were to occur, these assets have very few alternative uses should they become obsolete.

- (ii) *Regional or geographic risk* – This risk arises where an infrastructure issuer’s assets are not moveable. Should an event that somehow impairs the performance of an infrastructure issuer’s assets occur in the geographic location where the issuer operates those assets, the performance of the issuer may be adversely affected.
- (iii) *Through-put risk* – The revenue of many infrastructure issuers may be impacted by the number of users who use the products or services produced by the infrastructure issuers’ assets. Any change in the number of users may negatively impact the profitability of the issuer.

Lack of Operating History

For RBC ETFs that are newly organized and have been trading for less than 12 months, there can be no assurance that an active public market for their Units will be developed or sustained. The RBC Canadian Discount Bond ETF is a newly organized exchange-traded fund with no previous operating history.

Preferred Shares Risk

Unlike interest payments on a debt security, there is generally no obligation to make dividend payments on preferred shares (even if such dividends have accrued), and the payment of dividends on preferred shares may be suspended at any time. In the event an issuer of preferred shares experiences economic difficulties, the issuer’s preferred shares may lose substantial value due to the reduced likelihood that a dividend will be declared and the fact that the preferred shares may be subordinated to other securities of the same issuer. In addition, the ability of the board of directors of an issuer to declare dividends (even if such dividends have accrued) on an outstanding preferred share issue may be constrained by restrictions imposed by such issuer’s lenders.

As many preferred shares allow holders to convert their holdings into common shares of the issuer, their market price can be sensitive to changes in the value of the issuer’s common shares. To the extent that an RBC ETF holds a convertible preferred share, declining common share values may also cause the value of the RBC ETF’s investments to decline.

From time to time, a lack of liquidity in the preferred share market may cause an RBC ETF to be unable to dispose of some or all of the preferred shares it wishes to sell, to experience a delay in the receipt of the proceeds of disposition until such time as it is able to dispose of such preferred shares or to be able to do so only at prices which, in the opinion of RBC GAM, may not reflect the true value of the preferred shares. Likewise, if certain preferred shares are not actively traded, RBC GAM may be unable to acquire the number of preferred shares it would like at a price acceptable to it on a timely basis. RBC GAM may from time to time in its sole discretion determine on any Trading Day or Trading Days that it will not accept subscription orders from dealers for Units of the RBC Canadian Preferred Share ETF in the event that portfolio securities for the fund are not readily available in the market at appropriate prices or in the event of illiquidity generally in the preferred share market.

Many issuers of preferred shares have a right to prepay or call their securities. If interest rates fall, the issuer of preferred shares with this right may call (or redeem) such preferred shares and replace them with a new preferred share issue at lower rates, conventional debt or perhaps even equity. If securities owned by an RBC ETF are prepaid, called or redeemed, the RBC ETF typically will be forced to reinvest proceeds at a time when yields on securities available in the market are lower than the yield on the security prepaid, called or redeemed. The RBC ETF may also lose any premium it paid on the security.

During periods of rising interest rates, an issuer may, if it has such rights, exercise its rights to pay the redemption amount on preferred shares later than expected. Under these circumstances, the value of the preferred shares will decrease causing the value of the RBC ETF’s investments to decline.

Real Estate Sector Risk

The RBC Quant Global Real Estate Leaders ETF invests in REITs and equity securities of real estate management and development companies. REITs generally are subject to certain risks related to their direct ownership of real estate. Real estate investments are affected by general economic conditions, local real estate markets, supply and demand for leased premises, competition from other available premises and various other factors. The value of real estate and any improvements thereto may also depend on the credit and financial stability of the tenants and upon the vacancy rates of the property portfolio. There are also certain types of risks relating to the ownership of real estate, generally of a catastrophic nature, such as wars or environmental contamination, which may be either uninsurable or not insurable on an economically viable basis. In addition, environmental laws may render a REIT liable for the costs of removal of certain hazardous substances and remediation of certain hazardous locations. Real estate ownership may also require certain significant expenditures, including property taxes, maintenance costs, mortgage payments, insurance costs and related charges regardless of whether the property is producing any income.

The assets, earnings and share values of companies involved in the real estate industry are influenced by a number of different factors, including economic cycles, inflation, the cost of capital available to real estate operating companies, the level of short- and long-term interest rates, the timing of increases in supply, consumer confidence, investor confidence in competing asset classes, demographic trends, the policies of various levels of government and the economic well-being of industries such as retail and tourism.

Reliance on the Sub-advisor

Certain RBC ETFs will be dependent on the ability of a Sub-advisor to effectively manage the RBC ETF in a manner consistent with the fund's investment objectives, strategies and restrictions. There is no certainty that the individuals who are responsible for providing sub-advisory services to the RBC ETF will continue to be employed by the applicable Sub-advisor.

Residency of the Sub-advisor

Each Sub-advisor is resident outside Canada and all or a substantial portion of its assets are located outside Canada. As a result, anyone seeking to enforce legal rights against it may find it difficult to do so.

Rules-Based Investment Strategy Risk

Some of the RBC ETFs and the Underlying Funds are managed using a rules-based investment process, an investment approach in which mathematical or statistical models are used as inputs for investment decisions. Rules-based investment strategies employ a disciplined approach to the use of statistical tools and models to select individual stocks. Although these are generally considered positive characteristics, they also introduce unique risks. The mathematical and statistical models that guide the disciplined stock selection are reliant on historical data. When markets behave in an unpredictable manner, rules-based models can generate unanticipated results that may impact the performance of an RBC ETF.

Significant Investor Risk

A significant portion of the Units of an RBC ETF may be held by a single investor, including by another RBC ETF. If a significant investor were to buy or sell a substantial portion of Units of an RBC ETF, the market value of those Units might temporarily decline or increase, as the case may be, resulting in the Units being bought or sold at a discount or premium to the Net Asset Value per Unit of the RBC ETF. However, given that unitholders and underwriters may exchange the Prescribed Number of Units of any RBC ETF at the Net Asset Value per Unit, RBC GAM believes that large discounts or premiums to the Net Asset Value per Unit of an RBC ETF are unlikely to be sustained. If a unitholder purchases Units of an RBC ETF at a time when the market price of a Unit is at a premium to the Net Asset Value per Unit or sells Units of an RBC ETF at a time when the market price of a Unit is at a discount to the Net Asset Value per Unit, the unitholder may sustain a loss.

USD Units Risk

A redeeming holder of USD Units will receive any cash amount to which the unitholder is entitled in connection with the redemption in U.S. dollars and will be exposed to the risk that the exchange rate between the U.S. dollar and any other currency in which the unitholder generally operates will result in a lesser or greater redemption amount than the unitholder would have received if the redemption amount had been calculated and delivered in another currency. In addition, because any cash redemption proceeds will be delivered in U.S. dollars, the redeeming unitholder may be required to open or maintain an account that can receive deposits of U.S. dollars. For those RBC ETFs which offer Units denominated in U.S. dollars, the ability to purchase USD Units is offered only as a convenience for investors and does not act as a currency hedge between the Canadian dollar and the U.S. dollar.

No Guarantee

Your investment in any of the RBC ETFs is not guaranteed by any entity, including Royal Bank. Unlike bank accounts or guaranteed investment certificates, your investment in an RBC ETF is not covered by the Canada Deposit Insurance Corporation or any other government deposit insurer.

Risk Ratings of the RBC ETFs

RBC GAM assigns a risk rating to each RBC ETF as an additional guide to help investors decide whether an RBC ETF is right for them. This information is only a guide. RBC GAM determines the risk rating for each RBC ETF in accordance with NI 81-102. The investment risk level of an RBC ETF is required to be determined in accordance with standardized risk classification methodology that is based on the historical volatility of the RBC ETF as measured by the 10-year standard deviation of the returns of the RBC ETF. Just as historical performance may not be indicative of future returns, an RBC ETF's historical volatility may not be indicative of its future volatility. Investors should be aware that other types of risk, both measurable and non-measurable, also exist.

Standard deviation is a statistical measure used to estimate the dispersion of a set of data around the average value of the data. In the context of investment returns, it measures the amount of variability of returns that has historically occurred relative to the average return. The higher the standard deviation, the greater the variability of returns it has experienced in the past.

Using this methodology, RBC GAM assigns a risk rating to each RBC ETF as either low, low to medium, medium, medium to high, or high risk.

- › Low – commonly associated with money market funds and Canadian fixed-income funds.
- › Low to medium – commonly associated with balanced, higher yielding fixed-income and asset allocation funds.
- › Medium – commonly associated with equity funds investing in large-capitalization companies in developed markets.
- › Medium to high – commonly associated with equity funds investing in small-capitalization companies or specific regions or sectors.
- › High – commonly associated with equity funds investing in narrow sectors or emerging market countries where there may be substantial risk of loss over short to medium periods.

An RBC ETF's risk rating is determined by calculating its standard deviation for the most recent 10 years using monthly returns and assuming the reinvestment of all income and capital gains distributions in additional Units of the RBC ETF. For those RBC ETFs that do not have at least 10 years of performance history, RBC GAM uses a reference index that reasonably approximates or, for a newly established fund, that is reasonably expected to approximate, the standard deviation of the RBC ETF (or in certain cases a highly similar fund managed by RBC GAM) as a proxy. There may be times when RBC GAM believes this methodology produces a result that does not reflect an RBC ETF's risk based on other qualitative factors. As a result, RBC GAM may place the RBC ETF in a higher risk rating category, as appropriate. RBC GAM will review the risk rating for each RBC ETF on an annual basis or if there has been a material change to an RBC ETF's investment objectives or investment strategies.

A copy of the methodology used by RBC GAM to identify the investment risk levels of the funds is available on request, at no cost, by calling 1-855-RBC-ETFs (722-3837). The risk ratings set forth in the table below do not necessarily correspond to an investor's risk tolerance assessment. Investors are advised to consult their financial advisor for advice regarding their personal circumstances.

LEGAL NAME OF RBC ETF	RISK RATING
RBC 6-10 Year Laddered Canadian Corporate Bond ETF	Low
RBC Canadian Discount Bond ETF	Low
RBC PH&N Short Term Canadian Bond ETF	Low
RBC Short Term U.S. Corporate Bond ETF	Low to medium

LEGAL NAME OF RBC ETF	RISK RATING
RBC Strategic Global Equity Leaders ETF	Medium
RBC Quant Global Infrastructure Leaders ETF	Low to medium
RBC Quant Global Real Estate Leaders ETF	Medium to high

The RBC 6-10 Year Laddered Canadian Corporate Bond ETF's risk classification is based on the fund's return and the return of the FTSE Canada Mid Term Overall Bond Index. The FTSE Canada Mid Term Overall Bond Index tracks the performance of the Canadian investment grade, fixed income market, including Government of Canada, provincial and corporate bonds with maturities ranging from five to ten years.

The RBC Canadian Discount Bond ETF's risk classification is based on the return of the FTSE Canada Short Term Overall Bond Index. The FTSE Canada Short Term Overall Bond Index is a market capitalization weighted index consisting of a broadly diversified portfolio which may include federal, provincial, corporate and municipal bonds issued by Canadian issuers. Bonds eligible for inclusion in the FTSE Canada Short Term Overall Bond Index are primarily public, investment-grade fixed income securities issued in Canada. The securities consist primarily of semi-annual pay fixed rate bonds with an investment grade rating and a remaining effective term to maturity of at least one year and no more than five years.

The RBC PH&N Short Term Canadian Bond ETF's risk classification is based on the fund's return and the return of the FTSE Canada Short Term Overall Bond Index. The FTSE Canada Short Term Overall Bond Index tracks the performance of the Canadian investment grade, fixed income market, including Government of Canada, provincial and corporate bonds with maturities ranging from one to five years.

The RBC Short Term U.S. Corporate Bond ETF's risk classification is based on the fund's return and the return of the Bloomberg Barclays Capital U.S. 1-5 Year Corporate Bond Index. The Bloomberg Barclays Capital U.S. 1-5 Year Corporate Bond Index tracks the performance of the short-term U.S. investment grade corporate bond market. The index includes publicly issued U.S. dollar denominated corporate issues that have a remaining maturity of greater than or equal to one year and less than five years. Index returns are shown in Canadian dollars.

The RBC BlueBay Global Diversified Income (CAD Hedged) ETF's risk classification is based on the fund's return and the return of a blended index composed of the Bloomberg Barclays Global Aggregate Corporate Bond Index (40%) hedged to the Canadian dollar, J.P. Morgan Emerging Markets Bond Index (EMBI) Global Diversified (35%) hedged to the Canadian dollar and Bank of America Merrill Lynch Global High Yield Constrained Index (25%) hedged to the Canadian dollar. The Bloomberg Barclays Global Aggregate Corporate Bond Index tracks the performance of investment grade fixed income securities issued by companies throughout the world. The J.P. Morgan Emerging Markets Bond Index (EMBI) Global Diversified tracks the performance of U.S. dollar denominated fixed income securities issued by emerging market sovereign and quasi-sovereign entities. The diversified index limits the exposure of some of the larger countries. The Bank of America Merrill Lynch Global High Yield Constrained Index tracks the performance of below investment grade fixed income securities issued by corporations throughout the world. The index limits the percentage represented by any single issuer in the index.

The RBC Canadian Preferred Share ETF's risk classification is based on the fund's return and the return of the Solactive Laddered Canadian Preferred Share Index and the S&P/TSX Preferred Share Index. The Solactive Laddered Canadian Preferred Share Index tracks the performance of preferred shares using a five-year laddered structure. The S&P/TSX Preferred Share Index tracks the performance of the Canadian preferred stock market.

The RBC Quant Canadian Dividend Leaders ETF's risk classification is based on the fund's return and the return of the S&P/TSX Capped Composite Total Return Index. The S&P/TSX Capped Composite Total Return Index tracks the performance of the Canadian equity market. The index imposes capped weights of 10% on all of the constituents in the S&P/TSX Composite Index.

The RBC Quant Canadian Equity Leaders ETF's risk classification is based on the fund's return and the return of the S&P/TSX Capped Composite Total Return Index. The S&P/TSX Capped Composite Total Return Index tracks the performance of the Canadian equity market. The index imposes capped weights of 10% on all of the constituents in the S&P/TSX Composite Index.

The RBC Quant U.S. Dividend Leaders ETF's risk classification is based on the fund's return and the return of the S&P 1500 Total Return Index. The S&P 1500 Total Return Index tracks the performance of the broad U.S. equity market. It includes all stocks in the S&P 500 Index, the S&P MidCap 400 Index and the S&P SmallCap 600 Index. This index covers 90% of the market capitalization of all U.S. stocks. Index returns are shown in Canadian dollars.

The RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF's risk classification is based on the fund's return and the return of the S&P 1500 Total Return Index hedged to the Canadian dollar. The S&P 1500 Total Return Index tracks the performance of the broad U.S. equity market. It includes all stocks in the S&P 500 Index, the S&P MidCap 400 Index and the S&P SmallCap 600 Index. This index covers 90% of the market capitalization of all U.S. stocks.

The RBC Quant U.S. Equity Leaders ETF's risk classification is based on the fund's return and the return of the S&P 500 Total Return Index. The S&P 500 Total Return Index tracks the performance of 500 U.S. large-capitalization stocks. Index returns are shown in Canadian dollars.

The RBC Quant U.S. Equity Leaders (CAD Hedged) ETF's risk classification is based on the fund's return and the return of the S&P 500 Total Return Index hedged to the Canadian dollar. The S&P 500 Total Return Index tracks the performance of 500 U.S. large-capitalization stocks.

The RBC Quant European Dividend Leaders ETF's risk classification is based on the fund's return and the return of the MSCI Europe Total Return Net Index. The MSCI Europe Total Return Net Index tracks the after-tax performance of large- and mid-capitalization equity securities of developed markets countries in Europe. Index returns are shown in Canadian dollars.

The RBC Quant European Dividend Leaders (CAD Hedged) ETF's risk classification is based on the fund's return and the return of the MSCI Europe Total Return Net Index hedged to the Canadian dollar. The MSCI Europe Total Return Net Index tracks the after-tax performance of large- and mid-capitalization equity securities of developed markets countries in Europe.

The RBC Quant EAFE Dividend Leaders ETF's risk classification is based on the fund's return and the return of the MSCI EAFE Total Return Net Index. The MSCI EAFE Total Return Net Index tracks the after-tax performance of large- and mid-capitalization equity securities of developed markets countries outside of the U.S. & Canada. Index returns are shown in Canadian dollars.

The RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF's risk classification is based on the fund's return and the return of the MSCI EAFE Total Return Net Index hedged to the Canadian dollar. The MSCI EAFE Total Return Net Index tracks the after-tax performance of large- and mid-capitalization equity securities of developed markets countries outside of the U.S. & Canada.

The RBC Quant EAFE Equity Leaders ETF's risk classification is based on the fund's return and the return of the MSCI EAFE Total Return Net Index. The MSCI EAFE Total Return Net Index tracks the after-tax performance of large- and mid-capitalization equity securities of developed markets countries outside of the U.S. & Canada. Index returns are shown in Canadian dollars.

The RBC Quant EAFE Equity Leaders (CAD Hedged) ETF's risk classification is based on the fund's return and the return of the MSCI EAFE Total Return Net Index hedged to the Canadian dollar. The MSCI EAFE Total Return Net Index tracks the after-tax performance of large- and mid-capitalization equity securities of developed markets countries outside of the U.S. & Canada.

The RBC Quant Emerging Markets Dividend Leaders ETF's risk classification is based on the fund's return and the return of the MSCI Emerging Markets Total Return Net Index. The MSCI Emerging Markets Total Return Net Index tracks the after-tax performance of large- and mid-capitalization equity securities in emerging markets countries. Index returns are shown in Canadian dollars.

The RBC Quant Emerging Markets Equity Leaders ETF's risk classification is based on the fund's return and the return of the MSCI Emerging Markets Total Return Net Index. The MSCI Emerging Markets Total Return Net Index tracks the after-tax performance of large- and mid-capitalization equity securities in emerging markets countries. Index returns are shown in Canadian dollars.

The RBC Strategic Global Dividend Leaders ETF's risk classification is based on the fund's return and the return of a blended index composed of the S&P 500 Total Return Index (36%), S&P/TSX Capped Composite Total Return Index (33%), MSCI EAFE Total Return Net Index (22%) and MSCI Emerging Markets Total Return Net Index (9%). The S&P 500 Total Return Index tracks the performance of 500 U.S. large-capitalization stocks. The S&P/TSX Capped Composite Total Return Index tracks the performance of the Canadian equity market. The index imposes capped weights of 10% on all of the constituents in the S&P/TSX Composite Index. The MSCI EAFE Total Return Net Index tracks the after-tax performance of large- and mid-capitalization equity securities of developed markets countries outside of the U.S. & Canada. The MSCI Emerging Markets Total Return Net Index tracks the after-tax performance of large- and mid-capitalization equity securities in emerging markets countries. Index returns are shown in Canadian dollars.

The RBC Strategic Global Equity Leaders ETF's risk classification is based on the fund's return and the return of a blended index composed of the S&P 500 Total Return Index (36%), S&P/TSX Capped Composite Total Return Index (33%), MSCI EAFE Total Return Net Index (22%) and MSCI Emerging Markets Total Return Net Index (9%). The S&P 500 Total Return Index tracks the performance of 500 U.S. large-capitalization stocks. The S&P/TSX Capped Composite Total Return Index tracks the performance of the Canadian equity market. The index

imposes capped weights of 10% on all of the constituents in the S&P/TSX Composite Index. The MSCI EAFE Total Return Net Index tracks the after-tax performance of large- and mid-capitalization equity securities of developed markets countries outside of the U.S. & Canada. The MSCI Emerging Markets Total Return Net Index tracks the after-tax performance of large- and mid-capitalization equity securities in emerging markets countries. Index returns are shown in Canadian dollars.

The RBC Quant Global Infrastructure Leaders ETF's risk classification is based on the fund's return and the return of the MSCI All Country World Infrastructure Total Return Net Index. The MSCI All Country World Infrastructure Total Return Net Index tracks the after-tax performance of large- and mid-cap companies that are owners or operators of infrastructure assets across developed market countries and emerging market countries around the world. Index returns are shown in Canadian dollars.

The RBC Quant Global Real Estate Leaders ETF's risk classification is based on the fund's return and the return of the MSCI All Country World Real Estate Index. The MSCI All Country World Real Estate Index tracks the performance of large- and mid-cap real estate segments across developed markets and emerging market countries around the world. Index returns are shown in Canadian dollars.

DISTRIBUTION POLICY

Cash distributions on Units of an RBC ETF will be made in the currency in which Units of the RBC ETF are denominated. Cash distributions on Units of the RBC 6-10 Year Laddered Canadian Corporate Bond ETF, the RBC Canadian Discount Bond ETF, the RBC PH&N Short Term Canadian Bond ETF, the RBC Short Term U.S. Corporate Bond ETF, the RBC BlueBay Global Diversified Income (CAD Hedged) ETF, the RBC Canadian Preferred Share ETF, the RBC Quant Dividend Leaders ETFs, the RBC Quant Global Infrastructure Leaders ETF and the RBC Quant Global Real Estate Leaders ETF are expected to be made monthly. Cash distributions on Units of the RBC Quant Equity Leaders ETFs are expected to be made quarterly. For purposes of the Tax Act, distributions on Units of the RBC ETFs are expected to consist primarily of dividend income and foreign investment income in respect of all of the RBC ETFs other than RBC 6-10 Year Laddered Canadian Corporate Bond ETF, RBC Canadian Discount Bond ETF, RBC PH&N Short Term Canadian Bond ETF, RBC Short Term U.S. Corporate Bond ETF and RBC BlueBay Global Diversified Income (CAD Hedged) ETF or ordinary income sourced from interest payments received or accrued by the RBC ETFs in respect of RBC 6-10 Year Laddered Canadian Corporate Bond ETF, RBC Canadian Discount Bond ETF, RBC PH&N Short Term Canadian Bond ETF, RBC Short Term U.S. Corporate Bond ETF and RBC BlueBay Global Diversified Income (CAD Hedged) ETF, but may also include net realized capital gains and returns of capital, in any case, less the expenses of the RBC ETF. To the extent that the expenses of an RBC ETF exceed the income generated by such RBC ETF in any given month or quarter, as applicable, a monthly or quarterly distribution, as applicable, may not be paid. RBC GAM may, in its complete discretion, change the frequency of these distributions. Any such change will be announced via press release.

For each taxation year, each RBC ETF will ensure that the net income and net realized capital gains of that RBC ETF have been distributed to such an extent that the RBC ETF will not be liable for ordinary income tax thereon. The tax treatment to unitholders of distributions is discussed under the heading "Income Tax Considerations – Taxation of Unitholders".

Reinvested Distributions

To the extent that an RBC ETF has not otherwise distributed the full amount of its net income or net capital gains in cash in any taxation year, the difference between such amount and the amount otherwise distributed by the RBC ETF in cash will be paid as a "reinvested distribution". Reinvested distributions will be automatically reinvested in additional Units of the applicable class of the RBC ETF at a price equal to the Net Asset Value per Unit of the applicable class of the RBC ETF and the Units of that class will be immediately consolidated such that the number of outstanding Units of the applicable class following the distribution will equal the number of Units of the applicable class outstanding prior to the distribution.

Unitholders that are not unitholders of record on the record date for any distribution will not be entitled to receive that distribution.

PURCHASE OF UNITS

Designated Brokers

RBC GAM, on behalf of each of the RBC ETFs, has entered into a Designated Broker Agreement with a Designated Broker pursuant to which the Designated Broker has agreed to perform certain duties relating to the RBC ETFs including, without limitation (i) subscribing for a sufficient number of Units to satisfy the TSX's or the Neo Exchange's, as the case may be, original listing requirements; (ii) subscribing for Units on an ongoing basis in connection with the rebalancing of assets held by the RBC ETFs and when cash redemptions of Units occur as described under "Exchange and Redemption of Units"; and (iii) posting a liquid two-way market for the trading of Units on the TSX or the Neo Exchange, as the case may be.

Authorized Dealers

RBC GAM, on behalf of each of the RBC ETFs, has entered into various Authorized Dealer Agreements with registered dealers (that may or may not be Designated Brokers) pursuant to which the Authorized Dealers may subscribe for Units of the RBC ETFs.

Issuance of Units

All orders to purchase Units directly from the RBC ETFs must be placed by Authorized Dealers or Designated Brokers. The RBC ETFs reserve the absolute right to reject any subscription order placed by an Authorized Dealer or Designated Broker.

No fees will be payable by an RBC ETF to an Authorized Dealer or Designated Broker in connection with the issuance of Units. On the issuance of Units, RBC GAM may, at its discretion, charge an administrative fee to an Authorized Dealer or Designated Broker to offset any expenses incurred in issuing the Units.

On any Trading Day, an Authorized Dealer or Designated Broker may place a subscription order in the form and at the location prescribed by the applicable RBC ETF from time to time for the Prescribed Number of Units or for an integral multiple of the Prescribed Number of Units of the RBC ETFs. The Prescribed Number of Units will be made available by RBC GAM on each Trading Day to Authorized Dealers and Designated Brokers. RBC GAM may, at its discretion, increase or decrease the Prescribed Number of Units from time to time.

If a subscription order is received by the applicable RBC ETF at or before 4:00 p.m. (Eastern Time) on a Trading Day (or such earlier time on such Trading Day as RBC GAM may set) and is accepted by that RBC ETF, the RBC ETF generally will issue to the Authorized Dealer or Designated Broker the Prescribed Number of Units (or an integral multiple thereof) within two Trading Days from the Trading Day of the subscription. The RBC ETFs must receive payment for the Units subscribed for within two Trading Days from the Trading Day of subscription.

Unless RBC GAM shall otherwise agree or the Master Declaration of Trust shall otherwise provide, as payment for a Prescribed Number of Units of any RBC ETF, an Authorized Dealer or Designated Broker must deliver subscription proceeds consisting of one Basket and cash in an amount sufficient such that the value of the Basket and cash delivered is equal to the Net Asset Value of the Prescribed Number of Units of the applicable RBC ETF next determined following the receipt of the subscription order.

RBC GAM may, in its complete discretion, instead accept subscription proceeds consisting of (i) cash only in an amount equal to the Net Asset Value of the Prescribed Number of Units of the applicable RBC ETF next determined following the receipt of the subscription order, plus (ii) if applicable, the Cash Creation Fee.

In any case in which a subscription order from an Authorized Dealer or Designated Broker is received by an RBC ETF on or after the date of declaration of a distribution by that RBC ETF payable in cash and before the ex-dividend date on the TSX or the Neo Exchange, as the case may be, for that distribution (generally, the second trading day prior to the record date or such other date where the purchaser becomes entitled to rights connected to the Units subscribed), an additional amount equal to the amount of cash per Unit of that distribution will be added to the Net Asset Value per Unit and will be delivered in cash to the RBC ETF in respect of each issued Unit.

In addition to the issuance of Units as described above, Units may also be issued by the RBC ETF to unitholders on the automatic reinvestment of distributions as described under "Distribution Policy" and "Income Tax Considerations – Taxation of the RBC ETFs".

Buying and Selling Units

As the Units are listed on the TSX or the Neo Exchange, as the case may be, investors may trade Units in the same way in which other securities listed on the TSX or the Neo Exchange, as the case may be, are traded, including by using market orders and limit orders. An investor may buy or sell Units on the TSX or the Neo Exchange, as the case may be, or any other exchange on which the RBC ETFs are traded only through a registered broker or dealer in the province or territory where the investor resides. Investors will incur customary brokerage commissions in buying or selling Units. No fees are paid by a unitholder to RBC GAM or the RBC ETFs in connection with the buying or selling of Units on the TSX, the Neo Exchange or other exchange.

Registration and Transfer through CDS

Units of the RBC ETFs may only be held through CDS. Unitholders in the RBC ETFs will not have the right to receive certificates for Units. CDS is the owner of record for all Units of each RBC ETF. Unitholders owning Units are beneficial owners as shown on the records of CDS or its participants. CDS participants include securities brokers and dealers, banks, trust companies and other institutions that directly or indirectly maintain a custodial relationship with CDS. The RBC ETFs allow unitholders to exchange or redeem Units, but in order to exercise this right, a unitholder must rely on the procedures of CDS and its participants. In addition, all other rights of an owner of Units must be exercised through, and all payments or other property to which such owner is entitled will be made or delivered by, CDS or the participant through which the owner holds such Units. Upon purchase of any Units, the owner will receive only the customary confirmation. References in this prospectus to a holder of Units mean, unless the context otherwise requires, the owner of the beneficial interest in such Units.

Neither the RBC ETFs nor RBC GAM will have any liability for: (i) records maintained by CDS relating to the beneficial interests in the Units or the book entry accounts maintained by CDS; (ii) maintaining, supervising or reviewing any records relating to such beneficial ownership interests; or (iii) any advice or representation made or given by CDS and made or given with respect to the rules and regulations of CDS or any action taken by CDS or at the direction of CDS participants.

The ability of a beneficial owner of Units to pledge such Units or otherwise take action with respect to such owner's interest in such Units (other than through a CDS participant) may be limited due to the lack of a physical certificate.

The RBC ETFs have the option to terminate registration of the Units through the book-entry only system or book-based system, in which case certificates for Units in fully registered form will be issued to beneficial owners of such Units or to their nominees.

Special Considerations for Unitholders

The RBC ETFs have obtained exemptive relief from certain provisions contained in securities legislation such that the so-called "early warning" requirements set out in Canadian securities legislation do not apply in connection with the acquisition of Units. In addition, based upon exemptive relief granted by Canadian securities regulatory authorities, a unitholder may acquire more than 20% of the Units of a class of any RBC ETF through purchases on the TSX or the Neo Exchange, as the case may be, without regard to the takeover bid requirements of applicable securities legislation, provided that such unitholder, as well as any person acting jointly or in concert with the unitholder, undertakes to RBC GAM not to vote more than 20% of the Units of a class of that RBC ETF.

Units of the RBC ETFs are "mark-to-market property" for purposes of the "mark-to-market" rules in the Tax Act. These rules require taxpayers that are financial institutions within the meaning of the rules to recognize annually on income account any accrued gains and losses on securities that are "mark-to-market property" within the meaning of the rules. See "Income Tax Considerations" and "Exemptions and Approvals".

EXCHANGE AND REDEMPTION OF UNITS

Exchange of Units at Net Asset Value per Unit for Baskets and Cash

Unitholders of the RBC ETFs may exchange the Prescribed Number of Units (or an integral multiple thereof) of any RBC ETF on any Trading Day for Baskets and cash. To effect an exchange of Units, a unitholder must submit an exchange request in the form and at the location prescribed by the applicable RBC ETF from time to time at or before 4:00 p.m. (Eastern Time) on a Trading Day (or such earlier time on such Trading Day as RBC GAM may set). The exchange price will be equal to the Net Asset Value of each Prescribed Number of Units tendered for redemption on the effective day of the exchange request, payable by delivery of Baskets (constituted as most recently published prior

to the receipt of the exchange request) and cash. The Units will be redeemed in the exchange. RBC GAM will make available to Authorized Dealers and Designated Brokers the Prescribed Number of Units and Basket for each RBC ETF following the close of business on each Trading Day and to others on request.

RBC GAM may, upon the request of a unitholder and the consent of RBC GAM, satisfy an exchange request by delivering cash only in an amount equal to the Net Asset Value of the Prescribed Number of Units of the applicable RBC ETF next determined following the receipt of the exchange request. However, RBC GAM will satisfy an exchange request only in cash if the unitholder agrees to pay the Cash Exchange Fee.

Unitholders should be aware that the Net Asset Value per Unit will decline on the ex-dividend date of any distribution payable in cash or Units. Unitholders that are not unitholders of record on the record date for any distribution will not be entitled to receive that distribution. However, unitholders exchanging Units on or after the date of declaration of any distribution payable in cash and before the ex-dividend date on the TSX or the Neo Exchange, as the case may be, for that distribution generally will receive an exchange price equal to the Net Asset Value of each Prescribed Number of Units tendered for redemption plus an amount per Unit equal to the amount of the distribution per Unit.

If an exchange request is not received by the cut-off times set out above, the exchange request will be effective only on the next Trading Day. Settlement of exchanges for Baskets and cash generally will be made by the second Trading Day after the effective day of the exchange request. See "Exemptions and Approvals".

If securities of any issuers in which an RBC ETF has invested are cease traded at any time by order of a securities regulatory authority, the delivery of the Baskets to a unitholder on an exchange in the Prescribed Number of Units may be postponed until such time as the transfer of the Baskets is permitted by law.

Redemption of Units for Cash

Unitholders may redeem Units of an RBC ETF for cash at a redemption price per Unit equal to 95% of the Net Asset Value of the Units on the effective day of the redemption. Unitholders will generally be able to sell (rather than redeem) Units at the full market price on the TSX or the Neo Exchange, as the case may be, through a registered broker or dealer subject only to customary brokerage commissions. Therefore, unitholders are advised to consult their brokers, dealers or investment advisors before redeeming their Units for cash. No fees or expenses are paid by a unitholder to RBC GAM or the RBC ETFs in connection with selling Units on the TSX or the Neo Exchange, as the case may be.

In order for a cash redemption to be effective on a Trading Day, a cash redemption request in the form and to the location prescribed by the applicable RBC ETF from time to time must be delivered to the RBC ETF by 9:00 a.m. (Eastern Time) on that day. If a cash redemption request is not received by 9:00 a.m. (Eastern Time) in such manner on a Trading Day, the cash redemption order will be effective only on the next Trading Day. The cash redemption request forms may be obtained from any registered broker or dealer.

Payment of the redemption price will generally be made by the second Trading Day after the effective day of the redemption. See "Exemptions and Approvals". Unitholders that have delivered a redemption request prior to the distribution record date for any distribution will not be entitled to receive that distribution. See "Exemptions and Approvals".

In connection with the redemption of Units, an RBC ETF will generally dispose of securities or other assets.

Requests for Exchange and Redemption

A unitholder submitting an exchange or redemption request is deemed to represent to the RBC ETF and RBC GAM that: (i) it has full legal authority to tender the Units for exchange or redemption and to receive the proceeds of the exchange or redemption; and (ii) the Units have not been loaned or pledged and are not the subject of a repurchase agreement, securities lending agreement or a similar arrangement that would preclude the delivery of the Units to the RBC ETF. RBC GAM reserves the right to verify these representations at its discretion. Generally, RBC GAM will require verification with respect to an exchange or redemption request if there are unusually high levels of exchange or redemption activity or short interest in the applicable RBC ETF. If the unitholder, upon receipt of a verification request, does not provide RBC GAM with satisfactory evidence of the truth of the representations, the unitholder's exchange or redemption request will not be considered to have been received in proper form and will be rejected.

Suspension of Exchange and Redemption

RBC GAM may suspend the redemption of Units or payment of redemption proceeds of an RBC ETF: (i) during any period when normal trading is suspended on an exchange or other market on which securities owned by the RBC ETF are listed and traded, if these securities represent more than 50% by value or underlying market exposure of the total assets of the RBC ETF, without allowance for liabilities, and if these securities are not traded on any other exchange that represents a reasonably practical alternative for the RBC ETF; or (ii) with the prior permission of the securities regulatory authorities for any period not exceeding 30 days during which RBC GAM determines that conditions exist that render impractical the sale of assets of the RBC ETF or that impair the ability of RBC IS to determine the value of the assets of the RBC ETF. The suspension may apply to all requests for redemption received prior to the suspension but as to which payment has not been made, as well as to all requests received while the suspension is in effect. All unitholders making such requests shall be advised by RBC GAM of the suspension and that the redemption will be effected at a price determined on the first valuation date following the termination of the suspension. All such unitholders shall have, and shall be advised that they have, the right to withdraw their requests for redemption. The suspension shall terminate in any event on the first day on which the condition giving rise to the suspension has ceased to exist, provided that no other condition under which a suspension is authorized then exists. To the extent not inconsistent with official rules and regulations promulgated by any government body having jurisdiction over the RBC ETFs, any declaration of suspension made by RBC GAM shall be conclusive.

Exchange and Redemption Fee

RBC GAM may charge to unitholders, at its discretion, an exchange or redemption fee of up to 0.05% of the exchange or redemption proceeds to offset certain transaction costs associated with the exchange or redemption of Units of the RBC ETFs.

Short-Term Trading

RBC GAM does not believe that it is necessary to impose any short-term trading restrictions on the RBC ETFs at this time as the RBC ETFs are exchange-traded funds that are primarily traded in the secondary market.

PRICE RANGE AND TRADING VOLUME OF UNITS

The following tables set forth the market price range and trading volume of the Units of the RBC ETFs on the TSX or the Neo Exchange, as the case may be, for the calendar periods indicated. The greatest volume of trading of the RBC ETFs generally occurs on the TSX or the Neo Exchange, as the case may be.

INCOME TAX CONSIDERATIONS

In the opinion of Osler, Hoskin & Harcourt LLP, the following is a summary of the principal Canadian federal income tax considerations under the Tax Act for the RBC ETFs and for a prospective investor in an RBC ETF that, for the purpose of the Tax Act at all relevant times, is an individual (other than a trust), is resident in Canada, holds Units of an RBC ETF as capital property, is not affiliated and deals at arm's length with the RBC ETF. This summary is based upon the current provisions of the Tax Act, all specific proposals to amend the Tax Act that have been publicly announced by the Minister of Finance (Canada) prior to the date hereof, and counsel's understanding of the current published administrative policies and assessing practices of the Canada Revenue Agency. This summary does not take into account or anticipate any other changes in law whether by legislative, administrative or judicial action and it does not take into account provincial, territorial or foreign income tax legislation or considerations, which may differ from the considerations described below.

This summary is of a general nature only and is not exhaustive of all possible income tax considerations. Prospective investors should therefore consult their own tax advisors about their individual circumstances.

This summary is also based on the assumptions that (i) none of the issuers of securities held by an RBC ETF will be a foreign affiliate of the RBC ETF or any unitholder, (ii) none of the securities held by an RBC ETF will be (a) a "tax shelter investment" within the meaning of section 143.2 of the Tax Act, (b) an interest in a non-resident trust other than an "exempt foreign trust" as defined in section 94 of the Tax Act, (c) an interest in a non-resident trust that is deemed to be a controlled foreign affiliate of the RBC ETF for the purposes of the Tax Act, or (d) an offshore investment fund property that would require the RBC ETF to include significant amounts in its income pursuant to section 94.1 of the Tax Act, (iii) no RBC ETF will enter into any arrangement where the result is a dividend rental arrangement for the purposes of the Tax Act, and (iv) no unitholder has entered or will enter into a "derivative forward agreement" within the meaning of subsection 248(1) of the Tax Act with respect to the Units or any Basket disposed of in exchange for Units.

Status of the RBC ETFs

This summary is based on the assumption that each of the RBC ETFs will comply at all material times with the conditions prescribed in the Tax Act and otherwise so as to qualify as a "mutual fund trust" as defined in the Tax Act. Counsel is advised that each of the RBC ETFs anticipates that it will qualify as a "mutual fund trust" under the Tax Act at all material times. If an RBC ETF does not qualify as a "mutual fund trust" under the Tax Act, the income tax consequences would differ materially from those described below.

If an RBC ETF is not a mutual fund trust under the Tax Act throughout a taxation year, the RBC ETF (i) may become liable for alternative minimum tax under the Tax Act in such year, (ii) would not be eligible for capital gains refunds under the Tax Act in such year, (iii) may be subject to the “mark-to-market” rules described below and (iv) may be subject to a special tax under Part XII.2 of the Tax Act in such year.

If an RBC ETF does not qualify as a mutual fund trust and more than 50% (calculated on a fair market value basis) of the Units of the RBC ETF are held by one or more unitholders that are considered to be “financial institutions” for the purposes of certain special mark-to-market rules in the Tax Act, then the RBC ETF itself will be treated as a financial institution under those special rules. Under those rules, the RBC ETF will be required to recognize at least annually on income account any gains and losses accruing on certain types of debt obligations and equity securities that it holds and also will be subject to special rules with respect to income inclusion on these securities. Any income arising from such treatment will be included in amounts to be distributed to unitholders. If more than 50% of the Units of the RBC ETF cease to be held by financial institutions, the tax year of the RBC ETF will be deemed to end immediately before that time and any gains or losses accrued before that time will be deemed realized by the RBC ETF and will be distributed to unitholders. A new taxation year for the RBC ETF will then begin and for that and subsequent taxation years, for so long as not more than 50% of the Units of the RBC ETF are held by financial institutions, the RBC ETF will not be subject to these special mark-to-market rules. Initially, following the creation of an RBC ETF, a subsidiary of Royal Bank and/or other financial institutions will hold all the outstanding Units of the RBC ETF. As a result, each RBC ETF that does not qualify as a mutual fund trust will be subject to these special “mark-to-market” rules for so long as more than 50% of the Units of the RBC ETF are held by one or more financial institutions.

Provided that the Units of an RBC ETF are and continue to be listed on a “designated stock exchange” within the meaning of the Tax Act, which includes the TSX or the Neo Exchange, as the case may be, or that the RBC ETF qualifies and continues to qualify as a mutual fund trust under the Tax Act or is a registered investment under the Tax Act, the Units of the RBC ETF will be a qualified investment under the Tax Act for Registered Plans. In the opinion of counsel, the Units will qualify as “marketable securities” as that term is used in the Tax Act provided that the Units are and continue to be listed on the TSX or the Neo Exchange, as the case may be. Any RBC ETF that is a “registered investment” under the Tax Act does not intend to make any investment which would result in it becoming subject to tax under Part X.2 of the Tax Act.

Notwithstanding the foregoing, if Units of an RBC ETF are a “prohibited investment” for a tax-free savings account (“TFSA”), registered retirement savings plan (“RRSP”), registered retirement income fund (“RRIF”), registered disability savings plan (“RDSP”) or registered education savings plan (“RESP”) that acquires such Units, the holder of the TFSA or RDSP, subscriber of the RESP or annuitant of the RRSP or RRIF (any such holder, subscriber or annuitant, a “controlling individual”) will be subject to a penalty tax as set out in the Tax Act. A “prohibited investment” includes a unit of a trust that does not deal at arm’s length with the controlling individual or in which the controlling individual has a significant interest, which generally means the ownership of 10% or more of the value of the trust’s outstanding units by the controlling individual, either alone or together with persons and partnerships with whom the controlling individual does not deal at arm’s length. However, the Units of an RBC ETF will not be prohibited investments for any TFSA, RRSP, RESP, RDSP or RRIF at any time during the first 24 months after the RBC ETF was established, provided that the RBC ETF substantially complies with NI 81-102 during such time. In addition, Units of an RBC ETF will not be a “prohibited investment” if the Units are otherwise “excluded property” as defined in the Tax Act for this purpose for TFSAs, RDSPs, RESPs, RRSPs and RRIFs. Generally, Units of an RBC ETF will be “excluded property” for a TFSA, RDSP, RESP, RRSP or RRIF if at the relevant time, (i) at least 90% of the value of all Units of the RBC ETF is owned by persons dealing at arm’s length with the controlling individual; (ii) the controlling individual deals at arm’s length with the RBC ETF; and (iii) certain other criteria set forth in the Tax Act are met. Holders of TFSAs or RDSPs, subscribers of RESPs and annuitants under RRSPs and RRIFs should consult with their tax advisors regarding whether Units of an RBC ETF would be a prohibited investment for such accounts or plans in their particular circumstances.

In the case of an exchange of Units of any RBC ETF for a Basket, a unitholder may receive securities. The securities received by a unitholder as a result of an exchange of Units may or may not be qualified investments for Registered Plans. Unitholders should consult their own tax counsel for advice on whether or not such securities would be qualified investments for Registered Plans.

At the date hereof, the assets of a pension plan may be invested in Units provided that the assets of such pension plan are invested in accordance with the applicable regulations, investment criteria and statement of investment policies and procedures established for such pension plan.

Taxation of the RBC ETFs

In computing its income, an RBC ETF will include taxable distributions received and considered to be received on securities held by it and the taxable portion of capital gains realized by the RBC ETF on the disposition of securities held by it. The Master Declaration of Trust governing the RBC ETFs requires that each RBC ETF distribute its net income and net realized capital gains, if any, for each taxation year of the RBC ETF to unitholders to such an extent that the RBC ETF will not be liable in any taxation year for ordinary income tax (after taking into account any applicable losses of the RBC ETF and the capital gains refunds to which the RBC ETF is entitled). If in a taxation year the income for tax purposes of an RBC ETF exceeds the cash available for distribution by the RBC ETF, the RBC ETF will distribute all or a portion of its income through a payment of reinvested distributions.

The Master Declaration of Trust governing the RBC ETFs permits an RBC ETF that realizes income or capital gains as a result of a transfer or disposition of its property undertaken to permit an exchange or redemption of Units by a unitholder to designate and treat for income tax purposes all or a portion of the amount paid to the unitholder on the redemption or exchange as a distribution to the unitholder out of such income or capital gains rather than being treated as proceeds of disposition of the Units. However, legislative proposals released by the Minister of Finance (Canada) on July 30, 2019 proposed amendments to the Tax Act that would, (a) effective for taxation years of an RBC ETF beginning on or after March 19, 2019, deny an RBC ETF a deduction for any income of the RBC ETF designated to a unitholder on a redemption or exchange of Units, where the unitholder's proceeds of disposition are reduced by the designation and (b) effective for taxation years of an RBC ETF beginning on or after March 19, 2020, deny an RBC ETF a deduction for the portion of a capital gain designated to a unitholder on a redemption or exchange of Units that is greater than the unitholder's accrued gain on those Units, where the unitholders' proceeds of disposition are reduced by the designation. If such proposed amendments to the Tax Act are enacted in their current form, any amounts that would otherwise have been designated to redeeming/exchanging unitholders may be made payable to the remaining, non-redeeming/exchanging unitholders to ensure an RBC ETF will not be liable for non-refundable income tax thereon. Accordingly, the amounts of taxable distributions made to unitholders of an RBC ETF may be greater than they would have been in the absence of such amendments.

An RBC ETF will include in computing its income for a taxation year any interest (or amount that is considered to be interest for the purposes of the Tax Act) that accrues or is deemed to accrue to the RBC ETF to the end of the year, or becomes receivable or is received by the RBC ETF before the end of the year, to the extent that such interest (or amount considered to be interest) was not included in computing the RBC ETF's income for a preceding taxation year.

Losses incurred by an RBC ETF cannot be allocated to unitholders but may be carried forward and deducted by such RBC ETF in future years. The RBC ETFs are subject to the suspended loss rules contained in the Tax Act. A loss realized on a disposition of capital property is considered to be a suspended loss when an RBC ETF acquires a property (a "**substituted property**") that is the same or identical to the property sold, within 30 days before and 30 days after the disposition and the RBC ETF, or a person affiliated with the RBC ETF, owns the substituted property 30 days after the original disposition. If a loss is suspended, the applicable RBC ETF cannot deduct the loss from the RBC ETF's capital gains until the substituted property is sold and is not reacquired by the RBC ETF, or a person affiliated with the RBC ETF, within 30 days before and after the sale, which may increase the amount of net realized capital gains of the RBC ETF to be made payable to its unitholders.

Each RBC ETF is required to compute its income and gains for tax purposes in Canadian dollars and may therefore realize foreign exchange gains or losses in respect of investments that are not Canadian dollar denominated. Such foreign exchange gains and losses may be taken into account in computing its income for tax purposes, although in some cases such gains or losses may be offset by hedging transactions.

An RBC ETF may derive income or gains from investments in the United States and other foreign countries and, as a result, may be liable to pay tax to such countries. Such an RBC ETF may designate a portion of its foreign source income in respect of a unitholder so that such income and a portion of the foreign tax paid or considered to be paid by the RBC ETF may be regarded as foreign source income of, and foreign tax paid by, the unitholder for the purposes of the foreign tax credit provisions of the Tax Act.

If appropriate designations are made by an Underlying Fund, real estate investment trust or income trust ("**underlying trusts**") in which an RBC ETF invests, the nature of distributions from the underlying trust that are derived from taxable dividends received from taxable Canadian corporations (including eligible dividends), foreign source income and capital gains will be preserved in the hands of the RBC ETF that receives the distributions for the purpose of computing its income and making designations with respect to its own distributions to its unitholders. An RBC ETF may also receive distributions of ordinary income from the underlying trusts. The nature of such amounts received by an RBC ETF may be reflected in distributions from that RBC ETF to its unitholders.

RBC ETFs Holding Derivative Securities

Generally, each RBC ETF holding derivatives as a substitute for direct investment will include gains and deduct losses on income account in connection with its derivative activities and will recognize such gains or losses for tax purposes at the time they are realized by the RBC ETF. Subject to the derivative forward agreement rules discussed below, where an RBC ETF uses derivatives to hedge foreign currency exposure with respect to securities held on capital account and the derivatives are sufficiently linked to such securities, gains or losses realized on such derivatives will be treated as capital gains or losses.

Under the derivative forward agreement rules in the Tax Act, the return on any derivative entered into by an RBC ETF that is a “derivative forward agreement” within the meaning of the Tax Act will be taxed as ordinary income rather than capital gains. The derivative forward agreement rules in the Tax Act will generally not apply to a derivative entered into by an RBC ETF in order to closely hedge gains or losses due to currency fluctuations on underlying capital investments of the RBC ETF.

Taxation of Unitholders

Distributions

A unitholder will be required to include in the unitholder’s income for tax purposes for any year the amount (computed in Canadian dollars) of net income and net taxable capital gains of the RBC ETF, if any, paid or payable to the unitholder in the year and deducted by the RBC ETF in computing its income, whether or not such amounts are reinvested in additional Units, including in the case of unitholders who receive Management Fee Distributions to the extent they are paid out of net income and net taxable capital gains of the RBC ETFs.

The non-taxable portion of any net realized capital gains of an RBC ETF that is paid or payable to a unitholder in a taxation year will not be included in computing the unitholder’s income for the year and, provided appropriate designations are made by the RBC ETF, will not reduce the adjusted cost base of the unitholder’s Units of that RBC ETF. Any other non-taxable distribution, such as a return of capital, will reduce the unitholder’s adjusted cost base. To the extent that a unitholder’s adjusted cost base would otherwise be a negative amount, the negative amount will be deemed to be a capital gain realized by the unitholder and the unitholder’s adjusted cost base will be nil immediately thereafter.

Each RBC ETF will designate to the extent permitted by the Tax Act the portion of the net income distributed to unitholders as may reasonably be considered to consist of, respectively, (i) taxable dividends (including eligible dividends) received or considered to be received by the RBC ETF on shares of taxable Canadian corporations and (ii) net taxable capital gains, if any, realized or considered to be realized by the RBC ETF. Any such designated amount will be deemed for tax purposes to be received or realized by unitholders in the year as a taxable dividend (including an eligible dividend) and as a taxable capital gain, respectively. The dividend gross-up and tax credit treatment normally applicable to taxable dividends paid to an individual by a taxable Canadian corporation (including the enhanced gross-up and dividend tax credit applicable to dividends designated by the paying corporation as eligible dividends in accordance with the provisions of the Tax Act) will apply to amounts designated by the applicable RBC ETF as such taxable dividends (or as such eligible dividends). Capital gains so designated will be subject to the general rules relating to the taxation of capital gains described below. In addition, each RBC ETF will similarly make designations in respect of its income from foreign sources, if any, so that, for the purpose of computing any foreign tax credit that may be available to a unitholder, the unitholder will generally be deemed to have paid as tax to the government of a foreign country that portion of the taxes paid or considered to be paid by the RBC ETF to that country that is equal to the unitholder’s share of the RBC ETF’s income from sources in that country. Any loss of an RBC ETF for purposes of the Tax Act cannot be allocated to, and cannot be treated as a loss of, the unitholders of such RBC ETF.

Composition of Distributions

Unitholders will be informed each year of the composition of the amounts distributed to them, including amounts in respect of both cash and reinvested distributions. This information will indicate whether distributions are to be treated as ordinary income, taxable dividends (including eligible dividends or dividends other than eligible dividends), capital gains, non-taxable amounts or foreign source income, and whether foreign tax has been paid for which the unitholder might be able to claim a foreign tax credit, where those items are applicable.

Tax Implications of the RBC ETFs’ Distribution Policy

When a unitholder acquires Units in an RBC ETF, a portion of the price paid may reflect income and realized capital gains of the RBC ETF that have not been distributed, and accrued capital gains that have not been realized, by the RBC ETF. This may particularly be the case near year-end before year-end distributions have been made. When and if such income and realized capital gains are distributed by the

RBC ETF, and when and if such accrued capital gains are realized and distributed, such income and gains must be taken into account by the unitholder in computing its income for tax purposes even though such amounts may have been reflected in the price paid by the unitholder. If the amounts of such distributions are reinvested in additional Units of the RBC ETF, the amounts will be added to the unitholder's adjusted cost base of its Units.

Capital Gains

Upon the actual or deemed disposition of a Unit, including the exchange or redemption of a Unit, a capital gain (or a capital loss) will generally be realized by the unitholder to the extent that the proceeds of disposition of the Unit exceed (or are exceeded by) the aggregate of the adjusted cost base to the unitholder of the Unit and any reasonable costs of disposition. For USD Units, proceeds of disposition and each component of adjusted cost base are calculated in Canadian dollars based on the currency exchange rate at the time of the particular transaction. The adjusted cost base of Units held by a unitholder must be calculated separately for Units of each RBC ETF held by the unitholder. In general, the adjusted cost base of all Units of a particular RBC ETF held by the unitholder is the total amount paid for Units of that RBC ETF (including brokerage commissions paid and the amount of reinvested distributions), regardless of when the investor bought them, less any non-taxable distributions (other than the non-taxable portion of capital gains, the taxable portion of which was designated as a taxable capital gain by the RBC ETF) such as a return of capital and less the adjusted cost base of any Units of that RBC ETF previously sold or redeemed/exchanged by the unitholder. For the purpose of determining the adjusted cost base of Units of an RBC ETF to a unitholder, when Units of the RBC ETF are acquired, the cost of the newly acquired Units will be averaged with the adjusted cost base of all Units of that RBC ETF owned by the unitholder as capital property immediately before that time.

If an RBC ETF realizes income or capital gains as a result of a transfer or disposition of its property undertaken to permit an exchange or redemption of Units by a unitholder, all or a portion of the amount received by the unitholder may be designated and treated for income tax purposes as a distribution to the unitholder out of such income or capital gains rather than being treated as proceeds of disposition of the Units.

Where Units of an RBC ETF are exchanged by the redeeming unitholder for Baskets, the proceeds of disposition to the unitholder of the Units will be equal to the fair market value of the Baskets so received, plus the amount of any cash received on the exchange, and less any capital gain or income realized by the RBC ETF as a result of the transfer of those Baskets which has been designated by the RBC ETF to the unitholder. The cost for tax purposes of securities acquired by a redeeming unitholder on the exchange or redemption of Units of the RBC ETF for Baskets will generally be the fair market value of such securities at that time. Where, on an exchange of Units for Baskets, a unitholder receives a bond on which interest has accrued but is not payable at the time of the exchange, the unitholder will generally include such interest in income in accordance with the Tax Act, but will be entitled to offset such amount by a deduction for such accrued interest. The unitholder's adjusted cost base for tax purposes of the bond will be reduced by such amount of accrued interest.

One half of any capital gain realized by a unitholder and the amount of any net taxable capital gains realized or considered to be realized by an RBC ETF and designated by the RBC ETF in respect of a unitholder will be included in the unitholder's income as a taxable capital gain. One half of a capital loss realized by a unitholder will be an allowable capital loss that will be deducted from taxable capital gains subject to and in accordance with detailed rules in the Tax Act.

In general terms, the following items will be taken into account in calculating the liability, if any, for alternative minimum tax of a unitholder, who is an individual: (a) net income of the RBC ETF that is paid or payable to the unitholder and is designated as eligible dividends or net realized taxable capital gains, and (b) taxable capital gains that are realized on the disposition of Units by the unitholder.

Where a unitholder holds USD Units, any capital gain or capital loss for tax purposes on a disposition of such USD Units will be determined by converting the U.S. dollar cost and proceeds of disposition into Canadian dollars using the applicable rate of exchange on the date of acquisition and disposition, respectively.

Taxation of Registered Plans

In general, the amount of a distribution paid or payable to a Registered Plan from an RBC ETF and gains realized by a Registered Plan on a disposition of a Unit will not be taxable under the Tax Act. As is the case for all investments held in Registered Plans, amounts withdrawn from a Registered Plan (other than from a tax-free savings account or a return of contributions from a registered education savings plan or certain withdrawals from a registered disability savings plan) will generally be subject to tax.

INTERNATIONAL INFORMATION REPORTING

The RBC ETFs are required to comply with due diligence and reporting obligations imposed under amendments to the Tax Act that implemented the Canada-United States Enhanced Tax Information Exchange Agreement. As long as Units of an RBC ETF continue to be registered in the name of CDS, the RBC ETF should not have any U.S. reportable accounts and, as a result, should not be required to provide information to the Canada Revenue Agency in respect of its unitholders. However, dealers through which unitholders hold their Units are subject to due diligence and reporting obligations with respect to financial accounts they maintain for their clients. Unitholders (and, if applicable, the controlling person(s) of a unitholder) may be requested to provide information to their dealer to identify U.S. persons holding Units. If a unitholder, or its controlling person(s), is a "Specified U.S. Person" (including a U.S. citizen who is a resident of Canada) or if a unitholder does not provide the requested information, Part XVIII of the Tax Act will generally require information about the unitholder's investments held in the financial account maintained by the dealer to be reported to the Canada Revenue Agency, unless the investments are held within a Registered Plan. The Canada Revenue Agency will then provide that information to the U.S. Internal Revenue Service.

In addition, reporting obligations in the Tax Act have been enacted to implement the Organization for Economic Co-operation and Development Common Reporting Standard (the "CRS Rules"). Pursuant to the CRS Rules, Canadian financial institutions are required to have procedures in place to identify accounts held by tax residents of foreign countries other than the U.S. ("Reportable Jurisdictions") or by certain entities any of whose "controlling persons" are tax residents of Reportable Jurisdictions. The CRS Rules provide that Canadian financial institutions must report certain account information and other personal identifying details of unitholders (and, if applicable, of the controlling persons of such unitholders) who are tax residents of Reportable Jurisdictions to the Canada Revenue Agency annually. Such information would generally be exchanged on a reciprocal, bilateral basis with Reportable Jurisdictions in which the account holders or such controlling persons are resident under the provisions and safeguards of the Multilateral Convention on Mutual Administrative Assistance in Tax Matters or the relevant bilateral tax treaty. Under the CRS Rules, unitholders will be required to provide such information regarding their investment in the RBC ETFs to their dealer for the purpose of such information exchange, unless the investment is held within a Registered Plan.

ORGANIZATION AND MANAGEMENT DETAILS OF THE RBC ETFs

Manager, Trustee and Portfolio Manager of the RBC ETFs

RBC GAM is the manager, trustee and portfolio manager of the RBC ETFs and is responsible for the operations of the RBC ETFs, including the management of the RBC ETFs' investment portfolios and the valuation of each RBC ETF's assets. RBC GAM is the primary investment manager for the RBC® businesses serving the needs of private clients, including the RBC ETFs. RBC GAM is entitled to a management fee for acting as manager, trustee and portfolio manager of the RBC ETFs as described under "Fees and Expenses". RBC GAM may resign as trustee and manager of any of the RBC ETFs by giving not less than 60 days' prior written notice to unitholders of that RBC ETF and may resign as portfolio manager of any of the RBC ETFs in accordance with applicable law. RBC GAM may appoint a successor trustee, but if no such successor trustee is appointed within 30 days of RBC GAM's resignation, the applicable RBC ETF will be terminated and its net assets distributed to unitholders.

The head office address of RBC GAM is 155 Wellington Street West, Suite 2200, Toronto, Ontario M5V 3K7.

RBC GAM will make available on its website, www.rbcgam.com/etfs, daily or more frequently, the following information for each RBC ETF:

- › Net Asset Value;
- › Net Asset Value per Unit; and
- › Units outstanding.

Duties and Services Provided by the Manager of the RBC ETFs

Pursuant to the Master Declaration of Trust, RBC GAM is responsible for providing managerial, administrative and compliance services to the RBC ETFs, including purchasing and selling portfolio securities on behalf of the RBC ETFs, and providing or arranging for required services to the RBC ETFs including, without limitation:

- (a) authorizing the payment of fees, expenses or disbursements incurred on behalf of the RBC ETFs that are the responsibility of the RBC ETFs;
- (b) preparing reports to unitholders and the securities regulatory authorities, including interim and annual MRFPs and financial statements;

- (c) determining the amount of distributions to be made by the RBC ETFs; and
- (d) negotiating contractual agreements with service providers, including the Sub-advisors, Designated Brokers, Authorized Dealers, custodian and valuation agent, registrar and transfer agent and auditor.

Executive Officers and Directors of the Manager of the RBC ETFs

The following are the names, municipalities of residence, offices and principal occupations of the directors and executive officers of RBC GAM:

NAME	MUNICIPALITY OF RESIDENCE	POSITION AND OFFICE HELD WITH RBC GAM	CURRENT PRINCIPAL OCCUPATION
Sandra Aversa	Toronto, Ontario	Director	Senior Vice President, Wealth Management, Insurance and I&TS Finance, Royal Bank
Wayne Bossert	Oakville, Ontario	Director	Deputy Chair and Head of Global Ultra-High Net Worth Clients and Canadian Private Banking, Royal Bank
Daniel E. Chornous	Toronto, Ontario	Director and Chief Investment Officer	Chief Investment Officer, RBC GAM
Douglas Coulter	Toronto, Ontario	Director and President, Retail	President, Retail, RBC GAM
Steve Gabor	Vancouver, British Columbia	Chief Financial Officer, RBC GAM	Chief Financial Officer, RBC GAM
Lisa Goetz	Toronto, Ontario	Assistant Corporate Secretary	Subsidiary Governance Officer, Subsidiary Governance Office, Royal Bank
Matthew D. Graham	Toronto, Ontario	Chief Operating Officer	Chief Operating Officer, RBC GAM
Douglas A. Guzman	Toronto, Ontario	Director and Chairman	Group Head, Wealth Management, Insurance & Investor and Treasury Services, Royal Bank
Heidi Johnston	Squamish, British Columbia	Chief Financial Officer, RBC GAM Funds	Chief Financial Officer, RBC GAM Funds, RBC GAM
Daniela Moretti	Toronto, Ontario	Corporate Secretary	Senior Counsel, Subsidiary Governance Office, Royal Bank
Lawrence A.W. Neilsen	Vancouver, British Columbia	Chief Compliance Officer	Global Head of Compliance, RBC Global Asset Management
Chandra Stempien	Toronto, Ontario	Director	Vice President, Stress Testing & Credit Analysis and Measurement, Royal Bank
Damon G. Williams	Toronto, Ontario	Director, Chief Executive Officer and Ultimate Designated Person	Chief Executive Officer, RBC GAM

Each of the people listed above has held his or her current position with RBC GAM or one of RBC GAM's predecessor amalgamating entities, RBC Asset Management Inc. and/or Phillips, Hager & North Investment Management Ltd., and his or her principal occupation during the five years preceding the date hereof, except for Sandra Aversa, who from December 2019 is Senior Vice President, Wealth Management, Insurance and I&TS Finance, Royal Bank and from February 2019 to December 2019 was Vice President, Wealth Management Finance, Royal Bank, from April 2018 to January 2019 was Vice President and Lead, Finance Enterprise Initiatives, Bank of Montreal, from May 2017

to April 2018 was Vice President and Head, Financial Performance Management, Bank of Montreal, from November 2016 to April 2017 was Managing Director and Lead Financial Officer, BMO Wealth Management, from April 2015 to November 2016 was Director and Lead Financial Officer, Nesbitt Private Client Division and from January 2013 to April 2015 was Director, Statutory, Management and Regulatory Reporting and Accounting Operations, Bank of Montreal, Wayne Bossert, who from June 2010 to February 2015 was Executive Vice President Sales, Canadian Banking, Royal Bank, Steve Gabor, who prior to December 2017 was Acting Chief Financial Officer, RBC GAM and prior to July 2017 was Vice President, RBC GAM, Lisa Goetz, who from June 2018 is Assistant Corporate Secretary, RBC GAM and from April 2018 is Subsidiary Governance Officer, Subsidiary Governance Office, Royal Bank and holds various positions with other Royal Bank affiliates, from July 2017 to April 2018 was Senior Manager, Corporate Secretariat, Royal Bank, from November 2015 to July 2017 was Manager, Corporate Secretariat, Royal Bank and from May 2007 to November 2015 was Law Clerk, Wind Mobile / Globalive Communications, Matthew D. Graham, who from September 2015 to June 2017 was Chief Operating Officer, International, RBC Global Asset Management (UK) Limited and from June 2009 to September 2015 was Vice President Institutional Strategy, RBC GAM, Douglas A. Guzman, who from September 2006 is Managing Director, RBC Dominion Securities Inc. and from September 2008 to November 2015 was Head of Global Investment Banking, RBC Dominion Securities Inc., Heidi Johnston, who prior to December 2017 was Acting Chief Financial Officer, RBC GAM Funds and prior to July 2017 was Vice President, RBC GAM, Daniela Moretti, who from March 2018 is Corporate Secretary, RBC GAM and holds various positions with other Royal Bank affiliates, and also serves as Senior Counsel in the Royal Bank Subsidiary Governance Office, and as Assistant Secretary for Royal Bank, and prior to September 2017 was Senior Counsel and Assistant Secretary, Royal Bank, Chandra Stempien, who prior to November 2018 was Vice President, Global Head of Counterparty Credit Risk, Royal Bank, from January 2016 to 2018 was Managing Director and Head Counterparty Credit Risk, Royal Bank, from November 2013 to December 2015 was Head of Market, Operational and Trading Credit Risk – Asia Pacific, Royal Bank and Damon G. Williams, who from November 2010 to April 2015 was President, Institutional, RBC GAM.

The RBC ETFs do not have directors or officers. RBC GAM, in its capacity as trustee of the RBC ETFs, is not entitled to any remuneration. RBC GAM, in its capacity as manager of the RBC ETFs, is entitled to receive a management fee set out under “Fees and Expenses – Fees and Expenses Payable by the RBC ETFs – Management Fee”.

Conflicts of Interest

RBC GAM, on behalf of each of the RBC ETFs, has entered into a Designated Broker Agreement with a Designated Broker pursuant to which the Designated Broker has agreed to perform certain duties relating to the RBC ETFs including, without limitation: (i) to subscribe for a sufficient number of Units to satisfy the TSX’s or the Neo Exchange’s original listing requirements, as the case may be; (ii) to subscribe for Units on an ongoing basis in connection with the rebalancing of and adjustments to the portfolio of an RBC ETF and when cash redemptions of Units occur; and (iii) to post a liquid two-way market for the trading of Units on the TSX or the Neo Exchange, as the case may be. RBC Dominion Securities Inc., an affiliate of RBC GAM, has agreed to act as a Designated Broker for the RBC ETFs (other than RBC Canadian Discount Bond ETF) and Authorized Dealer for the RBC ETFs.

The directors and officers of RBC GAM may be directors, officers, shareholders or unitholders of one or more issuers from which the RBC ETFs may acquire securities. RBC GAM and its affiliates may be managers or portfolio managers of one or more issuers from which the RBC ETFs may acquire securities and may be managers or portfolio managers of funds that invest in the same securities as the RBC ETFs. Such transactions will only be undertaken upon obtaining any required regulatory approvals.

In addition to being a director of RBC GAM, each of Daniel E. Chornous, Damon G. Williams and Douglas A. Guzman is a non-executive director of BlueBay AM and Damon G. Williams is a director of RBC GAM (US). RBC GAM has established appropriate policies and procedures to minimize the potential for conflicts between the interests of RBC GAM and its affiliated entities.

RBC GAM and its principals and affiliates do not devote their time exclusively to the management of the RBC ETFs. In addition, such persons perform similar or different services for others and may sponsor or establish other investment funds during the same period that they act on behalf of RBC ETFs. Such persons therefore will have conflicts of interest in allocating management time, services and functions to the RBC ETFs and the other persons for which they provide similar services.

Sub-advisors

BlueBay Asset Management LLP

BlueBay Asset Management LLP acts as the portfolio sub-advisor to the RBC BlueBay Global Diversified Income (CAD Hedged) ETF and is responsible for implementing the investment strategy of the RBC ETF pursuant to the terms of the BlueBay Investment Sub-advisory Agreement. BlueBay AM is an investment advisor located in London, England. BlueBay AM is authorised and regulated in the United Kingdom by the Financial Conduct Authority and in the United States is registered as an investment advisor with the U.S. Securities and Exchange Commission under the *U.S. Investment Advisers Act of 1940*. BlueBay AM is an indirect, wholly owned subsidiary of Royal Bank and an affiliate of RBC GAM.

Duties and Services to be Provided by BlueBay Asset Management LLP

The BlueBay Investment Sub-advisory Agreement sets out the duties of BlueBay AM. Under the BlueBay Investment Sub-advisory Agreement, BlueBay AM is responsible for the implementation of the investment strategy of the RBC BlueBay Global Diversified Income (CAD Hedged) ETF which includes the acquisition of the securities for the portfolio of the RBC ETF.

Under the BlueBay Investment Sub-advisory Agreement, BlueBay AM is required to act honestly, in good faith and in the best interests of the RBC BlueBay Global Diversified Income (CAD Hedged) ETF, and, in connection therewith, to exercise the degree of care, diligence and skill that a reasonably prudent portfolio manager would exercise in the circumstances. The BlueBay Investment Sub-advisory Agreement provides that BlueBay AM and its directors, officers and employees shall be indemnified and saved harmless by RBC GAM from and against all claims whatsoever (including costs, charges, expenses and damages in connection therewith) brought, commenced or prosecuted against BlueBay AM, its directors, officers and employees for or in respect of any act, deed, matter or thing whatsoever made, done, acquiesced in or omitted in or about or in relation to the execution of the duties of its position under the BlueBay Investment Sub-advisory Agreement, other than those which result from BlueBay AM's wilful misconduct, bad faith, negligence or failure to adhere to its standard of care.

The BlueBay Investment Sub-advisory Agreement may be terminated immediately by either BlueBay AM or RBC GAM on 61 days' prior written notice. Either party also has the right to terminate the agreement immediately if the other party commits certain acts or fails to perform its duties under the agreement.

The services of BlueBay AM and its officers and directors are not exclusive to RBC GAM. BlueBay AM or any of its affiliates and associates may, at any time, engage in the promotion, management or investment management of any other entity which invests primarily in the same securities as those held by the RBC BlueBay Global Diversified Income (CAD Hedged) ETF and provide similar services to other investment funds and other clients and engage in other activities. Investment decisions for the RBC BlueBay Global Diversified Income (CAD Hedged) ETF will be made independently of those made for other clients and independently of investments of BlueBay AM. On occasion, however, BlueBay AM may identify the same investment for the RBC BlueBay Global Diversified Income (CAD Hedged) ETF and for one or more of its other clients. If the RBC BlueBay Global Diversified Income (CAD Hedged) ETF and one or more of the other clients of BlueBay AM are engaged in the purchase or sale of the same security, the transactions will be effected on an equitable basis.

RBC GAM is responsible for the investment advice that BlueBay AM provides to the RBC BlueBay Global Diversified Income (CAD Hedged) ETF and for any losses that the RBC BlueBay Global Diversified Income (CAD Hedged) ETF may incur if BlueBay AM breaches its standard of care.

Key Personnel of BlueBay Asset Management LLP

The team that will be primarily responsible for the portfolio of the RBC BlueBay Global Diversified Income (CAD Hedged) ETF includes the following personnel:

NAME	POSITION WITH BLUEBAY AM	YEARS WITH BLUEBAY AM AND EXPERIENCE RELEVANT TO THE BUSINESS OF THE RBC BLUEBAY GLOBAL DIVERSIFIED INCOME (CAD HEDGED) ETF
Blair Reid	Partner, Senior PM – Multi Asset & Income	6 years at BlueBay AM
Raphael Robelin	Partner, Head of Multi-Asset Credit, Senior Portfolio Manager	16 years at BlueBay AM
Mark Dowding	Partner, Chief Investment Officer, Senior Portfolio Manager	9 years at BlueBay AM

Each of the foregoing individuals has held his or her current office or a senior position with BlueBay AM or an affiliate thereof during the past five years.

The investment decisions of the individuals listed above made on behalf of BlueBay AM are subject to the oversight of a committee. BlueBay AM uses a team approach to portfolio management. All members of the team drive the security selection process. BlueBay AM may also receive investment advice from its U.S. affiliate, BlueBay Asset Management USA LLC, however, BlueBay AM retains overall responsibility for the portfolio.

RBC Global Asset Management (U.S.) Inc.

RBC Global Asset Management (U.S.) Inc. acts as the portfolio sub-advisor to the RBC Short Term U.S. Corporate Bond ETF and is responsible for implementing the investment strategy of the RBC ETF pursuant to the terms of the RBC GAM (US) Investment Sub-advisory Agreement. RBC GAM (US) is an investment advisor located in the United States and is an investment advisor registered with the U.S. Securities and Exchange Commission under the *U.S. Investment Advisers Act of 1940*. RBC GAM (US) is an indirect, wholly owned subsidiary of Royal Bank and an affiliate of RBC GAM.

Duties and Services to be Provided by RBC Global Asset Management (U.S.) Inc.

The RBC GAM (US) Investment Sub-advisory Agreement sets out the duties of RBC GAM (US). Under the RBC GAM (US) Investment Sub-advisory Agreement, RBC GAM (US) is responsible for the implementation of the investment strategy of the RBC Short Term U.S. Corporate Bond ETF which includes the acquisition of the securities for the portfolio of the RBC ETF.

Under the RBC GAM (US) Investment Sub-advisory Agreement, RBC GAM (US) is required to act honestly, in good faith and in the best interests of the RBC Short Term U.S. Corporate Bond ETF, and, in connection therewith, to exercise the degree of care, diligence and skill that a reasonably prudent portfolio manager would exercise in the circumstances. The RBC GAM (US) Investment Sub-advisory Agreement provides that RBC GAM (US) and its directors, officers and employees shall be indemnified and saved harmless by RBC GAM from and against all claims whatsoever (including costs, charges, expenses and damages in connection therewith) brought, commenced or prosecuted against RBC GAM (US), its directors, officers and employees for or in respect of any act, deed, matter or thing whatsoever made, done, acquiesced in or omitted in or about or in relation to the execution of the duties of its position under the RBC GAM (US) Investment Sub-advisory Agreement, other than those which result from RBC GAM (US)'s wilful misconduct, bad faith, negligence or failure to adhere to its standard of care.

The RBC GAM (US) Investment Sub-advisory Agreement may be terminated immediately by either RBC GAM (US) or RBC GAM on 61 days' prior written notice. Either party also has the right to terminate the agreement immediately if the other party commits certain acts or fails to perform its duties under the agreement.

The services of RBC GAM (US) and its officers and directors are not exclusive to RBC GAM. RBC GAM (US) or any of its affiliates and associates may, at any time, engage in the promotion, management or investment management of any other entity which invests primarily in the same securities as those held by the RBC Short Term U.S. Corporate Bond ETF and provide similar services to other investment funds and other clients and engage in other activities. Investment decisions for the RBC Short Term U.S. Corporate Bond ETF will be made independently of those made for other clients and independently of investments of RBC GAM (US). On occasion, however, RBC GAM (US) may identify the same investment for the RBC Short Term U.S. Corporate Bond ETF and for one or more of its other clients. If the RBC Short Term U.S. Corporate Bond ETF and one or more of the other clients of RBC GAM (US) are engaged in the purchase or sale of the same security, the transactions will be effected on an equitable basis.

RBC GAM is responsible for the investment advice that RBC GAM (US) provides to the RBC Short Term U.S. Corporate Bond ETF and for any losses that the RBC Short Term U.S. Corporate Bond ETF may incur if RBC GAM (US) breaches its standard of care.

Key Personnel of RBC Global Asset Management (U.S.) Inc.

The team that will be primarily responsible for the portfolio of the RBC Short Term U.S. Corporate Bond ETF includes the following personnel:

NAME	POSITION WITH RBC GAM (US)	YEARS WITH RBC GAM (US) AND EXPERIENCE RELEVANT TO THE BUSINESS OF THE RBC SHORT TERM U.S. CORPORATE BOND ETF
Brandon Swensen	Co-Head U.S. Fixed Income	19 years
Jim Weinand	Portfolio Manager	9 years

Each of the foregoing individuals has held his or her current office or a senior position with RBC GAM (US) or an affiliate thereof during the past five years.

The investment decisions of the individuals listed above made on behalf of RBC GAM (US) are not subject to the oversight, approval or ratification of any committee. RBC GAM (US) uses a team approach to portfolio management. All members of the team contribute to the process and decisions are driven by the process.

Independent Review Committee

The IRC of the RBC ETFs reviews advisory matters relating to conflicts of interest and provides input on conflict of interest matters in respect of RBC GAM and the RBC ETFs.

In its role as the independent review committee of the RBC ETFs, the IRC will, no less frequently than annually, review and assess the adequacy and effectiveness of:

- › RBC GAM's policies and procedures relating to conflict of interest matters in respect of the RBC ETFs;
- › any standing instructions it has provided to RBC GAM pertaining to conflict of interest matters in respect of the RBC ETFs;
- › RBC GAM's and the RBC ETFs' compliance with any conditions imposed by the IRC in a recommendation or approval; and
- › any subcommittee to which the IRC has delegated any of its functions.

In addition, the IRC will, no less frequently than annually, review and assess the independence of its members, the compensation of its members, its effectiveness and the contribution and effectiveness of its members. The IRC will provide RBC GAM with a report of the results of such assessment.

The IRC will prepare an annual report that describes its activities as the independent review committee of the RBC ETFs. For a copy of this report (when it becomes available), at no cost, call us at 1-855-RBC-ETFs (722-3837) or ask your dealer. You can also get a copy of this report (when it becomes available) on the RBC ETFs website at www.rbcgam.com/etfs or by sending an email to etfs.investments@rbc.com (English) or fnb.investissements@rbc.com (French).

This report and other information about the IRC will also be available at www.sedar.com.

The IRC is composed of five members and each is independent of RBC GAM, the RBC ETFs and entities related to RBC GAM. Set forth below is the name, municipality of residence and principal occupation of each of the members of the IRC:

NAME	MUNICIPALITY OF RESIDENCE	CURRENT PRINCIPAL OCCUPATION
Paul K. Bates	Millgrove, Ontario	Academic and former Investment Industry Executive
Ruth Corbin	Toronto, Ontario	Board Director, Business Executive, and Forensic Psychologist
Catherine J. Kloepfer ¹	Winnipeg, Manitoba	Senior Vice President, Corporate Services and Chief Financial Officer, Winnipeg Airports Authority Inc.

NAME	MUNICIPALITY OF RESIDENCE	CURRENT PRINCIPAL OCCUPATION
Charles F. Macfarlane ²	Toronto, Ontario	Board Director and former Investment Industry Executive and Regulator
Suromitra Sanatani	Edmonton, Alberta	Corporate Director

Notes:

¹ Vice Chair of the IRC

² Chair of the IRC

The IRC acts as the independent review committee of the investment funds managed by RBC GAM, including the RBC ETFs. Each IRC member is entitled to receive an annual fee of \$55,000 (\$65,000 for the Chair), a meeting fee of \$5,000 for each regularly scheduled IRC meeting and a meeting fee of \$1,500 for additional full IRC meetings by conference call. Each member of the IRC is also reimbursed for expenses in connection with performing his or her duties in this regard. These fees and expenses are operating expenses paid by RBC GAM.

Policies, Procedures, Practices and Guidelines

RBC GAM has established appropriate policies, procedures, practices and guidelines to ensure the proper management of the RBC ETFs including, as required by NI 81-107, policies and procedures relating to conflicts of interest. The systems used by RBC GAM in relation to the RBC ETFs monitor and manage the business and sales practices, risk and internal conflicts of interest relating to the RBC ETFs, while ensuring compliance with applicable regulatory, compliance and corporate requirements. RBC GAM personnel responsible for compliance, together with management of RBC GAM, ensure that these policies, procedures, practices and guidelines are communicated from time to time to all relevant persons and are updated as necessary (including the systems referred to above) to reflect changing circumstances. RBC GAM also monitors the application of all such policies, procedures, practices and guidelines to ensure their continuing effectiveness.

Compliance with the investment practices and investment restrictions mandated by securities legislation is monitored by RBC GAM on a regular basis.

RBC GAM has also developed a personal trading policy for employees (the “**Policy**”) which is designed to prevent potential, perceived or actual conflicts between the interests of RBC GAM and its staff and the interests of clients and the RBC ETFs. Under the Policy, certain RBC GAM personnel are required to pre-clear certain personal securities transactions in order to ensure that those trades do not conflict with the best interests of the RBC ETFs and have not been offered to the person because of the position they hold in RBC GAM. RBC GAM has also adopted the basic principles set out in the Code of Ethics on Personal Investing established by the Investment Funds Institute of Canada.

Strategic Alliance with BlackRock Canada

RBC GAM and BlackRock Asset Management Canada Limited (“**BlackRock Canada**”) have entered into a strategic alliance with regard to their ETF businesses in Canada whereby the ETF families offered by RBC GAM and BlackRock Canada are brought together under one brand – RBC iShares (the “**Strategic Alliance**”). The Strategic Alliance is a long-term contractual strategic alliance without the establishment of a joint venture entity. Under the Strategic Alliance, each of RBC GAM and BlackRock Canada provides the other party with support and certain services in relation to administration, distribution support, marketing and management of the ETFs managed by each of RBC GAM and BlackRock Canada (collectively, the “**Strategic Alliance ETFs**”). In connection with the provision of these mutual services, each of RBC GAM and BlackRock Canada provides the other with certain limited information, review and consent rights in relation to the Strategic Alliance ETFs. In addition, as consideration for these mutual services provided as part of the Strategic Alliance, RBC GAM and BlackRock Canada agree to share management fee revenue earned from the Strategic Alliance ETFs. Although RBC GAM and BlackRock Canada provide services to each other, the two firms continue to maintain separate fund management and portfolio advisory responsibilities for the Strategic Alliance ETFs for which they serve as investment fund manager or portfolio advisor. The Strategic Alliance Agreement contemplates that RBC GAM and BlackRock Canada will work together on new product development and ongoing review and rationalization of the product lineup.

Custodian and Valuation Agent

RBC IS is the custodian and valuation agent of the RBC ETFs and provides administrative services to the RBC ETFs pursuant to a custodian agreement between RBC GAM, in its capacity as trustee and manager of the RBC ETFs, and RBC IS dated as of September 2, 2011 (as amended from time to time, the “**Custodian Agreement**”) and a valuation and administrative services agreement dated September 9, 2011

between RBC GAM, in its capacity as trustee and manager of the RBC ETFs, and RBC IS (as amended from time to time, the “**Valuation and Administrative Services Agreement**”). RBC IS is responsible for certain aspects of the day-to-day administration of the RBC ETFs, including calculating Net Asset Value, net income and net realized capital gains of the RBC ETFs. RBC IS’s principal office is located in Toronto, Ontario. Royal Bank owns 100% of RBC IS and RBC IS is an affiliate of RBC GAM.

Registrar and Transfer Agent

The registrar and transfer agent for the Units of the RBC ETFs is TSX Trust Company at its principal offices in Toronto, Ontario.

Auditor

The auditor of the RBC ETFs is PricewaterhouseCoopers LLP, Chartered Professional Accountants, Licensed Public Accountants, located at PwC Tower, 18 York Street, Suite 2600, Toronto, Ontario M5J 0B2.

Securities Lending Agent

RBC IS of Toronto, Ontario is the securities lending agent of each of the RBC ETFs pursuant to an amended and restated securities lending agency agreement between RBC GAM and RBC IS dated June 27, 2011 (the “**Securities Lending Agency Agreement**”). RBC IS is a wholly owned subsidiary of Royal Bank and an affiliate of RBC GAM. In accordance with the Securities Lending Agency Agreement, RBC IS will value the loaned securities and the collateral daily to ensure that the collateral is worth at least 102% of the value of the securities. Pursuant to the terms of the Securities Lending Agency Agreement, RBC IS will indemnify and hold harmless each of the RBC ETFs from any losses which may result from a breach of RBC IS’s standard of care or from its negligence, fraud or wilful misconduct. Either party may terminate the Securities Lending Agency Agreement by giving the other party five business days’ written notice.

Designated Brokers

RBC GAM has appointed a Designated Broker for each of the RBC ETFs. RBC GAM may appoint other Designated Brokers or change existing Designated Brokers from time to time. All Designated Brokers must be members of the Investment Industry Regulatory Organization of Canada and participants in the TSX or the Neo Exchange, as the case may be, and CDS. See “Purchase of Units – Designated Brokers”.

Promoter

RBC GAM has taken the initiative in founding and organizing the RBC ETFs and, accordingly, may be considered to be the promoter within the meaning of securities legislation of certain provinces and territories of Canada. RBC GAM, in its capacity as manager, trustee and portfolio manager of the RBC ETFs, receives compensation from the RBC ETFs. See “Fees and Expenses – Fees and Expenses Payable by the RBC ETFs – Management Fee”.

CALCULATION OF NET ASSET VALUE

The Net Asset Value of each class of Units of an RBC ETF will be equal to the value of the total assets held by the RBC ETF allocated to the class *pro rata*, less an amount equal to the total liabilities of the RBC ETF allocated to the class *pro rata*. Each RBC ETF will calculate the Net Asset Value for each class of Units on a daily basis after the close of the market on each day on which trading takes place on the TSX or the Neo Exchange, as the case may be, (a “**Canadian Trading Day**”), or on such other days as RBC GAM may determine, in its sole discretion.

Valuation Policies and Procedures

The determination of the Net Asset Value of a class of Units of an RBC ETF will be made on the following basis for the purpose of any issue or redemption of Units by an RBC ETF:

- (a) cash is comprised of cash and deposits with banks and is recorded at amortized cost. The carrying amount of cash approximates its fair value because it is short term in nature;
- (b) the value of any security which is listed or dealt with on a stock exchange or traded on an over-the-counter market will be (i) in the case of a security which was traded on a Canadian Trading Day, the closing sale price, or (ii) in the case of a security which was not traded on a Canadian Trading Day, the price last determined for such security for the purpose of calculating the Net Asset Value of an RBC ETF; provided, however, that (i) if the security is an underlying RBC ETF, the value of that underlying RBC ETF may be its reported net asset value

if RBC GAM, in its discretion, reasonably determines that such net asset value is fair, reasonable and reliable in the relevant circumstances and (ii) in circumstances where the closing price is not within the bid-ask spread, RBC GAM will determine the points within the bid-ask spread that are most representative of the fair value;

- (c) the value of any security, the resale of which is restricted or limited, shall be the lesser of the value thereof based on reported quotations in common use and that percentage of the market value of securities of the same class, the trading of which is not restricted or limited by reason of any representation, undertaking or agreement or by law, equal to the percentage that an RBC ETF's acquisition cost was of the market value of such securities at the time of acquisition, provided that a gradual taking into account of the actual value of the securities may be made where the date on which the restriction will be lifted is known;
- (d) the value of a futures contract will be (i) if daily limits imposed by the futures exchange through which the futures contract was issued are not in effect, the gain or loss on the futures contract that would be realized if, on a Canadian Trading Day, the position in the contract were to be closed out; or (ii) if daily limits imposed by the futures exchange through which the futures contract was issued are in effect, based on the current market value of the underlying interest of the futures contract;
- (e) margin paid or deposited on futures contracts will be reflected as an account receivable, and, if not in the form of cash, will be noted as held for margin;
- (f) any market price reported in foreign currency will be translated into Canadian currency at the prevailing rate of exchange, as determined by RBC GAM, on the Canadian Trading Day the Net Asset Value of the applicable RBC ETF is being determined;
- (g) the value of a forward contract or swap will be the gain or loss that would arise as a result of closing the position at the valuation date;
- (h) the value of bonds, mortgage-backed securities and other debt securities will be the mid price quoted by major dealers or independent pricing vendors in such securities;
- (i) the value of short-term investments will be cost plus accrued interest, which approximates fair value;
- (j) warrants will be valued using a recognized option pricing model, which includes factors such as the terms of the warrant, time value of money and volatility inputs that are significant to such valuation;
- (k) all expenses or liabilities (including fees payable to RBC GAM) of an RBC ETF shall be calculated on an accrual basis; and
- (l) notwithstanding the foregoing, the value of the total assets held by an RBC ETF will be the value that RBC GAM determines, in its reasonable discretion, most accurately reflects its value in an open and unrestricted market between informed and prudent parties, acting at arm's length and under no compulsion to act, expressed in terms of money or money's worth.

The value of any security or property to which the above valuation principles cannot be applied (because no price or yield equivalent quotations are available as provided above, or the current pricing option is not appropriate, or for any other reason), shall be the fair value as determined from time to time by RBC GAM.

The RBC ETFs have procedures to determine the fair value of securities and other financial instruments for which market prices are not readily available or which may not be reliably priced. Procedures are in place to determine the fair value of foreign securities traded in countries outside of North America daily to avoid stale prices and to take into account, among other things, any significant events occurring after the close of a foreign market.

RBC GAM also has procedures where the RBC ETFs primarily employ a market-based approach, which may use related or comparable assets or liabilities, NAV per Unit (for exchange-traded funds), recent transactions, market multiples, book values and other relevant information for the investment to determine its fair value. The RBC ETFs may also use an income-based valuation approach in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments, but only if they arise as a feature of the instrument itself. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed.

Net Asset Value per Unit

The Net Asset Value per Unit of a class of each RBC ETF will be calculated on each Canadian Trading Day, or on such other days as RBC GAM may determine in its sole discretion, after the close of the market by dividing the Net Asset Value of the class of the applicable RBC ETF by the total number of Units of the class outstanding. The Net Asset Value per Unit and Net Asset Value of each RBC ETF will be determined in the currency in which the Units are denominated and may also be determined in any other currency at the discretion of RBC GAM from time to time.

Each portfolio transaction will be reflected in the computation of Net Asset Value per Unit no later than the computation of Net Asset Value per Unit next made after the date on which the transaction becomes binding. The issue, exchange or redemption of Units of a class will be reflected in the computation of Net Asset Value per Unit of the class next made after the computation made for the purpose of such issue, exchange or redemption.

Reporting of Net Asset Value

The Net Asset Value and Net Asset Value per Unit of each class of each RBC ETF will be displayed daily on the RBC ETFs website at www.rbcgam.com/etfs.

PLAN OF DISTRIBUTION

Units of the RBC ETFs are listed on the TSX or the Neo Exchange, as the case may be, and offered on a continuous basis and investors are able to buy or sell Units of the RBC ETFs on the TSX or the Neo Exchange, as the case may be, or any other exchange on which the RBC ETFs are traded through registered brokers and dealers in the province or territory where the investor resides.

Non-Resident Unitholders

At no time may (i) non-residents of Canada, (ii) partnerships that are not Canadian partnerships or (iii) a combination of non-residents of Canada and such partnerships (all as defined in the Tax Act) be the beneficial owners of a majority of the Units of an RBC ETF. RBC GAM may require declarations as to the jurisdictions in which a beneficial owner of Units is resident and, if a partnership, its status as a Canadian partnership. If RBC GAM becomes aware, as a result of requiring such declarations as to beneficial ownership or otherwise, that the beneficial owners of 40% of the Units of an RBC ETF then outstanding are, or may be, non-residents and/or partnerships that are not Canadian partnerships, or that such a situation is imminent, RBC GAM may make a public announcement thereof. If RBC GAM determines that more than 40% of such Units are beneficially held by non-residents and/or partnerships that are not Canadian partnerships, then (i) the RBC ETF shall not accept any such subscription or any other subscription for Units from any such non-resident and/or partnership or issue any Units to any such non-resident and/or partnership and (ii) RBC GAM may send a notice to such non-resident unitholders and partnerships, chosen in inverse order to the order of acquisition or in such manner as RBC GAM may consider equitable and practicable, requiring them to sell their Units or a portion thereof within a specified period of not less than 30 days. If the unitholders receiving such notice have not sold the specified number of Units or provided RBC GAM with satisfactory evidence that they are not non-residents or partnerships other than Canadian partnerships within such period, RBC GAM may on behalf of such unitholders exchange and/or redeem such Units and, in the interim, shall suspend the voting and distribution rights attached to such Units. Upon such exchange and/or redemption, the affected holders shall cease to be beneficial holders of Units and their rights shall be limited to receiving the net proceeds realized on the exchange and/or redemption of such Units.

Notwithstanding the foregoing, RBC GAM may determine not to take any of the actions described above if RBC GAM has been advised by legal counsel that the failure to take any of such actions would not adversely impact the status of the RBC ETF as a mutual fund trust for purposes of the Tax Act or, alternatively, may take such other action or actions as may be necessary to maintain the status of the RBC ETF as a mutual fund trust for purposes of the Tax Act.

ATTRIBUTES OF THE SECURITIES

Description of the Securities Distributed

A Unit of each RBC ETF represents an equal beneficial interest in the applicable RBC ETF. Each RBC ETF is entitled to issue an unlimited number of CAD Units. Each of RBC Short Term U.S. Corporate Bond ETF, RBC Quant U.S. Dividend Leaders ETF, RBC Quant U.S. Equity Leaders ETF, RBC Quant European Dividend Leaders ETF, RBC Quant EAFE Dividend Leaders ETF, RBC Quant EAFE Equity Leaders ETF, RBC Quant Emerging Markets Dividend Leaders ETF, RBC Quant Emerging Markets Equity Leaders ETF, RBC Quant Global Infrastructure Leaders ETF and RBC Quant Global Real Estate Leaders ETF is entitled to issue an unlimited number of USD Units.

The USD Units of each of RBC Short Term U.S. Corporate Bond ETF, RBC Quant U.S. Dividend Leaders ETF, RBC Quant U.S. Equity Leaders ETF, RBC Quant European Dividend Leaders ETF, RBC Quant EAFE Dividend Leaders ETF, RBC Quant EAFE Equity Leaders ETF, RBC Quant Emerging Markets Dividend Leaders ETF, RBC Quant Emerging Markets Equity Leaders ETF, RBC Quant Global Infrastructure Leaders ETF and RBC Quant Global Real Estate Leaders ETF are identical to the CAD Units of such fund except that the USD Units are denominated in U.S. dollars whereas the CAD Units are denominated in Canadian dollars.

On December 16, 2004, the *Trust Beneficiaries' Liability Act, 2004* (Ontario) came into force. This statute provides that holders of units of a trust are not, as beneficiaries, liable for any default, obligation or liability of the trust if, when the default occurs or the liability arises: (i) the trust is a reporting issuer under the *Securities Act* (Ontario); and (ii) the trust is governed by the laws of the Province of Ontario. Each of the RBC ETFs is a reporting issuer under the *Securities Act* (Ontario) and each RBC ETF is governed by the laws of the Province of Ontario by virtue of the provisions of the Master Declaration of Trust.

Subscriptions

All orders to purchase Units directly from the RBC ETFs must be placed by Authorized Dealers or Designated Brokers. See "Purchase of Units – Issuance of Units".

Certain Provisions of the Units

Each Unit of each class of an RBC ETF has identical rights and privileges. Each whole Unit of a class is entitled to one vote at all meetings of unitholders and is entitled to participate equally with respect to any and all distributions made by an RBC ETF to unitholders, including distributions of net income and net realized capital gains and distributions upon the termination of the RBC ETF. See "Unitholder Matters". Units are issued only as fully paid and are non-assessable.

Exchange of Units for Baskets

Unitholders of the RBC ETFs may exchange the Prescribed Number of Units (or an integral multiple thereof) of any RBC ETF on any Trading Day for Baskets and cash. See "Exchange and Redemption of Units – Exchange of Units at Net Asset Value per Unit for Baskets and Cash".

Redemptions of Units for Cash

On any Trading Day, unitholders may redeem Units of any RBC ETF for cash at a redemption price per Unit equal to 95% of the Net Asset Value of the applicable Units of the class on the effective day of the redemption. Unitholders will generally be able to sell (rather than redeem) Units at the full market price on the TSX or the Neo Exchange, as the case may be, through a registered broker or dealer subject only to customary brokerage commissions. Therefore, unitholders are advised to consult their brokers, dealers or investment advisors before redeeming their Units for cash. No fees or expenses are paid by a unitholder to RBC GAM or the RBC ETFs in connection with selling Units on the TSX or the Neo Exchange, as the case may be. See "Exchange and Redemption of Units – Redemption of Units for Cash".

Unitholders of an RBC ETF will not have any right to vote Constituent Securities held by such RBC ETF.

UNITHOLDER MATTERS

Meetings of Unitholders

Except as otherwise required by law, meetings of unitholders of an RBC ETF will be held if called by RBC GAM upon written notice of not less than 21 days, nor more than 50 days, before the meeting.

Matters Requiring Unitholder Approval

NI 81-102 requires a meeting of unitholders of an RBC ETF to be called to approve certain changes as follows:

- (i) the basis of the calculation of a fee or expense that is charged to the RBC ETF or directly to its unitholders by the RBC ETF or RBC GAM in connection with the holding of Units of the RBC ETF is changed in a way that could result in an increase in charges to the RBC ETF or its unitholders, except where:
 - (a) the RBC ETF is at arm's length to the person or company charging the fee or expense;
 - (b) the unitholders have received at least 60 days' prior written notice before the effective date of the change; and
 - (c) the right to notice described in (b) is disclosed in the prospectus of the RBC ETF;
- (ii) a fee or expense, to be charged to an RBC ETF or directly to its unitholders by the RBC ETF or RBC GAM in connection with the holding of Units of the RBC ETF that could result in an increase in charges to the RBC ETF or its unitholders, is introduced;
- (iii) the manager of the RBC ETF is changed, unless the new manager of the RBC ETF is an affiliate of RBC GAM;
- (iv) the fundamental investment objectives of the RBC ETF are changed;
- (v) the RBC ETF decreases the frequency of the calculation of its Net Asset Value per Unit;
- (vi) the RBC ETF undertakes a reorganization with, or transfers its assets to, another mutual fund; if the RBC ETF ceases to continue after the reorganization or transfer of assets and the transaction results in the unitholders of the RBC ETF becoming securityholders in the other mutual fund, unless:
 - (a) the IRC, in its capacity as independent review committee of the RBC ETF, has approved the change in accordance with NI 81-107;
 - (b) the RBC ETF is being reorganized with, or its assets are being transferred to, another mutual fund that is subject to NI 81-102 and NI 81-107 and managed by RBC GAM, or an affiliate of RBC GAM;
 - (c) the unitholders have received at least 60 days' prior written notice before the effective date of the change;
 - (d) the right to notice described in (c) is disclosed in the prospectus of the RBC ETF; and
 - (e) the transaction complies with certain other requirements of applicable securities legislation;
- (vii) the RBC ETF undertakes a reorganization with, or acquires assets from, another mutual fund; if the RBC ETF continues after the reorganization or acquisition of assets, the transaction results in the securityholders of the other mutual fund becoming unitholders of the RBC ETF, and the transaction would be a material change to the RBC ETF; or
- (viii) any matter which is required by the constating documents of the RBC ETF or by the laws applicable to the RBC ETF or by any agreement to be submitted to a vote of the unitholders of the RBC ETF.

In addition, the auditors of an RBC ETF may not be changed unless:

- (i) the IRC, in its capacity as the independent review committee of the RBC ETF, has approved the change in accordance with NI 81-107;
- (ii) unitholders have received at least 60 days' prior written notice before the effective date of the change; and
- (iii) the right to notice described in (ii) is disclosed in the prospectus of the RBC ETFs.

Approval of unitholders of an RBC ETF will be deemed to have been given if expressed by resolution passed at a meeting of unitholders of the RBC ETF duly called and held for the purpose of considering the same, by at least a majority of the votes cast.

Amendments to the Master Declaration of Trust

RBC GAM may amend the Master Declaration of Trust from time to time in writing. Except in the circumstances set out below, RBC GAM must notify unitholders at least 60 days prior to the effective date of any amendments made to the Master Declaration of Trust. None of the following shall occur in respect of an RBC ETF unless duly approved by at least a majority of the unitholders present in person or by proxy at a meeting of unitholders which has been duly called and held for that purpose:

- (a) any modification, amendment, alteration or deletion of the rights, privileges or restrictions attaching to Units set out in the Master Declaration of Trust;
- (b) any change in the fundamental investment objectives of an RBC ETF set out in the Master Declaration of Trust;

- (c) any increase in the amount of fees payable by an RBC ETF; and
- (d) any other matter in respect of which applicable securities legislation would require a unitholder vote to be held.

Unitholders are entitled to one vote per whole Unit held on the record date established for voting at any meeting of unitholders.

Pursuant to the Master Declaration of Trust, RBC GAM is not required to provide notice with respect to any amendment to the Master Declaration of Trust that is (i) made to ensure continuing compliance with Canadian securities legislation and other applicable laws in effect from time to time; (ii) intended to provide additional protection for unitholders; (iii) intended to deal with minor or clerical matters or to correct typographical mistakes, ambiguities or manifest omissions or errors or (iv) any amendment which, in the opinion of RBC GAM, is not prejudicial to unitholders and is necessary or desirable.

Permitted Mergers

An RBC ETF may, without unitholder approval, enter into a merger or other similar transaction with any Canadian mutual fund which has a similar investment objective, valuation procedure and fee structure (a “**Permitted Merger**”), subject to:

- (a) approval of the merger by the IRC, in its capacity as the independent review committee of the applicable RBC ETF;
- (b) compliance with certain merger pre-approval conditions set out in Section 5.6 of NI 81-102; and
- (c) written notice being provided to unitholders at least 60 days before the effective date of the merger.

In connection with a Permitted Merger, the merging funds will be valued at their respective Net Asset Values for the purpose of such transaction.

Reporting to Unitholders

The fiscal year end of the RBC ETFs is September 30. The RBC ETFs will deliver or make available to unitholders (i) audited comparative annual financial statements; (ii) unaudited interim financial statements; and (iii) annual and interim MRFPs. Such documents are incorporated by reference into, and form an integral part of, this prospectus. See “Documents Incorporated by Reference”.

Each unitholder will also be mailed annually, by his or her broker, no later than March 31, information necessary to enable such unitholder to complete an income tax return with respect to amounts paid or payable by one or more RBC ETFs in respect of the preceding taxation year of such RBC ETF(s).

TERMINATION OF THE RBC ETFs

Each RBC ETF may be terminated by RBC GAM without unitholder approval on not less than 60 days’ notice to unitholders. The rights of unitholders to exchange and redeem Units will cease as and from the termination date of the applicable RBC ETF so fixed by RBC GAM. Upon termination on the termination date of an RBC ETF, the portfolio securities, cash and other assets remaining after paying or providing for all liabilities and obligations of the RBC ETF shall be distributed *pro rata* among the unitholders of the RBC ETF.

PRINCIPAL HOLDERS OF SECURITIES

CDS & Co., the nominee of CDS, is the registered owner of the Units of all of the RBC ETFs, which it holds for various brokers and other persons on behalf of their clients and others. From time to time, an RBC ETF or another investment fund managed by RBC GAM or an affiliate thereof may beneficially own, directly or indirectly, more than 10% of the Units of a class of an RBC ETF.

INTERESTS OF MANAGEMENT AND OTHERS IN MATERIAL TRANSACTIONS

RBC GAM, on behalf of the RBC ETFs, may enter into various Authorized Dealer Agreements with registered dealers (that may or may not be Designated Brokers) pursuant to which the Authorized Dealers may subscribe for Units of one or more of the RBC ETFs as described under “Purchase of Units – Issuance of Units”.

RBC GAM will receive fees for its services to the RBC ETFs. See “Fees and Expenses – Fees and Expenses Payable by the RBC ETFs – Management Fee”.

RBC Dominion Securities Inc., an affiliate of RBC GAM, is an investor in Aequis Innovations Inc., owning approximately 15%. Aequis Innovations Inc. is the parent company of the Neo Exchange. Units of one or more RBC ETFs may be listed on the Neo Exchange. Trades in units of exchange-traded funds managed by RBC GAM may be routed to the Neo Exchange.

PROXY VOTING DISCLOSURE FOR PORTFOLIO SECURITIES HELD

As portfolio manager for the RBC ETFs, RBC GAM has responsibility for the investment management of the RBC ETFs, including the exercise of voting rights attaching to securities held by the RBC ETFs. In the case of certain sub-advised RBC ETFs, RBC GAM has delegated the investment management responsibility and the related obligation to exercise the RBC ETF's voting rights to the Sub-advisor of the RBC ETF. In the discussion below, "RBC ETF(s)" may also refer to Underlying Fund(s).

Each RBC ETF has proxy voting policies and procedures that apply to securities held by the RBC ETF to which voting rights are attached. RBC GAM has established proxy voting policies, procedures and guidelines (the "Proxy Voting Guidelines") for securities held by the RBC ETFs to which voting rights are attached. The Proxy Voting Guidelines provide that each RBC ETF's voting rights will be exercised in accordance with the best interests of the RBC ETF.

Certain Sub-advisors have established their own proxy voting policies and procedures for the RBC ETFs sub-advised by them and others have adopted the Proxy Voting Guidelines. For Sub-advisors who have established their own proxy voting policies and procedures, RBC GAM reviews such policies and procedures on an annual basis.

Issuers' proxies most frequently contain proposals to elect corporate directors, to appoint external auditors and set their compensation, to adopt or amend management compensation plans, and to amend the capitalization of the company.

The Proxy Voting Guidelines set out the principles of corporate governance that RBC GAM will follow to determine whether and how to vote on any matter for which an RBC ETF receives proxy materials. The Proxy Voting Guidelines establish guidelines relating to the voting of securities of an issuer for the following categories of matters: board of directors, management and director compensation, takeover bid protection, shareholder rights and shareholder proposals. While RBC GAM will generally vote the RBC ETFs' proxies in accordance with the Proxy Voting Guidelines, there may be circumstances where it believes it is in the best interests of an RBC ETF to vote differently than the manner contemplated by the guidelines. The ultimate decision as to the manner in which the RBC ETFs' proxies will be voted rests with RBC GAM. Any matters not covered by the Proxy Voting Guidelines, including business issues specific to the issuer or issues raised by shareholders of the issuer, will be assessed on a case-by-case basis with a focus on the potential impact of the vote on shareholder value.

RBC GAM has retained Institutional Shareholder Services Inc. to provide administrative and proxy voting services to the RBC ETFs. RBC GAM also has a Proxy Voting Policy which includes procedures to ensure that voting rights are exercised in accordance with the best interests of the RBC ETFs.

If the potential for a conflict of interest arises in connection with proxy voting, the Proxy Voting Policy provides for an escalation process, including the requirement that the proxy voting for related parties be reviewed and a positive recommendation provided by the IRC.

For Sub-advisors following their own proxy voting policies and procedures, such policies and procedures guide the Sub-advisor in determining whether and how to vote on any matter for which the sub-advised RBC ETF receives proxy materials.

The Proxy Voting Guidelines and each Sub-advisor's proxy voting policy, as applicable, are available on request, at no cost, by calling 1-855-RBC-ETFs (722-3837) or by writing to RBC Global Asset Management Inc., 155 Wellington Street West, Suite 2200, Toronto, Ontario M5V 3K7. The Proxy Voting Guidelines are also available from the RBC GAM website at www.rbcgam.com/en/ca.

The proxy voting record for each RBC ETF for the most recent 12-month period ended June 30 of each year will be available at no cost to any unitholder of the RBC ETF upon request at any time after August 31 of that year. The proxy voting record for each RBC ETF will also be available from the RBC ETFs website at www.rbcgam.com/etfs.

Voting Rights and Fund of Funds Investments

Each of RBC Quant U.S. Dividend Leaders (CAD Hedged) ETF, RBC Quant U.S. Equity Leaders (CAD Hedged) ETF, RBC Quant European Dividend Leaders (CAD Hedged) ETF, RBC Quant EAFE Dividend Leaders (CAD Hedged) ETF, RBC Quant EAFE Equity Leaders (CAD Hedged) ETF, RBC Strategic Global Dividend Leaders ETF and RBC Strategic Global Equity Leaders ETF and certain other RBC ETFs may invest in

other Underlying Funds, including, in some cases, another RBC ETF. If a unitholder meeting is called for an Underlying Fund that is managed by us or an affiliate, you will have the voting rights that come with the units of the Underlying Fund and we will not vote the units of the Underlying Fund.

MATERIAL CONTRACTS

The following table summarizes the material contracts for the RBC ETFs. These contracts are available for inspection at the offices of the RBC ETFs at the address above.

September 2, 2011, as amended on February 29, 2012, August 23, 2012, January 2, 2014, September 15, 2014, April 15, 2015, January 6, 2016, August 15, 2016, August 1, 2017, August 25, 2017, February 27, 2018, April 20, 2018, August 16, 2018, April 5, 2019 and May 22, 2019.
Valuation and Administrative Services Agreement	RBC IS is the valuation agent of the RBC ETFs and provides certain administrative services to the RBC ETFs, including fund accounting.	September 9, 2011, as amended on February 29, 2012, August 23, 2012, January 2, 2014, September 15, 2014, April 15, 2015, January 6, 2016, August 15, 2016, August 1, 2017, August 25, 2017, February 27, 2018, April 20, 2018, August 16, 2018, April 5, 2019 and May 22, 2019.

EXPERTS

Osler, Hoskin & Harcourt LLP, legal counsel to the RBC ETFs and RBC GAM, has provided certain legal opinions on the principal Canadian federal income tax considerations that apply to an investment in the Units by an individual resident in Canada. See "Income Tax Considerations". As of the date hereof, partners and associates of Osler, Hoskin & Harcourt LLP beneficially owned, directly or indirectly, less than 1% of the outstanding securities of the RBC ETFs.

PricewaterhouseCoopers LLP, Chartered Professional Accountants, the auditor of the RBC ETFs, has consented to the incorporation by reference of its report on the RBC ETFs dated March 11, 2020. PricewaterhouseCoopers LLP has confirmed that it is independent with respect to the RBC ETFs within the meaning of the Rules of Professional Conduct of the Institute of Chartered Professional Accountants of Ontario.

EXEMPTIONS AND APPROVALS

Each RBC ETF has received exemptive relief from the Canadian securities regulatory authorities to permit the following practices:

- (a) to permit the redemption of less than the Prescribed Number of Units of an RBC ETF at a price equal to 95% of the Net Asset Value of the applicable Units on the effective date of redemption;

- (b) to relieve the RBC ETFs from the requirement that a prospectus contain a certificate of the underwriters;
- (c) to relieve the RBC ETFs from the requirement to include in the prospectus a statement respecting purchasers' statutory rights of withdrawal and remedies of rescission as prescribed in item 36.2 of Form 41-101F2 – *Information Required in an Investment Fund Prospectus*;
- (d) to enable the purchase by a unitholder of more than 20% of a class of Units of any RBC ETF through purchases on the TSX or the Neo Exchange, as the case may be, without regard to the takeover bid requirements of applicable Canadian securities legislation provided that any such unitholder, and any person acting jointly or in concert with the unitholder, undertakes to RBC GAM not to vote more than 20% of a class of Units of that RBC ETF at any meeting of unitholders;
- (e) to permit an RBC ETF to borrow cash for a period not longer than 45 days and, if required by the lender, provide a security interest over any of its portfolio assets as a temporary measure to fund the portion of any distributions payable to unitholders that represents amounts that have not yet been received by that RBC ETF and, in any event, does not exceed 5% of the net assets of such RBC ETF;
- (f) to permit an RBC ETF to purchase equity securities in respect of which a related party has acted as underwriter where a prospectus has not been filed, provided that: (i) the issuer is a reporting issuer in Canada and (ii) the conditions which apply to purchasers where a prospectus has been filed are complied with;
- (g) to permit an RBC ETF to purchase equity securities distributed in the United States and the United Kingdom, European Union, Switzerland, Norway, Australia, Hong Kong and Singapore (collectively, the “**other jurisdictions**”) provided that: (i) any related party that is involved in the distribution is regulated in respect of its underwriting activities in Canada, the United States or such other jurisdictions, (ii) the securities issued in the distribution must be listed on a recognized exchange and if the securities are acquired during the 60-day period after the distribution they are acquired on a recognized exchange and (iii) the conditions which apply to the purchase of equity securities distributed in Canada in respect of which a related party has acted as underwriter are complied with;
- (h) to permit each RBC ETF to purchase securities of Undertakings for Collective Investment in Transferable Securities pursuant to the UCITS IV Directive (2009/65/EC), which are listed on the London Stock Exchange and managed by BlackRock Asset Management Ireland Limited (each, a “**UK Listed ETF**”), provided that: (i) the purchase is made in accordance with the fundamental investment objectives of the RBC ETF, (ii) not more than 10% of the RBC ETF's Net Asset Value is invested in securities of a single UK Listed ETF, (iii) not more than 20% of the RBC ETF's Net Asset Value is invested in securities of UK Listed ETFs in aggregate, (iv) the UK Listed ETF is not a synthetic ETF, (v) the purchase otherwise complies with section 2.5 of NI 81-102 and (vi) the RBC ETF will not acquire any additional securities of a UK Listed ETF and shall dispose of any securities of a UK Listed ETF then held, in the event that the regulatory regime applicable to the UK Listed ETF is changed in any material way;
- (i) to permit each RBC ETF that has, or will have, a portion of its portfolio assets invested in securities which customarily settle on the third business day after the applicable trade date (i.e. on a T+3 basis) to settle primary market trades in Units (i.e. an exchange or redemption) within three business days after the applicable trade date rather than within two business days after the applicable trade date which is required under NI 81-102; and
- (j) to permit the RBC ETFs to enter into and maintain a currency forward contract (an “**FX Forward Contract**”) in which an RBC ETF delivers its currency in which it determines its net asset value (the “**Base Currency**”) and receives another currency, without the requirement to comply with the cash cover requirements in section 2.8(1)(d) of NI 81-102, provided that (i) the use of FX Forward Contracts is consistent with the fundamental investment objectives and investment strategies of the applicable RBC ETF; (ii) an RBC ETF must not enter into an FX Forward Contract if, immediately after entering into an FX Forward Contract, the aggregate amount of an RBC ETF's Base Currency to be delivered under all FX Forward Contracts (the “**Aggregate Amount**”) would exceed the value of the assets held by the RBC ETF that are denominated in its Base Currency (the “**Base Currency Holdings**”); and (iii) if an RBC ETF's Aggregate Amount exceeds at any time the value of its Base Currency Holdings, the RBC ETF must, as quickly as commercially reasonable, take all necessary steps to reduce the Aggregate Amount to an amount that does not exceed the value of its Base Currency Holdings.

The practices described in paragraphs (e) to (g) above must be carried out in accordance with NI 81-107 in respect of standing instructions of the IRC and reporting to securities regulatory authorities.

PURCHASERS' STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

Securities legislation in certain of the provinces and territories of Canada provides purchasers with the right to withdraw from an agreement to purchase ETF securities within 48 hours after the receipt of a confirmation of a purchase of such securities. In several of the provinces and territories, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, revisions of the price or damages if the prospectus and any amendment contains a misrepresentation, or for non-delivery of the ETF Facts, provided that the remedies for rescission, revisions of the price or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory.

The purchaser should refer to the applicable provisions of the securities legislation of the province or territory for the particulars of these rights or consult with a legal advisor.

DOCUMENTS INCORPORATED BY REFERENCE

During the period in which the RBC ETFs are in continuous distribution, additional information will be available in:

- (a) the most recently filed comparative annual financial statements of the RBC ETFs, together with the accompanying report of the auditor;
- (b) any interim financial statements of the RBC ETFs filed after the most recently filed comparative annual financial statements of the RBC ETFs;
- (c) the most recently filed annual MRFP of the RBC ETFs;
- (d) any interim MRFP of the RBC ETFs filed after the most recently filed annual MRFP of the RBC ETFs; and
- (e) the most recently filed ETF Facts of each RBC ETF.

These documents are or will be incorporated by reference into this prospectus, which means that they legally form part of this prospectus just as if they were printed as part of this prospectus. These documents may be obtained upon request, at no cost, by calling 1-855-RBC-ETFS (722-3837), by emailing RBC GAM at etfs.investments@rbc.com (English) or fnb.investissements@rbc.com (French) or by contacting a registered dealer. These documents and other information about the RBC ETFs are also available from the RBC ETFs website at www.rbcgam.com/etfs and are publicly available at www.sedar.com. Any documents set forth above, if filed by an RBC ETF after the date of this prospectus and before the termination of distribution of such RBC ETF, are deemed to be incorporated by reference in this prospectus.

Any statement contained in a document incorporated by reference herein shall be deemed to be modified or superseded for purposes of this prospectus to the extent that a statement contained herein or in any other subsequently filed document that also is incorporated by reference herein modifies or supersedes that statement. The modifying or superseding statement need not state that it has modified or superseded a prior statement or includes any other information set forth in the document that it modifies or supersedes. The making of a modifying or superseding statement shall not be deemed an admission for any purposes that the modified or superseded statement, when made, constituted a misrepresentation, an untrue statement of material fact or an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it was made. Any statement so modified or superseded shall not be deemed in its unmodified or superseded form to constitute a part of this prospectus.

**CERTIFICATE OF THE RBC ETFs, THE TRUSTEE,
MANAGER AND PROMOTER**
